# THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

This is a time of great events and you will want the news accurately and promptly. The Democrats, for the first time in sixteen years, will have the Presidency and they will also control both branches of Congress. The political news is sure to be of the most absorbing interest.

There is a great war in the Old World, and you may read of the extinction of the vast Turkish Empire in Europe, just as a few years ago you read how Spain lost her last foot of soil in America, after having ruled the empire of half the New World.

The World long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features, serial stories, humor, markets, cartoons; in fact, everything that is to be found in a first class daily.

THE THRICE-A-WEEK WORLD's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Middlebury Register together for one year for \$1.65 anywhere in Vermont. The regular subscription price of the two papers is \$2.00.

## Know Paint.

There's a paint-education in this ad.

Buy by the job, not gallon. Buy by the paint job, not the job.

The price of paint is so much a gallon; that can't be helped but amounts to nothing.

The price of painting is so much a day; that can't be helped but amounts to nothing.

Put them together. How can you do it? You've got to lose perhaps half of your money.

Devoe, 10 gallons enough for the average job; an average paint 15. Now reckon your costs. Count labor a day for a gallon. Devoe 10 days; the other 15.

Devoe about \$50; the average paint about \$70 or \$80; the dearer the labor the bigger the difference, always that way.

But that's for the job. How long is it going to last? One twice as long as the other—adv.

DEVOE.

A. Calhoun & Son sell it.
