PERSONNEL GENERAL

NAME AND BIRTH DATA, SOCIAL SECURITY NUMBER, AND TEMPORARY IDENTIFICATION NUMBER

Effective 15 May 1973

This revision updates procedures for use of the SSN, TIN, and name and birth data as personnel identifiers; announces establishment of the SSN Central Registry System to expedite SSA verification of SSN; updates list of SSA office addresses and Army training activities serviced; and directs commanders to establish liaison with local branch and district Social Security offices. Local limited supplementation of this regulation is permitted but not required. If supplements are issued, Army Staff agencies and major Army commands will furnish one copy of each to HQDA (DAPC-PAR-S), 200 Stovall Street, Alexandria, VA 22332

*This regulation supersedes AR 600-2, 5 June 1969, and DA message 181340Z October 1971, subject: Procurement of SSN for Individuals assigned a Temporary Identification Number (TIN) by AFEES.

CHAPTER 1

GENERAL

1-1. Purpose. This regulation prescribes procedures governing procurement, issuance, recording, and changing several items of personal information normally used as personnel identifiers.

1-2. Applicability. This regulation applies to the Active Army, Army National Guard, Army Reserve, and to individuals entering into such military status.

1-3. Explanation of terms. As used in this regulation, the following explanations apply:

a. Baltimore SSA Office. Headquarters of Social Security Administration, Baltimore, MD 21235.

b. Local SSA Office. SSA district or branch office servicing the area or installation, or other place of duty assignment for personnel stationed in the United States, Puerto Rico, the Virgin Islands, and other oversea areas.

c. Military status. The condition of an officer, warrant officer, or enlisted person who has been enlisted, inducted, or appointed in the Regular

Army, Army of the United States without component, Army National Guard, or Army Reserve.

1-4. Policy. *a.* The Social Security Number (SSN) or Temporary Identification Number (TIN), as appropriate, has been used as the personal identifier number of US Army personnel in the active, retired, and Reserve components since 1 July 1969.

b. No prefix or suffix to the SSN or TIN will be used.

c. Immediately following entrance into military service, the individual will inform relatives and friends of his or her SSN or TIN and will advise them to use this number in personal correspondence. This requirement also applies when the individual's TIN is replaced by his or her SSN. Official requests for information concerning persons in the military service, as well as the forms which in certain instances have to be completed by relatives or friends, will bear the SSN or TIN.

CHAPTER 2

NAME AND BIRTH DATA

Section I. GENERAL

2-1. Scope. This chapter prescribes procedures for recording and changing record of name and/or birth data.

2-2. How to record names. *a.* Complete last name, full first name, and full middle name, if any, normally will be recorded in that order in all military records. When "Jr.," "II," etc., is used, it will appear after the middle name. In the absence of a middle name, it will be entered immediately following the first name. The abbreviations NMI (no middle initial) or IO (initial only) will not be used.

Examples:

Swift, Benjamin Frank
 Martin, Elizabeth Mary
 Jones, Edward Karl, Jr.
 Does, William, Jr.
 Dew, John William, II

b. This style will not apply to existing records that would be impracticable to change—for example, correspondence or signatures.

c. The name which appears in item 1, DA Form 66 (Officer's Qualification Record) and item 1, DA Form 20 (Enlisted Qualification Record) will be presumed to be the correct official name.

Section II. CHANGE OF RECORD OF NAME AND/OR BIRTH DATA

2-3. Authority. *a.* The individual must request a change of record, when required. The authority to approve change of record is delegated to the immediate commander or his designee.

b. Change of record will be authorized only with the evidence required for each type set forth herein.

2-4. When made. Action to change a record will be initiated only when there is a reasonable assurance that it can be completed during the individual's stay at an installation. Action normally will not be undertaken during assignments of brief duration, since delay is frequently encountered in obtaining documentation.

2-5. How to change record of name. The individual must submit a signed request to his commanding officer, containing current name, new name, and reason(s) for the desired change. He will attach the evidence as outlined below.

a. Addition, deletion, or correction. The addition or deletion of "Junior," "Senior," "III," or middle name, and corrections involving transposed names or slight change in spelling may be accomplished on the individual's signed application.

b. Naturalization. The law forbids reproduction of certificates of naturalization, and the individual must retain the original. Therefore, his commander or designee will indorse the application

and state that he has seen the original certificate and that the name thereon agrees with that shown in the application. Certificate number will be included in the indorsement.

c. Marriage or divorce. Application will be accompanied by an authenticated copy of certificate of marriage or divorce decree (final decree in states where required).

d. Court order. Application must be accompanied by an authenticated copy of the court order or decree.

e. Other than court order. The following evidence is required:

(1) An authenticated copy of public record of birth filed at or near time of birth.

(2) If no public record as described in (1) above exists, a statement to that effect by the proper public official accompanied by the following evidence:

(a) Authenticated copy of baptismal certificate, or

(b) Affidavits from both parents, if living or

(c) Affidavits from two or more persons (preferably disinterested) who will fully identify themselves, state their ages, and give name, date, and place of birth of claimant together with the source(s) of their information.

2-6. How to change record of birth data. Each individual must submit a signed request to his commanding officer, stating his correct birth date/place, and reason(s) for the erroneous data shown on Army records. The following evidence must be attached:

a. A birth certificate or authenticated copy thereof which agrees in all respects with the data contained in the request. If the name on the birth certificate does not agree with that shown in the request for a change, the reason for the discrepancy will be included in the request.

b. If no public record of birth exists, a statement to that effect by the proper public official will be required, accompanied by as much of the following evidence as is reasonably available:

(1) Authenticated copy of baptismal certificate.

(2) Affidavit from physician or midwife in attendance at birth.

(3) Affidavits from both parents, if living.

(4) A statement by the individual's commanding officer that he has seen the passport which authorized entry into the United States, and that the birth date/place on the passport is the same as shown in the request for change.

(5) Affidavits from two or more persons (preferably disinterested) who will fully identify themselves, state their ages, and give name, date, and place of birth of claimant together with the source(s) of their information. The affiants should also state the full name of the father and maiden name of the mother of the claimant and the address (or last known address) of the parent or parents of the claimant if living.

(6) Authenticated copy of school record, from the first school attended, showing date of birth or age on admittance.

(7) Authenticated extract from the family Bible or other family record.

c. If evidence in *b* above is unobtainable or is considered insufficient to change the birth data, Bureau of Census Form 10-611 will be prepared, requested report of first census taken after birth. Blank forms may be obtained upon request from HQDA (DAPC-PAR-S), 200 Stovall Street, Alexandria, VA 22332, or the Bureau of Census. This report will be submitted as additional evidence.

2-7. How to amend records. *a. Records to be changed.* Only records pertaining to the current period of service will be amended. For officers and warrant officers, this record is the DA Form 66 and DA Form 41 (Record of Emergency Data); for enlisted personnel, the DD Form (Enlistment Contract) 4, DD Form 47 (Record of Induction), DA Form 20, and DA Form 41.

b. Procedure. The individual should draw a single line through the entry and enter the new data above, preferably by typewriter or in blue-black ink. Old entry will not be obliterated.

2-8. Announcement of change. *a.* Changes will be published in special orders and distributed to all interested commands.

b. As appropriate, the following will be notified of name changes by letter of transmittal, inclosing a copy of the special order:

<i>Changes pertaining to--</i>	<i>Submit letter to--</i>
Active duty commissioned and warrant officers.	HQDA (DAPC-PAR-S) 200 Stovall Street Alexandria, VA 22332
Active duty enlisted personnel.	Commander US Army Enlisted Records Center Fort Benjamin Harrison, IN 46249
Personnel not on active duty.	Commander US Army Reserve Components Personnel and Administration Center 9700 Page Boulevard St. Louis, MO 63132

c. Distribution will also include—
Commander
US Army Investigative Records Repository
USAINTC
Fort Holabird, MD 20219

Commander
US Army Finance Support Agency
ATTN: Chief, Records Division, MPO
Indianapolis, IN 46249

d. As an exception to *a* above, the US Army Reserve Components Personnel and Administration Center (RCPAC), St. Louis, MO, may issue DD Form 1343 (Notification of Change in Service Member's Official Records) in lieu of orders for members of the USAR Control groups under the administrative jurisdiction of RCPAC.

CHAPTER 3

SOCIAL SECURITY NUMBER

Section I. GENERAL

3-1. SSN Central Registry System. Commanders at all echelons will insure that the correct number is recorded on personnel records and that only one SSN is assigned to an individual. To assist commanders in fulfilling this responsibility, Department of the Army operates an SSN Central Registry System. This system enables the Army to verify numbers with the SSA. Commanders will be advised of the results of these verification procedures and of corrective action to resolve unverified cases.

3-2. Safeguarding SSN card. The SSN card issued an individual is evidence of his account with the SSA. It will not under any circumstances be retained with military records. Each person will be cautioned to safeguard his SSN card to prevent loss or mutilation.

3-3. Forms. *a.* The following forms, required in the administration of the SSN program, will be requisitioned through normal publications supply channels:

(1) Form SS-5 (Treasury Department, Internal Revenue Service (Application for Social Security Number)).

(2) Form OAAN-7003 (Department of Health, Education, and Welfare, Social Security Administration (Request for change in Social Security Records)).

b. Form OA-702 (Department of Health, Education, and Welfare, Social Security Administration (SSN Card)) is issued to individuals only by the SSA. This form will not be requisitioned.

Section II. PROCUREMENT OF NEW OR DUPLICATE SSN

3-4. Prior to entering a military status. *a.* A person contemplating entering military service who does not have an SSN card should obtain one prior to entry.

b. Each individual planning to enter military service will be advised—

(1) To have card in his possession when reporting for entry; or

(2) If his card has been lost or mutilated, to apply through his local SSA office for a duplicate, if time permits; or

(3) If an SSN card has never been issued, to apply for one through his local SSA office, if time permits;

(4) That the normal processing time to obtain a new or duplicate SSN card is 3 weeks;

(5) That in the event he cannot locate his SSN card when entering on active service, he should have available other documentary evidence (old tax return, payroll slip, wage statement, State motor vehicle driver's license, etc.) of his assigned SSN.

c. Although every effort will be made to obtain an SSN card prior to entry into the Active Army,

Army National Guard, or Army Reserve, the lack of a card will not under any circumstances delay induction, enlistment, reenlistment, or appointment.

d. Potential personnel accessions (enlistees/inductees) will be screened for possession of an SSN card at the time of pre-induction processing and/or application for enlistment. An individual who has not been assigned or who has lost a previously issued SSN card will be assisted in applying for an SSN or replacement card. When the 3-week normal processing time to obtain a new card is available prior to entry on active duty, Form SS-5 will be prepared and forwarded in accordance with instructions on the reverse. The special "Notify Employer" procedures described in paragraph 3-6 will not be used in this case. The original of the form will be forwarded to the local SSA office for processing. When an individual does not have an SSN card, but possesses evidence of his assigned SSN, application for a duplicate will be forwarded to the local SSA office. This will be done regardless of when an individual is scheduled to enter mili-

16 April 1973

tary status. The individual having documented evidence of an assigned SSN will enter in item 11 (mailing address) of the Form SS-5 the address of a parent, relative, or guardian who will be able to forward the SSN card to the individual should he enter military service prior to receipt.

3-5. Upon entry into military service. *a.* An SSN will be obtained as soon as possible for the individual entering active service who has never been issued an SSN card, or whose card has become lost or mutilated and who does not have evidence of an assigned SSN. This individual will be required to complete an application (Form SS-5). Form OAAN-7003 will be used when application is for a duplicate SSN card and a correction of name is also involved (para 3-8).

b. For officers or warrant officers entering active duty, the application will be prepared at the initial duty station (temporary or permanent). Procedures prescribed in paragraph 3-6 will govern. The original copy of the Form SS-5 will be forwarded to the Commander, USAPDSC, ATTN: Central Registry Unit, Edgewood Arsenal, MD 21010, for processing. Item 34 of the individual's qualification record (DA Form 66) will be annotated in pencil with the words "SS-5 processed."

3-6. AFEES and training activity procedures.

a. Action to be taken by AFEES. AFEES commanders will take the following action in processing Army personnel for immediate enlistment or induction who have lost SSN cards and who have no evidence of their SSN, or who have not been issued an SSN:

(1) Prepare Form SS-5 in duplicate. Entries will be in accordance with instructions on the reverse of the form and the following:

(*a*) Print or stamp boldly in the top left margin on both copies of the form the words "US Army." (Use rubber stamps.)

(*b*) Item 1. Enter name exactly as shown on personnel records.

(*c*) Item 10. If an application has been processed previously, so indicate.

(*d*) Item 11. Do not enter the individual's mailing address. Instead, enter on both copies of the form the following data: beneath the word "city," print the words "MAIL TO D. O.," and beneath the word "ZIP code" print the number "21204." These markings will insure proper SSA handling.

(*e*) On the reverse of the form in the upper space provided for SSA district office use, enter the TIN assigned the individual.

(*f*) On the reverse of the form in the middle space show on both copies: "Commander, US Army Personnel Data Support Center, ATTN: Central Registry Unit, Edgewood Arsenal, MD 21010." (Use rubber stamp.)

(2) Distribute Form SS-5 as follows. Attach the original form to the lower left corner of the appropriate copy of the member's DD Form 4 or 47 (AFEES only) and transmit to the Commander, USAPDSC. USAPDSC will process the application with a designated SSA district office. The duplicate copy of the Form SS-5, marked "DUPLICATE," is forwarded to the custodian of the Personal Financial Record (PFR).

(3) Make a pencil notation showing "SS-5 processed" in item 1 or 2, as appropriate, of the MPRJ file copy of the DD Form 4 or 47.

b. Verification of records. Training activity personnel will verify that the SSN has been recorded on the individual's records. When a TIN has been assigned by an AFEES, commanders of training activities will verify that a Form SS-5 has been processed by checking for a notation on the DD Form 4 or 47 and the existence of a duplicate Form SS-5 in the PFR. If this check reveals that an application has not been initiated, the commander will have Form SS-5 prepared and the original copy forwarded to the Commander, USAPDSC, ATTN: Central Registry Unit, Edgewood Arsenal, MD 21010, for processing.

c. Liaison with managers of SSA district or branch offices. Recruiting Station, AFEES, and training activity commanders will establish liaison with managers of district or branch SSA offices to develop mutually agreeable procedures for processing Forms SS-5. Managers of SSA district offices listed in table 3-1 have been instructed to cooperate with commanders. Recruiting Station, AFEES, and training activity commanders should be aware of and direct members and potential members to use SSA procedures for electronic verification of alleged numbers. The procedures used by SSA district or branch offices offer fast (24-hour), efficient screening service for individuals who have lost or mutilated their SSN card and know their SSN. If it is verified, the local office will issue a duplicate card.

d. Follow-up action. If 60 days have elapsed since submission of the application and notification of the assigned SSN has not been received, either through the supporting personnel data processing activity or by the individual's receipt of the SSN card, the training activity will contact the Commander, USAPDSC or the local SSA office, as appropriate, to determine the cause of delay and anticipated delivery date of the card.

3-7. Procurement of duplicate SSN cards on a continuing basis. *a.* When a member's SSN card has become lost or mutilated subsequent to his entry into a military service, he should apply for a duplicate (Form SS-5). When submitted through the member's organization, the personnel officer will verify the SSN entered in item 10,

Form SS-5, from personnel and finance records (DA Forms 20, 66, 41, 1996, and 3716) and the standard personnel plate. On the original card, the number is printed in bold red figures, whereas on a duplicate card it is typed.

b. Duplicate SSN cards may be obtained by members on an individual basis, except as indicated in paragraph 3-6, from the local SSA office provided the name is reported exactly as shown on military personnel records. A member who has lost his card but still has the stub may obtain a duplicate card without delay by presenting the stub to any local SSA office. The special "Notify Employer" procedures described in paragraph 3-6 will not be used in these cases.

Section III. CHANGES IN PERSONAL DATA IN SOCIAL SECURITY RECORD

3-8. Reporting corrected data. When personal data reported in a previous application (Form SS-5) changes or is found to be incorrect, Form OAAN-7003 (Request for Change in Social Security Records) will be used to correct this data. A duplicate SSN card bearing the same number as the old card is issued when an individual's name has been officially changed. Duplicate cards are not issued for other corrections, nor is receipt of the corrected data acknowledged.

a. Submission of Form OAAN-7003 is mandatory—

(1) Upon entry into a military service when the name shown on the SSN card does not substantially agree with the name as recorded in military personnel records; e.g., a Social Security card has been issued bearing the name "Bill Alden" but the personnel records of the individual show his name as "William John Alden." It is not necessary to submit Form OAAN-7003 when only the middle initial is shown on the SSN card and the personnel records show a full middle name or two middle names or initials, or to add or delete a suffix such as Jr., or Sr.

(2) When the name of the member is changed because of marriage, divorce, or other reasons, Form OAAN-7003 will be prepared and forwarded simultaneously with the official change of name in personnel records, but not before such change is officially authorized and effected.

b. Form OAAN-7003 may be used to notify SSA of corrections in information other than

name, such as date of birth, or correction of mother's or father's name. Submission of Form OAAN-7003 is an individual responsibility; however, personnel will be encouraged to submit these corrections in a timely manner. Erroneous information in the social security record can delay payment of benefits.

c. The submission of Form OAAN-7003 is not required for—

(1) Changes in employment or military status;

(2) Changes in civilian or military mailing addresses; or

(3) Translation into English of social security cards issued to Puerto Ricans in Spanish language, if otherwise correct.

3-9. How to prepare Form OAAN-7003. *a.* If the form is prepared at time of entry into military service for the purpose of acquiring a duplicate SSN card or changing SSA records, the procedures in paragraph 3-6 for submission of Form SS-5 will be followed.

b. If Form OAAN-7003 is prepared at other than the time of entry into military service, it will be prepared in single copy, typed or printed in blue-black ink. Entries will be in accordance with instructions on the reverse of the form with modification as follows:

(1) *Item 1.* Enter name exactly as shown on personnel records.

(2) *Item 11.* Enter military mailing address of the organization having custody of the member's

16 April 1973

personnel records. If a change in name is involved, the duplicate SSN card will be returned addressed to the commander of the organization.

(3) *Item 14.* The member will sign his name in ink as normally used for official purposes.

c. For a correction in name, attach the last issued SSN card or stub, if available.

d. If the form is prepared at other than the time of entry into military service, forward it to the local SSA district office.

Section IV. RECORDING AND REPORTING SSN

3-10. Recording in military personnel records. The SSN will be recorded as soon as possible after first point of contact. Memory will not be accepted as a basis for recording. When the individual enters on active duty without an SSN card, but possesses documented evidence of his assigned SSN, this evidence will be accepted as a basis for recording. The SSN will be recorded on the DA Form 66 or DA Form 20 from the actual SSN card or stub, except that the documented evidence cited above may be used only at time of initial entry on military status. The SSN which is recorded on the above records will be considered the correct SSN if discrepancies occur in various military records. It may subsequently be transcribed from one record to another without verification from the card or stub. If the SSN card is not available, action will be taken in accordance with paragraph 3-7.

3-11. Reporting of SSN. When an individual has

entered on active duty without an SSN, personnel officers will advise agencies listed in paragraph 2-8, by letter, of the change from TIN to SSN. The letter will include the TIN and SSN to insure correct identification of the individual.

3-12. Delivery of SSN cards to individuals. Upon receipt of a new or duplicate card, the commander will forward the card with stub to the custodian of the individual's records for recording on appropriate documents. When recorded, the SSN card will be given to the individual for safekeeping.

3-13. Duplicate SSN. If it is discovered that an individual has two SSN or two individuals have been assigned the same SSN, they must contact the local SSA office for assistance in initiating corrective action. If the corrective action results in a need for a change to personnel records, actions similar to those specified in paragraph 3-11 will be taken.
