

Revit 2016 School Installation Without a License Server

Updated: 7/13/2016

Preparing your system and installation (+/- 4 hours)

*It is imperative that you consult your IT team prior to installing any software or attempting to amend any settings on your computer. Administrative rights are based on a profile created by your System Administrator; therefore a plethora of variances are possible and these 'rights' may not necessarily allow you to install software properly.

I. Disable the UACs (set to 'Never notify')

- 2. Disable the anti-virus software
- 3. Disable pop-up blocker in the browser you are utilizing

(These settings may be re-enabled once the software is installed and operational.)

4. Ensure you have permissions to install USB drivers for any Android, Robotics or other devices which will connect to the computer via USB.

Procedure

- I. Go to http://www.autodesk.com/education/free-software/
- 2. Select Revit
 - Autodesk software for students and educators
 - Interested in engineering? Want to learn to design? Get free* access for learning and teaching
 - Use the same programs as top designers, animators, and engineers around the world
 - Both individual products and bundled product suites available

Featured products

STOP IF YOU ARE USING THIS COMPUTER AS A MASTER IMAGE. DO NOT FOLLOW THE NEXT STEPS OF ACTIVATING THE SOFTWARE. YOU WILL NEED TO ACTIVATE AFTER IMAGING.

If you are NOT using this machine as a Master Image, see the next steps. ** Note: In the event you are using a product like Deep Freeze, you will have to have your machine "THAWED" prior to doing this process. **

19. If you have the timed trial window with days left showing when you open Inventor, then you will need to utilize Register Once and activate your product.

20. Go to the Register Once site, login or create an account.
