

How to Create an Online Account

You can create a **my Social Security** account to access your *Social Security Statement* to check your earnings and get your benefit estimates.

If you receive benefits, you can also:

- get your benefit verification letter;
- change your address and phone number;
- start or change your direct deposit;
- request a replacement Medicare card; and
- get a replacement SSA-1099 or SSA-1042S for tax season.

Even if you do not currently receive benefits, you can get a benefit verification letter stating that you:

- never received Social Security benefits, Supplemental Security Income (SSI) or Medicare; or
- received benefits in the past, but do not currently receive them (The letter will include the date your benefits stopped and how much you received that year.); or
- applied for benefits but haven't received an answer yet.

You may be able to use your free **my Social Security** account at www.socialsecurity.gov/myaccount to request a replacement Social Security card online, as long as you live in one of the participating states or the District of Columbia, are not

requesting a name change or any other change to your card, and you meet other requirements.

There is no fee to create a **my Social Security** account, but you must have an email address. See other side for instructions on setting up an account using an activation code.
