

DEPARTMENT OF HEALTH & HUMAN SERVICES

Public Health Service

Bureau of Health Professions

Health Resources and
Services Administration
Rockville MD 20857

Date: September 24, 1998

To: Lenders, Holders, and Servicers Participating in the Health Education Assistance Loan (HEAL) Program

Subject: Year 2000 Compliance
Lender Policy Memorandum L-1998-17

The proposed conversion of the Heal Program's Model 204 database to an Oracle based client-server system has been delayed. This has necessitated that we make our Model 204 database Year 2000 compliant. Changes to the Borrower Loan Status tapes as specified in our Policy Memorandum L-1998-3 dated November 5, 1997 have also been postponed.

Attached herewith please find new tape specifications for all lender-reported data. These tape specifications require all "year" data to be reported in a four-digit YYYY format. However, for the time being, please continue to submit tapes that conform to the existing specifications. We will notify you with a specific date when we will begin accepting tapes in the revised format. At present, we do not expect to accept these tapes earlier than December 1998. We will also provide you an opportunity to submit test tapes before requiring production tapes.

We believe an advance notification of these requirements will provide you sufficient lead time to make necessary changes in your own computing systems.

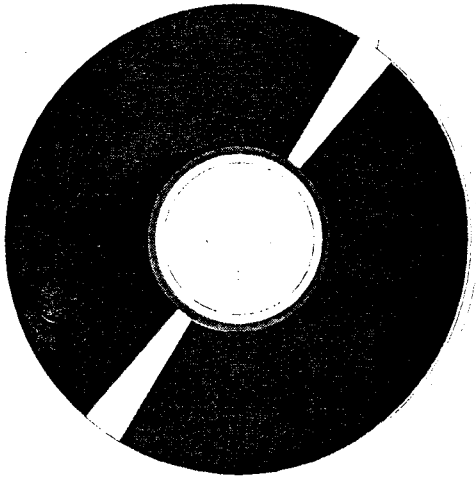

If you have any questions regarding this memorandum, please contact Dr. Ram B. Jain, Deputy Associate Director, HEAL Database Operations at (301) 443-1540 or at RJain@HRSA.DHHS.GOV.

Stephen J. Boehlert
Associate Director, HEAL
Division of Student Assistance
