

**Directions:** You may use this form to write out the learning unit that you have created, or to submit your modifications to one of the units already posted on the site. Be sure to complete all of the sections, and include any supplementary worksheets or rubrics. Look at the status bar at the bottom of the screen for reminders and hints.

**Learning Unit Title**

Give A Descriptive Title

**Background/Summary**

Summarize the unit in about 100 words

**Curricular Areas**

What curricular areas will be covered in the unit?

**Grade Level**

Grades

**Timeframe**

How long will the unit last?

**Materials**

What materials will be necessary to teach the unit?

**Standards**

What state or national standards will be taught in the unit?

**Objectives**

What are your student-centered objectives?

**Procedure Day One**

What will you do first to teach this unit?

**Procedure Day Two**

What will you do during the second session?

**Procedure Day Three**

What will you do during the third class period?

**Procedure Day Four to Completion**

What are the remainder of the activities? You may add more days in this section if you wish.

**Assessment**

How will the students show you what they have learned? Attach tests, but write in the project-based assessments.

**Follow-up/Enrichment Activities**

How can you extend student learning?

**Additional Resources**

What other background materials might be helpful?

**About the Author**

What would you like us to know about you?
