15.2 Title and Ownership Rights. The State retains title to and all ownership rights in all data and content, including but not limited to multimedia or images (graphics, audio, and video), text, and the like provided by the State (the "Content"), but grants Contractor the right to access and use Content for the purpose of complying with its obligations under this contract and any applicable statement of work.

If a third party makes a claim against the State that the products furnished under this contract infringe upon or violate any patent or copyright, the State shall promptly notify Contractor. Contractor shall defend such claim in the State's name or its own name, as appropriate, but at Contractor's expense. Contractor shall indemnify the State against all costs, damages, attorney fees, and all other costs and expenses of litigation that accrue as a result of such claim. If the State reasonably concludes that its interests are not being properly protected, or if principles of governmental or public law are involved, it may enter any action.

16.2 Product Subject of Claim. If any product furnished is likely to or does become the subject of a claim of infringement of a patent or copyright, then Contractor may, at its option, procure for the State the right to continue using the alleged infringing product, or modify the product so that it becomes non-infringing. If none of the above options can be accomplished, or if the use of such product by the State shall be prevented by injunction, the State will determine whether the contract has been breached.

17. CONTRACT OVERSIGHT

17.1 CIO Oversight. The Chief Information Officer (CIO) for the State of Montana, or designee, may perform contract oversight activities. Such activities may include the identification, analysis, resolution, and prevention of deficiencies that may occur within the performance of contract obligations. The CIO may require the issuance of a right to assurance or may issue a stop work order.

17.2 Right to Assurance. If the State, in good faith, has reason to believe that Contractor does not intend to, is unable to, or has refused to perform or continue performing all material obligations under this contract, the State may demand in writing that Contractor give a written assurance of intent to perform. Contractor's failure to provide written assurance within the number of days specified in the demand (in no event less than five business days may, at the State's option, be the basis for terminating this contract and pursuing the rights and remedies available under this contract or law.

17.3 Stop Work Order. The State may, at any time, by written order to Contractor require Contractor to stop any or all parts of the work required by this contract for the period of days indicated by the State after the order is delivered to Contractor. The order must be specifically identified as a stop work order issued under this clause. Upon receipt of the order, Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. If a stop work order issued under this clause is canceled or the period of the order or any extension expires, Contractor shall resume work. The State Project Manager shall make the necessary adjustment in the delivery schedule or contract price, or both, and this contract shall be amended in writing accordingly.

18. CONTRACT TERMINATION

18.1 Termination for Cause. The State may, by written notice to Contractor with reasonable opportunity to cure, immediately terminate this contract in whole or in part for Contractor's failure to materially perform any of the services, duties, terms or conditions contained in this contract.

18.3 Reduction of Funding. The State must by law terminate this contract if funds are not appropriated or otherwise made available to support the State's continuation of performance of this contract in a subsequent fiscal period. (18-4-313(4), MCA.) If state or federal government funds are not appropriated or otherwise made available through the state budgeting process to support continued performance of this contract (whether at an initial contract payment level or any contract increases to that initial level) in subsequent fiscal periods, the State shall terminate this contract as required by law. The State shall provide Contractor the date the State's termination shall take effect. The State shall not be liable to Contractor for any payment that would have been payable had the contract not been terminated under this provision. As stated above, the State shall be liable to Contractor only for the payment, or prorated portion of that payment, owed to Contractor up to the date the State's termination takes effect. This is Contractor's sole remedy. The State shall not be liable to Contractor for any other payments or damages arising from termination under this section, including but not limited to general, special, or consequential damages such as lost profits or revenues.

18.4 Noncompliance with Department of Administration Requirements. The Department of Administration, under the provisions of 2-17-514, MCA, retains the right to cancel or modify any contract, project, or activity that is not in compliance with the Department's Plan for Information Technology, the State Strategic Plan for Information Technology, or any Statewide IT policy or standard in effect as of the date of contract execution. In the event of such termination, the State will pay for products and services delivered to date and any applicable termination fee specified in the statement of work or work order. Any modifications to this contract must be mutually agreed to by the parties.

19. EVENT OF BREACH – REMEDIES

19.1 Event of Breach by Contractor. Any one or more of the following Contractor acts or omissions constitute an event of material breach under this contract:

- products or services furnished fail to conform to any requirement;
- failure to submit any report required by this contract;
- failure to perform any of the other terms and conditions of this contract, including but not limited to beginning work under this contract without prior State approval or breaching Section 29.1 obligations; or
- voluntary or involuntary bankruptcy or receivership.

19.2 Event of Breach by State. The State's failure to perform any material terms or conditions of this contract constitutes an event of breach.

19.3 Actions in Event of Breach.

Upon the Contractor's material breach, the State may:

- terminate this contract under section 23; or
- treat this contract as materially breached and pursue any of its remedies under this contract, at law, or in equity.

Upon the State's material breach, the Contractor may:

- terminate this contract after giving the State written notice of the stated failure. The written notice must demand performance of the stated failure within a specified period of time of not

less than 30 days. If the demanded performance is not completed within the specified period, the termination is effective at the end of the specified period; or

- treat this contract as materially breached and, except as the remedy is limited in this contract, pursue any of its remedies under this contract, at law, or in equity.

20. FORCE MAJEURE

Neither party is responsible for failure to fulfill its obligations due to causes beyond its reasonable control, including without limitation, acts or omissions of government or military authority, acts of God, materials shortages, transportation delays, fires, floods, labor disturbances, riots, wars, terrorist acts, or any other causes, directly or indirectly beyond the reasonable control of the nonperforming party, so long as such party uses its best efforts to remedy such failure or delays. A party affected by a force majeure condition shall provide written notice to the other party within a reasonable time of the onset of the condition. In no event, however, shall the notice be provided later than five working days after the onset. If the notice is not provided within the five day period, then a party may not claim a force majeure event. A force majeure condition suspends a party's obligations under this contract, unless the parties mutually agree that the obligation is excused because of the condition.

21. WAIVER OF BREACH

Either party's failure to enforce any contract provisions after any event of breach is not a waiver of its right to enforce the provisions and exercise appropriate remedies if the breach occurs again. Neither party may assert the defense of waiver in these situations.

22. CONFORMANCE WITH CONTRACT

No alteration of the terms, conditions, delivery, price, quality, quantities, or specifications of the contract shall be granted without the State Procurement Bureau's prior written consent. Product or services provided that do not conform to the contract terms, conditions, and specifications may be rejected and returned at Contractor's expense.

23.2 Notifications. The State's liaison and Contractor's liaison may be changed by written notice to the other party. Written notices, requests, or complaints must first be directed to the liaison. Notice may be provided by personal service, mail, or facsimile. If notice is provided by personal service or facsimile, the notice is effective upon receipt; if notice is provided by mail, the notice is effective within three business days of mailing. A signed and dated acknowledgement of the notice is required of both parties.

23.3 Identification/Substitution of Personnel. The personnel identified or described in Contractor's proposal shall perform the services provided for the State under this contract. Contractor agrees that any personnel substituted during the term of this contract must be able to conduct the required work to industry standards and be equally or better qualified than the personnel originally assigned. The State reserves the right to approve Contractor personnel assigned to work under this contract and any changes or substitutions to such personnel. The State's approval of a substitution will not be unreasonably withheld. This approval or disapproval shall not relieve Contractor to perform and be responsible for its obligations under this contract. The State reserves the right to require Contractor personnel replacement. If Contractor personnel become unavailable, Contractor shall provide an equally qualified replacement in time to avoid delays to the work plan.

24. MEETINGS

24.1 Technical or Contractual Problems. Contractor shall meet with the State's personnel, or designated representatives, to resolve technical or contractual problems occurring during the contract term or to discuss the progress made by Contractor and the State in the performance of their respective obligations, at no additional cost to the State. The State may request the meetings as problems arise and will be coordinated by the State. The State shall provide Contractor a minimum of three full working days notice of meeting date, time, and location. Face-to-face meetings are desired; however, at Contractor's option and expense, a conference call meeting may be substituted. Contractor's consistent failure to participate in problem resolution meetings, Contractor missing or rescheduling two consecutive meetings, or Contractor's failure to make a good faith effort to resolve problems may result in termination of the contract.

24.2 Progress Meetings. During the term of this contract, the State's Project Manager shall plan and schedule progress meetings with Contractor to discuss Contractor's and the State's progress in the performance of their respective obligations. These progress meetings will include the State Project Manager, the Contractor Project Manager, and any other additional personnel involved in the performance of this contract as required. At each meeting, Contractor shall provide the State with a written status report that identifies any problem or circumstance encountered by Contractor, or of which Contractor gained knowledge during the period since the last such status report, which may prevent Contractor from completing any of its obligations or may generate charges in excess of those previously agreed to by the parties. This may include the failure or inadequacy of the State to perform its obligation under this contract. Contractor shall identify the amount of excess charges, if any, and the cause of any identified problem or circumstance and the steps taken to remedy the same.

24.3 Failure to Notify. If Contractor fails to specify in writing any problem or circumstance that materially affects the costs of its delivery of services or products, including a material breach by the State, about which Contractor knew or reasonably should have known with respect to the period during the term covered by Contractor's status report, Contractor shall not be entitled to rely upon such problem or circumstance as a purported justification for an increase in the price for the agreed upon scope.

24.4 State's Failure or Delay. For a problem or circumstance identified in Contractor's status report in which Contractor claims was the result of the State's failure or delay in discharging any State obligation, the State shall review same and determine if such problem or circumstance was in fact the result of such failure or delay. If the State agrees as to the cause of such problem or circumstance, then the parties shall extend any deadlines or due dates affected thereby, and provide for any additional charges by Contractor. This is Contractor's sole remedy. If the State does not agree as to the cause of such problem or circumstance, the parties shall each attempt to resolve the problem or circumstance in a manner satisfactory to both parties.

25. TRANSITION ASSISTANCE

If this contract is not renewed at the end of this term, if the contract is otherwise terminated before project completion, or if particular work on a project is terminated for any reason, Contractor shall provide transition assistance for a reasonable, mutually agreed period of time after the expiration or termination of this contract or particular work under this contract. The purpose of this assistance is to allow for the expired or terminated portion of the services to continue without interruption or adverse effect, and to facilitate the orderly transfer of such services to the State or its designees. The parties agree that such transition assistance is governed by the terms and conditions of this contract, except for those terms or conditions that do not reasonably apply to such transition assistance. The State shall pay Contractor for any resources utilized in performing such transition assistance at the most contract current rates. If the State terminates a project or this contract for cause, then the State may offset the cost of paying Contractor for the additional resources Contractor utilized in providing transition assistance with any damages the State may have sustained as a result of Contractor's breach.

26. CHOICE OF LAW AND VENUE

Montana law governs this contract. The parties agree that any litigation concerning this bid, proposal, or this contract must be brought in the First Judicial District in and for the County of Lewis and Clark, State of Montana, and each party shall pay its own costs and attorney fees. 29. SEVERABILITY CLAUSE

A declaration by any court or any other binding legal source that any provision of the contract is illegal and void shall not affect the legality and enforceability of any other provision of the contract, unless the provisions are mutually and materially dependent.

30. SCOPE, ENTIRE AGREEMENT, AND AMENDMENT

30.1 Contract. This contract consists of 9 numbered pages and any Attachments. In the case of dispute or ambiguity arising between or among the documents, the order of precedence of document interpretation is the same.

30.2 Entire Agreement. These documents are the entire agreement of the parties. They supersede all prior agreements, representations, and understandings. Any amendment or modification must be in a written agreement signed by the parties.

31. WAIVER

The State's waiver of any Contractor obligation or responsibility in a specific situation is not a waiver in a future similar situation or is not a waiver of any other Contractor obligation or responsibility.
