Typed Name _____

Fence Permit

Q&A

When is it necessary for me to obtain a fence permit? *As of January 1, 2008, anyone planning to repair, replace, or install a fence will be required to obtain a permit from the Planning and Inspections Department prior to commencement of any work.*

Where can I get an application? *You can pick up an application at Morehead City Hall located at 706 Arendell Street, Morehead City, or call the Planning and Inspections Department at (252) 726-6848 x125. You may obtain an application on the Planning & Inspections page of our website: moreheadcity.nc.gov.*

What is the cost of the permit? *The current fence permit fee is \$50.00 for a residential fence and \$65.00 for a commercial fence.*

Does my existing fence have to come into compliance with the new regulations? *An existing fence may remain the way it is unless repairs or other alterations are made. Any changes to an existing fence will require a permit and the fence to come into compliance with current regulations.*

How tall can a fence be constructed? *For residential districts, solid fences or walls installed in a front yard (area from the front property line to the front setback line) may be constructed no taller than three feet (3'); six feet (6') in the remaining yard. No fence may restrict visibility at any intersection. If the fence is not solid (more than fifty percent (50%) opening as viewed from outside the fence) then the front yard height can go up to four feet (4').*

What if my existing fence encroaches into a right-of-way or City property? *The City reserves the right to remove fences from rights-of-way and/or publicly owned property. In the event a fence is removed by the City, the replacement of a new fence or repair to an existing fence must be in compliance with current regulations.*
