

How to Connect iOS devices to Ithaca Wi-Fi

Screen shots were taken from IOS 5 device IPAD 2

1. Make sure the device has an active network connection (3G/4G/Edge or non-ITAHCA Wi-Fi).
2. Open Safari and go to the web site at: <http://support.nyspi.org/downloads/ithaca.mobileconfig>
3. An **Install Profile** window for **NYSPI Enterprise Connect** will appear. Tap the **Install** button. If your device

- has a passcode lock, you will be prompted to enter it.
4. You will be prompted to enter your username and Password. Columbia Users can login with their UNI and password. NYSPI User can login with their Exchange username and password.

DO NOT USE YOUR CUMC EMAIL PASSWORD.

5. The installation will complete, with a **Done** button appearing in the upper right corner.

6. Exit the Details and Certificate windows using the buttons in the upper left, and select your device's home button to return to the main screen. Go to Settings and select Wi-Fi. Make sure the Wi-Fi is turned on and select Ithaca from the list.

If you need help or have any questions regarding this setup, please contact psyIT Service Desk at X5777 or email psyit@nyspi.columbia.edu. You can also visit [http:// support.nyspi.org](http://support.nyspi.org)
