All structures meet required setbacks

All non-permitted signs have been removed from the property

COMMERCIAL/INDUSTRIAL AND OTHER NON-RESIDENTIAL BUILDINGS

Prior to final zoning inspection, **ASBUILTS** must be submitted by the developer or engineering firm and must be approved by the County project engineer. In addition, if the parcel has a SPEX, ZMAP or ZCPA tied to the property then all proffered and/or special exception conditions must be met, prior to the final occupancy permit issuance. These conditions and/or proffers will be verified upon zoning inspection. The following will be verified during the inspection: .

Site matches approved Site Plan / Concept Development Plan including but not limited to:

Parking Spaces

Landscape

Address

Setbacks

Structures

TENANT FIT OUTS

The tenant did not make changes to the building's exterior and the "Shell" has received all final inspections

The commercial buildings and tenant spaces do not have any signs which do not have an approved zoning permit

All condos or suites are properly addressed

All conditions or proffers are met per the zoning permit and approved plans
