Place value additions and subtractions (6-digit numbers)

Complete these number sentences.

$$430,000 + 6378 = \boxed{}$$

$$805,370 + 20,007 = \boxed{}$$

$$234,000 + \boxed{} = 234,846$$

$$904,678 + \boxed{} = 924,678$$

$$770,777 + \boxed{} = 777,777$$

$$504,027 + \boxed{} = 534,627$$

$$734,523 - 523 = \boxed{}$$

$$827,410 - 27,000 = \boxed{}$$

$$652,235 - 50,000 = \boxed{}$$

$$272,896 - \boxed{} = 200,896$$

$$645,345 - \boxed{} = 5345$$

$$852,462 - \boxed{} = 802,060$$

Maths Answers Autumn Year 6

Week 1:

Place value additions and subtractions (6-digit numbers)

$430,000 + 6378 = \mathbf{436,378}$

$234,000 + \mathbf{846} = 234,846$

$770,777 + \mathbf{7000} = 777,777$

$734,523 - 523 = \mathbf{734,000}$

$652,235 - 50,000 = \mathbf{602,235}$

$645,345 - \mathbf{640,000} = 5345$

$805,370 + 20,007 = \mathbf{825,377}$

$904,678 + \mathbf{20,000} = 924,678$

$504,027 + \mathbf{30,600} = 534,627$

$827,410 - 27,000 = \mathbf{800,410}$

$272,896 - \mathbf{72,000} = 200,896$

$852,462 - \mathbf{50,402} = 802,060$

5-digit addition practice

1. $45,248 + 32,517 = \mathbf{77,765}$

2. $52,382 + 24,045 = \mathbf{76,427}$

3. $63,521 + 23,934 = \mathbf{87,455}$

4. $38,413 + 27,305 = \mathbf{65,718}$

5. $73,278 + 20,001 = \mathbf{93,279}$

6. $45,379 + 23,365 = \mathbf{68,744}$

7. $39,241 + 26,382 = \mathbf{65,623}$

8. $45,382 + 23,618 = \mathbf{69,000}$

9. $35,684 + 37,947 = \mathbf{73,631}$

10. $56,937 + 24,285 = \mathbf{81,222}$
