

Student Guide to UCC Blackboard

<http://blackboard.ucc.ie>

UCC Blackboard is used by many lecturers as an online support for modules. Blackboard allows for web access to lecture notes and supporting material, online communication – blogs, wikis, group email, discussions, along with online assignment submission and assessment in the form of quizzes, tests and surveys.

This brief document explains how to use your UCC Blackboard account to access any modules your lecturer may have created on the system.

2. Click **Student Login** and type your **UCC Student Number** into the **USERNAME** box.
3. Type your **Student IT password** in the **PASSWORD** box.
4. Click the **Login** button.

The **UCC Blackboard** tab displays any courses you are enrolled in, as well as announcements and calendar items relating to these courses.

Enrolment on Blackboard Modules

Enrolment on Blackboard modules is automatic and is based on the module choices you make at registration. If you **change modules** during term, this change is usually reflected on Blackboard **within 24-36 hours**.

Blackboard module codes are usually prefixed by the year in which your **second** semester is taught.

If **(not currently available)** appears after a module title in the **My Courses** list, it means that **you are enrolled** on the module but that your lecturer has not yet made it available to your class. Blackboard use is optional so you may wish to ask your lecturer if he or she will be using it for your subject.
