Morse Code assignment

Directions: In this activity, you are going to learn how to write your name in Morse code and also how to translate a classmate's name from Morse code to our normal alphabet. You will use the chart below to translate your first and last name into Morse code. I have provided space under the chart for you to write your first and last name in Morse code. Please draw a backslash (/) after each letter of Morse code. After everyone has translated their first and last name from English to Morse code, I will give your paper to another classmate (maybe in another class) to translate from Morse code to English. The translator will then write his/her name at the top of the page.

Remember, **black ink or pencil only. Neatness counts.**
