

Nursing Home Antimicrobial Stewardship Guide Implement, Monitor, & Sustain a Program

Toolkit 2. Monitor and Sustain Stewardship

Tool 4. Quarterly or Monthly Prescribing Profile

[Date]

From: [Nursing Home Name]

Dear Dr./Mr./Ms. [insert last name of prescribing clinician]

This [quarterly / monthly] report is provided for your reference as we continue to monitor antibiotic use in our nursing home.

Between 25 percent and 75 percent of antibiotics are prescribed unnecessarily for nursing home residents.¹ This leads to unnecessary side effects, including multi-drug resistant organisms and health care-associated infections. As a result, [nursing home name] has implemented an antimicrobial stewardship program.

This report provides information regarding your prescriptions for antibiotics for residents over the past [month / 3 months]. The report is for your information only and is meant to help you maintain an awareness of trends in infections and antibiotic use in your residents at this nursing home.

Resident Name	Infection Type/ Diagnosis	Last Treated	Organism Identified	Rx Date	Rx Duration	Antibiotic Name	Dose	Met Minimum Criteria
