

## **Appendix B**

# **Data Definition for an Audited AFS in accordance with Handbook IG 2000.04 for a Cooperative Corporation that is other than a Non-Profit Entity**

(Revised as of April 30, 2004)

## **Introduction**

The Office of Multifamily Housing Programs completed the AFS Data Standardization effort in preparation for the electronic submission of annual financial statements. The purpose of this effort was to provide standard definitions for all AFS data elements to the multifamily housing industry, in order to facilitate the consistent review and analysis of annual financial statements across multifamily housing projects. The results of the AFS Data Standardization effort for multifamily housing properties are available on the REAC Financial Assessment web page, located at

[http://www.hud.gov/offices/reac/library/lib\\_famf.cfm#HANDBOOKS](http://www.hud.gov/offices/reac/library/lib_famf.cfm#HANDBOOKS). The results includes a redefined HUD Chart of Accounts, basic financial statement items not represented by the HUD Chart of Accounts (i.e., Statement of Retained Earnings/Changes in Partners' Equity, Statement of Cash Flows, and Notes to the Financial Statement), and a revised list of Supplemental Data, Auditor Reports, and Certifications. These results were used as a basis for defining the AFS data elements included in this appendix.

The Financial Assessment Subsystem (FASS) – Release 1.1 enabled the electronic submission of annual financial statement data via web-based data entry forms. With FASS – Release 2.3, users enabled users to submit AFS data for multipurpose entities (entities that own more than one property). The primary impact of this change has been related to the submission of Consolidated Statements for these entities, which consisted of AFS data for the entity as well as AFS data for each of the properties associated with the entity during the reporting period. For all entities that are other than Cooperative Corporations, the user has the option of entering a Consolidated Statement. With FASS – Release 4.0 (this release), users will be able to submit AFS data to recognize additional projects including some secondary Section 241 FHA's and projects with non-active assistance contracts and to provide restricted (read only) access to Limited Distribution and Office of Multifamily Housing Assistance Restructuring (OHMAR) (Mark-to-Market) only accounts.

## ***Data Definition Organization***

The AFS data elements defined in this appendix are organized by the data entry forms in which they appear. As with previous releases of FASS, if a numeric AFS data element is associated with more than one form or schedule, it will appear on each of the data entry forms in which it factors into a calculation. However, the value associated with this account number only needs to be entered once. For instance, if a data element appears on both the Balance Sheet data entry form and the Cash Flows data entry form, it only needs to be entered on one of those forms. Once work is saved on one form, that value will be available on subsequent forms in which the data element appears.

The AFS data elements included in this appendix are defined as follows:

- Account Number: This number identifies an AFS data element that appears on one of the primary or top level data entry forms (e.g., Balance Sheet, Profit & Loss, etc.). Account numbers that appear on multiple data entry forms only need to be entered once.
- Detail Level 1 Account Number: This number identifies AFS data elements that are part of a repeating group. A repeating group is defined as a series of data elements that when valued, must be positioned in a particular sequence, and repeated as necessary. The screens for these repeating groups are accessed via the Details link.
- Detail Level 2 Account Number: This number identifies AFS data elements that are part of a repeating group that is keyed to and associated with the data elements of a higher level repeating group. Again, these data elements must be positioned in a particular sequence and repeated as necessary. The screens for these repeating groups are accessed via the Details link.
- Account Title: This column provides a brief description of an account number. The account titles for some elements will consist of a request for information requiring no data entry on that screen; rather, the information request will be associated with a Details link.
- Datatype: This column represents the domain required for an account number; if an invalid datatype is submitted for an account number, the AFS submission will be rejected. Please refer to the following Datatype key when reviewing the FASS Data Definition:
  - “\$” = Currency Value – only numbers are allowed for data input; no character values are allowed, including decimals, commas, and dollar signs. Accounts that are defined as this type will appear on the template with a “\$” in front of the data entry field.
  - “N” = Numeric Value – only numbers are allowed for data input; no character values are allowed, including decimals, commas, and dollar signs.
  - “T” = Text Value – accepts any characters in the input box
  - “S” = Smalltext Value – accepts only permitted values defined by options in drop down boxes associated with the data element
  - “D” = Decimal Value – accepts numbers with decimals included; no other characters are allowed in the data input box
  - “DT” = Date Value – accepts date input in MM/DD/YYYY format
- Negative Value Allowed: If an “X” is displayed in this column for an account number, a negative value (formatted as a numeric value preceded by a minus [-] sign) may be entered for the account number. If a negative value is entered for an account number that is **not** defined as allowing a negative value, the system will return an error when the user saves their work on the screen.

- Mandatory: If an “X” is displayed in this column for an account number, a value must be submitted for the account number. If a value is **not** submitted for an account number defined as mandatory, the AFS submission will be rejected.
- Editing and Business Rules: This column defines the editing and business rules to which the value for an account number must adhere. If a value for an account number violates one or more editing and/or business rules, the AFS submission will be rejected.
- Account Definition/Reporting Reference: For all of the account numbers included in the revised HUD Chart of Accounts (i.e., Balance Sheet and Statement of Profit and Loss accounts), this column contains the revised HUD Chart of Account definition documented in the AFS Data Standardization Results. For the remaining account numbers, this column contains additional clarification as required.

Account Number	Detail Level 1 Account Number	Detail Level 2 Account Number	Account Title	Datatype	Negative Value Allowed	Man-datory	Editing and Business Rules	Account Definition/Reporting Reference	
<b>Assets</b>									
1120			Cash - Operations	\$			This account and/or account 2105 is required.	This account reflects the consolidation of unrestricted cash and cash equivalent accounts available to fund project operating costs for reporting purposes. This account includes cash maintained on-site in a petty cash fund. (At all times, total petty cash on hand plus the receipts for the bills paid must equal the amount of the established fund).	
1121			Construction Cash Account	\$				This account reflects cash remaining in construction accounts after cost certification. These funds are available to pay for any remaining construction-related payables.	
1125			Cash - Entity	\$				This account reflects cash and cash equivalents maintained by the ownership entity available to fund expenses of the ownership entity.	
1130			Tenant/Member Accounts Receivable (Coops)	\$				This account reflects the total rents receivable from tenants/shareholders. In subsidized properties, this account should only reflect the portion of the rent for which the tenant/shareholder is responsible.
