Online Services for IJ70/	80/90/ S	tandard Edition (SP1	10)	Pro	fessional Edition (SP20)	eConfirmation Edition (SP30)
Monthly Subscription		\$30.00			\$30.00	\$15.00
	Valu	ue Edition (SP10 & S \$50.00	P20)			
neoFunds Account Plan All IJ Meters Monthly Fee		Advantage \$19.99		mier saction Fee		

Rules:

Purchase: Meter can be locked at Mid-Rate for up-to 3 years if prepaid in advance

Neopost Lease: Meter can be locked at Min-Rate for total duration of lease

* The SM26, IJ25, 964X, IJ35, IJ45, IJ65, IJ75 and IJ85 meters are variable reset meters. The SM26A/AI meter works on the SM26 and SM22 bases

The maximum reset per day is \$999.99 for IJ25A, \$3,000 for the SM26A and \$5,000 for 964X meters (no-deposit POC only).

Please note on the paperwork if the customer wishes to set a lower maximum reset limit.

NOTES:

Postage-On-Call Res	set Fees
IJ25:	\$9.50 each (up to 3 setting codes per call)
IJ25 Reset Fees:	\$5.00 each
Wire Transfers:	\$10.00
Emergency Advance	\$30.00
Insufficient Funds: (Bounced Checks)	\$25.00
ACH Transfers	No Charge

To change a P.O.C. customer's fixed reset amount, there will be a \$135 fee (non-commissionable).

(1) All-inclusive rates include unlimited resets at no additional charge. To bundle an All-inclusive meter in a leas use the mid-all-inclusive rate

(2) Maximum post office or P.O.C. setting is \$999.00 at one time for 9212 series.

			,======	+	-			÷

1- This is a software license - It includes 1 year of software warranty and subscription renewals - Includes 20,000 MOVE Update credits

2- This is a software license - It includes 1 year of software warranty and subscription renewals

3- This is ONE additional year of software warranty and renewal. Select only if the customer owns or the quote includes the corresponding software license

4- The dryer CANNOT be mounted to the ASCS (AS Conveyor).

5- the AS-DCS is a package of dryer and conveyor. It is NOT the same conveyor as the ASCS (AS Conveyor).

6 Requires NCD6 CASS CD subscription year two and onward
 7 Output speed of Mailroom Toolkit must equal to or greater to than the PrintMachine output speed

For example: If ordering the MRTK-60PPM, must also order PM-60, PM-120, or PM-ULT (see PrintMachine price page)

EXAMPLE OF SOFTWARE QUOTE FOR NEOPOST BULK MAILER SOFTWARE:

THE NEED: Customer need is for the Professional Edition softwre license + the GEOCODE software option

The customer wants to be covered for a duration of 4 Years on a lease or purchase for all software updates, license renewal and Tech support

THE SOLUTION TO QUOTE:

USBWN-PRO - BM 5 Neopost Pro Software Qty 1

USBWN-PRO-RE - BM 5 Neopost Pro Subscription - 1 Year RENEWAL/SUPPORT Qty 3

USBWN-PRO-GEO - BM 5 Pro Geocode Add-on Qty 1

USBWN-PRO-GEO-RE - BM 5 Pro Geocode Add-on - 1 Year RENEWAL/SUPPORT Qty 3

Pre-Sales Support approved required prior to accepting order PPM = Pages Per Minute

*= Per Document ^=1.2xdifference is the difference between a lower level PM * 1.2. E.g. PM3.51-120ppm to PM3.51-Unlimited = (48,900-28,300)*1.2 = \$24,720 ^=1.2xdifference is the difference between an older version of PM to the current one, I.e. from PM3.4 to 3.51 = (48,900-45,805)*1.2 = \$3,714

Folding/Inserting Equipment Reference Guide

Model	Description	Application
Horizontal m	odules	Most '92' modules have been removed from the price list as this these modules work on a SI 65, 78 and 92 as well. This was purely done to create more space on the pages. The modules with '92' can only be used on a SI 92.
IN1AS	Inserter (SI65)	For one, two, three or four station table top automatic inserting system. Recommended average volume of 60,000 inserts per month. Features available include: automatic set double document detector, rear exit only, seal or non seal, fold only, resettable item counter standard.
IN2C	Inserter (SI78)	For one, two, three or four station table top automatic inserting system. Average volume is recommended at 100,000 cycles per month. Features include 10 programmable job settings, auto setting, double and miss detection, 4,000 inserts per hour and two envelope exits. Utilizes serial communication and has automatic sealing function as well as automatic flap sealing.
IN3-92	Inserter (SI92)	The IN3 is a high end table top inserter that can be configured as single 2, 3 or 4 station automatic inserting system. It processes both standard mail and flats (catalog style envelopes). The IN3 is intended for production use. Recommended average volume of 120,000 inserts per month. Standard features include central control station, electronic fold setting, Secure'N Sert
IN2BRP	Reverse Panel for IN2B/C	Reverses the control panel so machine can be operated from the opposite side.
AS1AS	Optical Mark Recognition (OMR) Accumulating Station	The unit reads marks on a document and can determine which pages are part of a set and belong together. Unit can also selectively feed from other feeders, select the proper inserter exit and other tasks, all by the proper marks placed on documents.
FE1MS	Motorized Feeder	Automatically sends sheets/inserts to the transport unit, folder, or inserter. Inserts can be folded or unfolded. For use on TR7/TR7S. FE1-92 for use on TR7-92.
FE7S	Feeder	Automatic thickness adjustment, auto double document detector and multi-sheet feeding. Can feed collated documents from station 1 or 2 on TR2 or any station on TR7. Will not work with TR2 serial number below 87N8200. When TE2 is ordered in a four station system, the FE7 must be in station four. However, it can only feed one document at a time from that station.
FO2S	Folder	Heavy duty folder. Operates faster than FO1 in one station configuration. Can fold 1 - 7 pieces 20 lb. paper in a tri-fold. This folder is required for TR7 applications.
FO3	Folder	Heavy duty folder. Electronic fold settings from IN3-92. Can fold 1 - 8 pieces 20 lb. paper in a tri-fold. This folder is required for TR7-92 applications.
FPFOG	Fold Plate	Spare fold plate.
TR7S / TR7-92	Transport Unit	Required in conjunction with the FO1 or FO2 when folding a 7" document with a bottom address in half and inserting it into a window envelope.
TE7S	Transport Extension	Designed for two station high speed, intelligent transport. Features include four programmable operating modes, expandable to three or four stations, self adjusting collator. Uses FE7, FE1M or FE9 feeders and FO2A folder. FE8 can also work on serial TR7S. TR7-92 comes standard with TCK

Notes:

• Folkstone Grey is Neopost's standard color.

• Other colors are noted by adding an alpha suffix to the model # (ex. MT6833 = grey, but MT6833A = Almond).

Not all models are available in all colors.
Non-standard colors have a lead time of 5 - 6 weeks.

Colors include:

A = Almond paint, almond laminate, and almond edging

B = Almond paint, oak laminate, and almond edging

C = Charcoal gray paint, light gray Glace laminate, and charcoal edging
