Bidsketch

Great Looking Client Proposals in Minutes

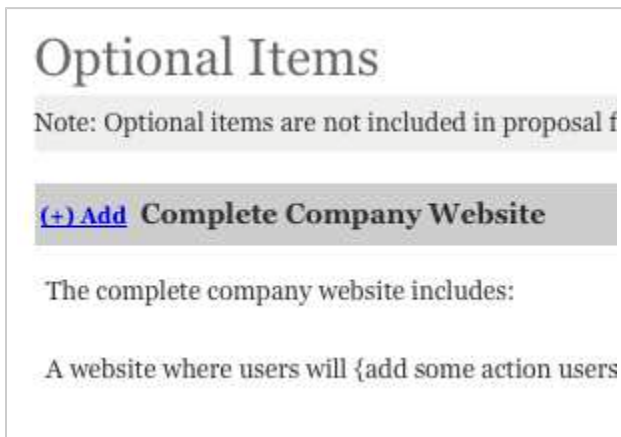

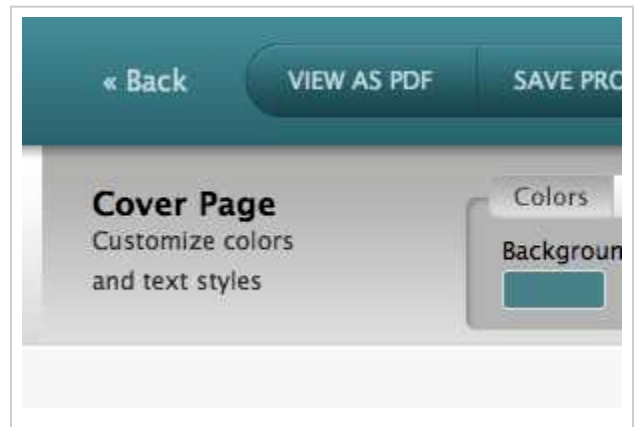

50% Less Time Writing With Reusable Content

Quickly create proposals by reusing fees, content, and designs to save hours. Example proposal content is provided to help you get started quickly. You can even embed images and video for online viewing by your clients.

Look Professional With Design Templates

Use your own custom HTML/CSS designs, or the built in templates. Bidsketch provides you with several professional looking templates. Each template is available in different colors and exports to PDF for extra portability.

32% More Profit With Optional Fees

Up-selling additional services or items is one of the best ways to grow revenue fast. Bidsketch makes it easy by letting you mark specific fees as optional and giving clients the option to accept them when viewing a proposal.

Turn 18% More of Your Leads Into Clients

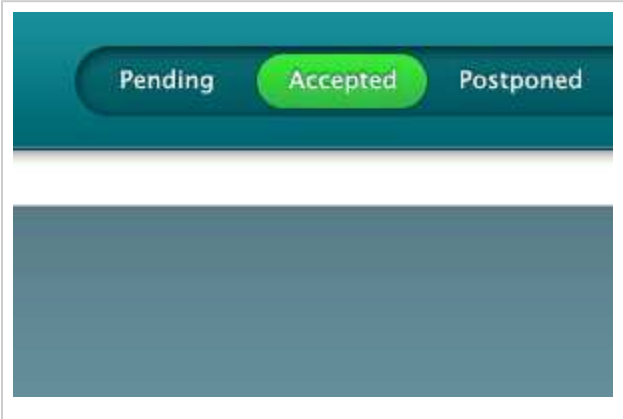

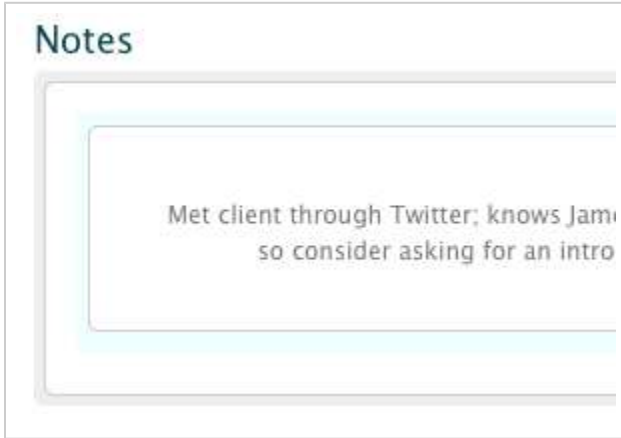

18% More Deals With Landing Pages

Client landing pages are designed with winning in mind; on average, Bidsketch proposals are approved 18% more than traditional proposals. Clients can also comment and export to PDF for easy printing.

Automate Your New Client Workflow

You can set special messages that get shown once your client approves their proposal. Using approval messages you can prompt for a deposit, give them a new client guide, or let them know what to do next.

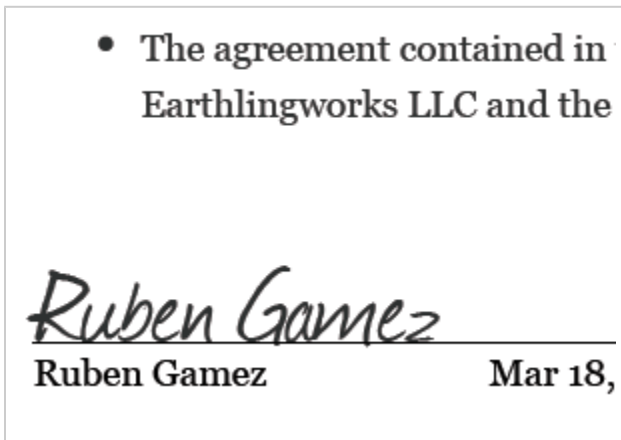

All Your Client Details in One Place

Bidsketch provides an easy way to keep track of all current and prospective clients. Add client contact information as well as private notes to each client to ensure you never forget what you talked about last time.

Get Your Proposals Signed 60% Faster

60% Faster Approvals With Online Signatures

As soon as your client accepts a proposal, you can have them electronically sign their proposal online. Our research shows the average proposal is approved 60% faster online. Optionally they can export to PDF, print, and sign instead.

Make Your Proposals Legally Binding

Bidsketch is compliant with U.S. and international e-signature laws. We capture the email address, IP address and other information to create an audit log of the electronic signature. Signed proposals are archived and protected from further changes; they're as legally valid as pen-and-paper documents.
