I. INTRODUCTION AND BACKGROUND

The New York State Department of Health is seeking applicants to develop, implement and evaluate projects to increase emergency contraception (EC) awareness and access for women and adolescents at high risk of pregnancy in New York State. This project will be overseen by the Bureau of Women's Health within the Division of Family Health, in the Center for Community Health.

A. Background/Intent

The New York State Department of Health (DOH) has a long history of supporting women and men in their efforts to control the timing and spacing of births. A planned pregnancy and birth is much more likely to result in a healthy pregnancy as well as a healthy mother and baby. To achieve this end, New York State strives on an ongoing basis to ensure that all New Yorkers of reproductive age have access to comprehensive family planning and reproductive health care services. An additional and relatively recent addition to the existing methods of preventing mistimed or unwanted pregnancies is EC, which can be used in instances where either other contraceptive methods have failed, or were not used.

The Pregnancy Risk Assessment Monitoring System (PRAMS) survey has consistently reported that a high percentage of all births are unplanned or mistimed, which indicates significant barriers to minimizing unplanned pregnancies.

In February of 1997, the Food and Drug Administration (FDA) announced that certain combinations of estrogen and progestin were safe and effective for use as post coital emergency contraception. EC prevents pregnancy, but will not terminate or harm an existing pregnancy. Emergency contraceptive pills taken within 72 hours of unprotected intercourse reduce the risk of pregnancy by over eighty five percent, from an eight percent risk after an episode of unprotected intercourse to a one percent risk. The sooner after intercourse the pills are used, the more effective they are. The most effective form, known as Plan B[®], consists of the hormone levonorgestrel at a higher dose than that is used in standard birth control pills. The FDA approved Plan B[®] for over-the-counter (OTC) sales to women age eighteen and over in August of 2006. Women younger than eighteen years of age still require a prescription. OTC drug products require a fiscal order for Medicaid payment. However, to ensure there was no delay in treatment, a fiscal order is not required to support payment for Plan B[®] when provided to women 18 years of age and older. For women under the age of 18, a prescription will still be required.

Even though EC is now more readily available, women and professionals may still be either unaware of its availability or misunderstand its use. In 2003, a survey was conducted by the American College of Obstetricians and Gynecologists (ACOG) of 800

U.S. women ages eighteen to forty nine. Only six percent reported having ever used EC. ACOG states that many women are unaware of the existence of EC, lack an understanding of its use and safety, and do not know how to access EC. In order to address these issues, the Department is releasing this RFA for outreach and education on EC.

B. Description of the Program

Under this RFA, the Bureau of Women's Health will fund up to two applicants to design, implement and evaluate a statewide initiative (two projects) that will increase awareness among health care professionals, adolescents and women at high risk for pregnancy, of the availability of EC in New York State (NYS). In addition to increasing awareness of the availability of EC, the campaign will promote the need for women to engage in ongoing reproductive health care services and ongoing methods of family planning and stress that EC does not protect from sexually transmitted infections (STIs) such as HIV. It is the intent of the Department that one project will target the downstate region of New York (New York City, Long Island and the Lower Hudson Valley Region), and one will target the upstate region of New York (all areas of the state outside of NYC, Long Island and the Lower Hudson Valley region). Applicants may apply to cover one or both regions and must submit separate applications for each region they are applying for. Submission of separate applications for each region is required. If one application to cover both regions is received, the application will be disqualified.

Up to **\$500,000** in funding is available in total. Up to two awards at up to \$250,000 each are anticipated. The initial contract period for these awards is expected to be January 1, 2010 through December 31, 2010 with the possibility of renewal for an additional year. Subsequent funding is contingent upon satisfactory performance, availability of funding and approval of an annual work plan and budget.

C. Problems/Issues to be addressed through this RFA

The purpose of this RFA is to secure a contractor or contractors who will work with the Department to reduce unintended pregnancies through a public awareness and education campaign to advance the understanding of EC as a safe and effective method of pregnancy prevention. The campaign will be directed to health care providers, women of reproductive age and professionals serving populations at high risk for unintended pregnancy and stress the need for ongoing family planning and reproductive health care services. The Bureau of Women's Health will fund up to two applications.

II. Who May Apply

A. Minimum Eligibility Requirements

Eligible applicants for this RFA include not-for-profit organizations with demonstrated capacity and experience in the field of reproductive health services, and health education and promotion activities.

B. Preferred Eligibility Requirements

Preference will be given to applicants who can demonstrate a strong history of involvement in the provision of reproductive health care, and outreach and education activities, who demonstrate extensive experience in working with health care professionals and communities to strengthen access to services, and who can demonstrate successful experience designing and implementing multi-media campaigns on a large scale (e.g., multi-county or statewide basis) targeting populations that have been historically underserved. Preference will also be given to organizations that demonstrate successful experience in developing and implementing outreach and educational campaigns reaching culturally diverse populations.

III. Project Narrative/ Work Plan Outcomes

A. Expectations of the Project

The Department of Health seeks to award up to two contracts through this RFA to qualified organizations to develop, implement and evaluate innovative approaches to:

- Educate reproductive health care professionals as well as the health care community at large about the safety and use of EC;
- Act as a resource for health care providers in design of efforts to educate women and adolescents about the safety and use of EC, and promote access for women and adolescents in need of EC;
- Educate non-health care professionals in how to inform women and adolescents about the availability of EC;
- Identify, develop and pilot test messages and materials to be used to conduct outreach to women and adolescents who are at high risk for unintended pregnancy and inform them of the availability and use of EC, as well as encourage their participation in primary reproductive health care services, including the use of an ongoing method of effective contraception.
- Develop a plan for optimal distribution of outreach messages and materials to target population within New York State.

Applicants may apply to cover one or both regions and must submit a separate application for each region they are applying for. The project plan and work plan should fully describe the proposed program, fully summarize the implementation activities and denote planned outcomes. The goals and objectives for the project should be clearly stated. Applicants need to utilize the SMART approach in developing their work plan activities. SMART goals and objectives are defined as Specific, Measurable, Achievable, Realistic and Timely. Each objective should be stated in measurable terms, specifying the implementation activities, deliverables, time frame, person(s) responsible and evaluation measure. Each objective described in the work plan should explain the kind and quantity of work and activities that will be implemented to accomplish the proposed objective and expected outcomes.

B. Project Narrative

Awareness and outreach campaigns are highly effective ways to publicize the availability and importance of reproductive health care services. The purpose of this funding is to increase awareness among both professionals and women of reproductive age about the utilization of EC as an effective means to prevent unintended pregnancies when contraceptive methods have failed or have not been used. The public awareness campaign will increase awareness of the use and availability of EC for adolescents and women at high risk of pregnancy. The pilot outreach and education campaign targeted at health care and other professionals will increase the number of opportunities that exist for health care and other professionals (e.g., social workers, counselors, etc.) to promote awareness of EC to at-risk populations. Education will enable health care professionals to integrate education, counseling and provision of EC into their routine clinical practice.

This RFA focuses on two major components to increase awareness of EC to reduce access barriers for women and adolescents of reproductive age. Under this procurement, applicants need to describe how they will address the following components:

1. The first component targets the health care delivery system by supporting health care providers and organizations in the integration of EC information and education into current services. The literature suggests that such community partnerships are highly effective in reaching women of reproductive age. Community partners are health care providers such as physicians (obstetricians and gynecologists, pediatricians, family practice physicians, etc.) midwives, physician assistants, etc., as well as agencies and organizations that have access to and are trusted by adolescents and women, who provide information, advocacy, social support and health care services. Health care professionals, social workers and others who work directly with this target population possess the skills to engage and counsel adolescents and women. Often because such

professionals have relationships with high risk youth and vulnerable women, they are able to provide medically accurate information and education about EC, and identify and reduce barriers to access. They can also encourage and assist their clients to seek ongoing reproductive health care services. The successful applicant will design a program identifying best practices and provide technical assistance that targets these professionals/community partners.

2. The second component is a pilot educational and media campaign which targets females of reproductive age, the consumers of EC, regarding the safety, efficacy and availability of EC. The messages to consumers need to include information on the availability, safety and effectiveness of EC, dispel myths regarding the use and safety of EC, and must stress that EC does not protect against STIs and does not preclude the need for ongoing family planning and reproductive health care services. The pilot educational and media campaign should consist of messages and materials which have been focus-tested, along with a research-based plan to outreach to the intended audience using appropriate modalities such as the internet, text messages, and social networking sites such as Face Book, You Tube and MySpace.

The application should include innovative materials and approaches to target adolescents and women. The application should also include strategies designed to best meet the identified target population. Methods to reach culturally diverse communities need to also be described.

C. Expected Outcomes

Funded projects will be expected to produce measurable increases in use of EC, and be able to demonstrate the impact of efforts on various populations of reproductive aged women. These efforts should result in a decrease in unplanned pregnancies, but interim measures, including increased usage of EC, increased knowledge of the efficacy and safety of EC among professionals and related health care workers, and among reproductive aged women, may be used as outcome measures if the impact is expected beyond the period of the grant.

Two Initiatives to Increase Awareness of the Availability of Emergency Contraception (EC) in New York State will be funded for up to \$250,000 each per year, for a total of \$500,000. One applicant may apply for and be awarded funding to implement both projects.

All applications will be scored using a standardized tool. Each proposal will be reviewed by a minimum of three reviewers, whose scores will be averaged to arrive at a final score for each application. Scores will be ranked from highest to lowest, with higher scores being most desirable. Applicants with average scores below 60 will not be considered for funding. Nor does such prohibition prohibit any reasonable payment to a person in connection with, or any payment of reasonable compensation to an officer or employee of the CONTRACTOR if the payment is for professional or technical services rendered directly in the preparation, submission or negotiation of any bid, proposal, or application for a Federal contract, grant, loan, or cooperative agreement, or an extension, continuation, renewal, amendment, or modification thereof, or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan or cooperative agreement.
- This section shall be applicable to this AGREEMENT only if federal funds allotted exceed \$100,000.
 - a) The CONTRACTOR certifies, to the best of his or her knowledge and belief, that:
 - No federal appropriated funds have been paid or will be paid, by or on behalf of the CONTRACTOR, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal contract, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal amendment or modification of any federal contract, grant, loan, or cooperative agreement.

 - b) The CONTRACTOR shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including

subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

- c) The CONTRACTOR shall disclose specified information on any agreement with lobbyists whom the CONTRACTOR will pay with other Federal appropriated funds by completion and submission to the STATE of the Federal Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions. - 4) The reporting requirements enumerated in subsection (3) of this paragraph shall not apply to the CONTRACTOR with respect to:
 - Payments of reasonable compensation made to its regularly employed officers or employees;

b. CERTIFICATION REGARDING ENVIRONMENTAL TOBACCO SMOKE:

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, day care, early childhood development services, education or library services to children under the age of 18, if the services are funded by federal programs either directly or through State or local governments, by federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such federal funds. The law does not apply to children's services provided in private residences; portions of facilities used for inpatient drug or alcohol

treatment; service providers whose sole source of applicable federal funds is Medicare or Medicaid; or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a monetary penalty of up to \$1000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing this AGREEMENT, the CONTRACTOR certifies that it will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act. The CONTRACTOR agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

c. CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

Regulations of the Department of Health and Human Services, located at Part 76 of Title 45 of the Code of Federal Regulations (CFR), implement Executive Orders 12549 and 12689 concerning debarment and suspension of participants in federal programs and activities. Executive Order 12549 provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government-wide system for non-procurement debarment and suspension. Executive Order 12689 extends the debarment and suspension policy to procurement activities of the federal government. A person who is debarred or suspended by a federal agency is excluded from federal financial and non-financial assistance and benefits under federal programs and activities, both directly (primary covered transaction) and indirectly (lower tier covered transactions). Debarment or suspension by one federal agency has government-wide effect.

Pursuant to the above-cited regulations, the New York State Department of Health (as a participant in a primary covered transaction) may not knowingly do business with a person who is debarred, suspended, proposed for debarment, or subject to other government-wide exclusion (including any exclusion from Medicare and State health care program participation on or after August 25, 1995), and the Department of Health must require its prospective contractors, as prospective lower tier participants, to provide the certification in Appendix B to Part 76 of Title 45 CFR, as set forth below:

1) APPENDIX B TO 45 CFR PART 76-CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION-LOWER TIER COVERED TRANSACTIONS

Instructions for Certification

- a) By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
- b) The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered and erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- c) The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the

prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

- d) The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.
- e) The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- f) The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions.
- g) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded From Federal Procurement and Non-procurement Programs.
- h) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- i) Except for transactions authorized under paragraph "e" of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- 2) Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion Lower Tier Covered Transactions
 - a) The prospective lower tier participant certifies, by submission of this

- proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department agency.
- b) Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.
- 6. The STATE, its employees, representatives and designees, shall have the right at any time during normal business hours to inspect the sites where services are performed and observe the services being performed by the CONTRACTOR. The CONTRACTOR shall render all assistance and cooperation to the STATE in making such inspections. The CONTRACTOR has an affirmative duty to take prompt, effective, investigative and remedial action where it has actual or constructive notice of discrimination in the terms, conditions or privileges of employment against (including harassment of) any of its employees by any of its other employees, including managerial personnel, based on any of the factors listed above.
- 8. The CONTRACTOR shall not discriminate on the basis of race, creed, color, sex, national origin, age, disability, sexual orientation or marital status against any person seeking services for which the CONTRACTOR may receive reimbursement or payment under this AGREEMENT.
- The CONTRACTOR shall comply with all applicable federal, State and local civil rights and human rights laws with reference to equal employment opportunities and the provision of services.
- 10. The STATE may cancel this AGREEMENT at any time by giving the CONTRACTOR not less than thirty (30) days written notice that on or after a date therein specified, this AGREEMENT shall be deemed terminated and cancelled.
- 11. Where the STATE does not provide notice to the NOT-FOR-PROFIT CONTRACTOR of its intent to not renew this contract by the date by which such notice is required by Section 179-t(1) of the State Finance Law, then this contract shall be deemed continued until the date that the agency provides the notice required by Section 179-t, and the expenses incurred during such extension shall be reimbursable under the terms of this contract.

12. Other Modifications

APPENDIX D

PROGRAM WORKPLAN (sample format)

A well written, concise workplan is required to ensure that the Department and the contractor are both clear about what the expectations under the contract are. When a contractor is selected through an RFP or receives continuing funding based on an application, the proposal submitted by the contractor may serve as the contract's work plan if the format is designed appropriately. The following are suggested elements of an RFP or application designed to ensure that the minimum necessary information is obtained. Program managers may require additional information if it is deemed necessary.

CORPORATE INFORMATION

Include the full corporate or business name of the organization as well as the address, federal employer identification number and the name and telephone number(s) of the person(s) responsible for the plan's development. An indication as to whether the contract is a not-for-profit or governmental organization should also be included. All not-for-profit organizations must include their New York State charity registration number; if the organization is exempt AN EXPLANATION OF THE EXEMPTION MUST BE ATTACHED.

II. SUMMARY STATEMENT

This section should include a narrative summary describing the project which will be funded by the contract. This overview should be concise and to the point. Further details can be included in the section which addresses specific deliverables.

III. PROGRAM GOALS

This section should include a listing, in an abbreviated format (i.e., bullets), of the goals to be accomplished under the contract. Project goals should be as quantifiable as possible, thereby providing a useful measure with which to judge the contractor's performance.

IV. SPECIFIC DELIVERABLES

A listing of specific services or work projects should be included. Deliverables should be broken down into discrete items which will be performed or delivered as a unit (i.e., a report, number of clients served, etc.) Whenever possible a specific date should be associated with each deliverable, thus making each expected completion date clear to both parties.

Language contained in Appendix C of the contract states that the contractor is not eligible for payment "unless proof of performance of required services or accomplishments is provided." The workplan as a whole should be structured around this concept to ensure that the Department does not pay for services that have not been rendered.

Budget Instructions

Prepare an annualized budget for the 12-month period starting January 1, 2010 and ending December 31, 2010, using the attached forms and instructions. If there are anticipated delays in hiring, you will need to include the annualized salary and pro-rate it based on the number of months actually employed. There will be no roll-over of funds from one year to the next.

A description and justification of each personnel line item and non-personal services budget line should be provided. Identify key staff for the project by name, title and their proposed responsibilities. Staffing is expected to be consistent with the level of effort described in the work plan. Each position should be fully justified, and the appropriate qualifications required for the position should be stated.

The salaries that are included in the budget need to be actual annual salaries and not some composite based on potential raises. Increments for salaries will only be given (within budget constraints) if there is an actual formal agreement that a raise has been approved and will take effect on a specific date. In that event, two salary lines will be required for the individual scheduled for a raise, one for each salary level and the number of months of the budget. Retroactive salary increases are not allowed. Vacant positions should be reported as an attachment to the quarterly voucher and the progress reports. The explanation needs to include what has been done to recruit and fill the positions and describe any problems with filling the vacancy(ies).

Administrative costs should be appropriate to the operation of the program and kept to a maximum of 10% of the amount being requested from New York State in your application. Each administrative cost should have a separate line item in the budget. The budget may allow for reasonable costs for the required annual independent audit, if an audit is required by state and federal requirements. Audit and other shared costs should be allocated to the Emergency Contraception Outreach and Education Program based on a defined agency allocation methodology. Indirect costs applied as a percentage are not allowed.

An example of shared cost is when personnel function across more than one funded program. Hence the total cost of their being on the payroll is a "shared cost." Other examples might include but are not limited to space-related costs, communications, office supplies, photocopy, legal, insurance, payroll services and accounting. Identify

each such cost that appears in your budget. Provide a written and quantified explanation of the allocation of each shared cost item in the budget across agency funding sources (demonstrating the percentage and amount for each of the agency's programs).

OPERATING BUDGET FUNDING REQUEST TABLES

Table A: Summary Budget Request

This Table should be completed last and will include the total lines only from Table A-1 (Personal Services) and Table A-2 (Non-personal Services) and the Grand Total. As a check, grand total requested from DOH should match your funding request. Total expense = DOH + Other Sources. Other sources may be in-kind, other grants, etc.

Table A-1: Personal Service

Personnel contributing any part of their time to the project should be listed with the following items completely filled in:

Title: The title given should reflect either a position within your organization or on this project. List names, titles and positions. Indicate whether the position is full-time (FT) or part-time (PT).

Annual Salary: Salaries that are included in the budget need to be actual annual salary rates for the full time position, and not some composite based on potential raises. Increments for salaries will only be given (within budget constraints) if there is an actual formal agreement that a raise has been approved and will take effect on a specific date. Retroactive salary increases are not allowed. Planned increases need to be requested and approved, in advance of instituting any changes, by the budget modification process. If a negotiated increase will go into effect, the position should be indicated on 2 separate lines, with the projected number of months at each salary (see example below.)

% FTE: The proportion of time spent on the project based on a full time equivalent (FTE) should be indicated. One FTE is based on the number of hours worked in one-week by salaried employees (e.g., 40 hour work week). To obtain % FTE, divide the hours per week spent on the project by the number of hours in a work week. For example, an individual working 10 hours per week on the project given a 40 hour work week = 10/40 = .25 FTE (shown in decimal form) or 25% (shown as a percentage).

of Months: Show the number of months out of 12 worked for each title.

Total Expense: Total expense can be calculated using the following method:

Total Annual Salary x % FTE x (months worked /12) = Total Expense

Total Expense needs to be distributed between (1) Amount Requested from NYS and (2) Other Source, as deemed appropriate by your fiscal staff. You may use any combination of these two categories for each line item, as long as the combined total amount is equal to the total expense for each line item. This is also applicable to Table A-2.

Note: If the employee is part-time, mark "PT" after the title, include the annual salary rate for a full time employee, the % FTE for the part time employee in the position, the number of months the employee is in the position and the actual salary amount charged to the grant.

For example:

Title	Annual Salary	%FTE	# Months	Total Expense
Secretary PT	\$24,000	50%	12	\$ 12,000

In a case in which the salary of an employee will change during the contract year regardless of the amount of time spent on this project, the total annual salary for each position should be given for the number of months applicable to that salary.

For example, if a union negotiated contract salary increase will impact a portion of the 12-month budget period it should be shown on Table A-1 as follows (the same position will use two lines in the budget):

Title	Annual Salary	%FTE	# Months	Total Expense
•	FT \$22,500	100%	8	\$15,000
	FT \$24,000	100%	4	\$ 8,000

Fringe Benefits: Insert the calculated Fringe rate (from Form B-2) in the space provided. Multiply this rate by the sub-total of Personal Services (Amount in Total Expense column subtotal Personal line). The total fringe amount should be shown (total expense x fringe rate from Form B-2).

TABLE A-2: NON-PERSONAL SERVICES (OTPS)

ALL non-personal service expenses that are directly related to the conduct of program activities should be listed regardless of whether or not funding for these expenses is requested from New York State. As with Table A-1, distribute the total expense between DOH and Other Sources (specify other sources). See instructions for Form B-3 for allowable non-personal costs.

BUDGET NARRATIVE/JUSTIFICATION FORMS:

Use Forms B-1 and B-3 to provide a justification/explanation for the expenses included in the Operating Budget and Funding Request Tables. The justification needs to show all items of expense and the associated costs that comprise the amount requested for each budget category (e.g., if your total travel cost is \$1,000, show how that amount was determined – provide details of expenses for conferences, local travel, etc.), and an explanation of how these expenses relate to the goals and objectives of the project.

FORM B-1: PERSONAL SERVICES

List each title, the name of the incumbent, and a description for each position, including the percentage of time spent on various duties where appropriate, on this form. Contracted or per diem staff are not to be included in personal services; these expenses should be shown as consultant or contractual services under non-personal services. Specifically describe the methodology used when salaries are allocated across multiple programs within the agency. For all positions please provide the total number of hours worked weekly for the agency as well as the number of hours worked on this program.

FORM B-2: FRINGE BENEFIT RATE

Specify the components (FICA, Health Insurance and Life Insurance, Unemployment Insurance, Retirement, Workmen's Compensation and Disability Insurance) and their percentages comprising the fringe benefit rate, then total the percentages to show the fringe benefit rate used in budget calculations. Form B-2 already lists the standard components of a fringe benefit rate. If different rates are used for different positions, submit Form B-2 for each rate (make copies of Form B-2, if necessary) and specify which positions are subject to that rate.

Compute an average of the multiple fringe rates for your personnel. Use an average of the multiple fringe benefit rates on Table A-1.

FORM B-3: NON-PERSONAL SERVICES

Include all program services and administrative costs that are directly related to the conduct of program activities. Itemize in detail equipment and supplies by type and

cost. Contractual services should also be itemized. This includes utilities, advertising, postage, photocopying, etc. Specifically describe the methodology for allocation of shared costs.

Overhead

Overhead is not allowable as a single line item. If you are seeking reimbursement for those administrative costs often considered in overhead lines, they need to be broken out and listed individually as line items. Specifically describe the methodology for allocation of these costs.

The following is a list of allowable costs that might be indirect or overhead:

Accounting

Audit Service

Bonding

Budgeting

Communication

Personal Service & Appropriate fringe (if supported by time and distribution records)

Personnel Administration

Payroll Preparation

Maintenance & Repair

Central Stores

Motor Pools

Legal services which are approvable under the contract

You may request reimbursement for up to ten percent administrative/indirect costs equal to the actual expense or a prorated amount based on a methodology that appropriately allocates the cost across all program components. All indirect costs need to be lined out separately.

Costs Not Allowed

New construction

Purchase of land or buildings

Renovation that constitutes new construction

Depreciation

Entertainment

Bad debts

Individual Professional dues

Honoraria (speaker's fee is acceptable)

Fund Raising

Interest Costs

Alcoholic Beverages

Lobbying

Contingency funds

Fines, Penalties
Pre-award Costs
Overhead, Indirect or Administration costs (not lined out)
Legal costs incurred as a result of disputes with DOH
Miscellaneous (if it exceeds \$1,000 and, if previous justification has not been approved)

Supplies and Materials

Provide a delineation of the items of expense and estimated cost of each along with justification of their need. Some routine supplies may be consolidated under office supplies. List educational materials for consumers and providers separately.

<u>Travel</u>

Provide a delineation of the items of expense and estimated cost (i.e., travel costs associated with conferences, including transportation, meals, lodging, registration fees, administrative travel vs. programmatic travel, staff travel) and estimated cost along with a justification of need. The derivation of travel costs should be explained, for example: travel via auto of 1000 miles @ \$0.375/mile = \$375, plus per diem rates of \$75 for 2 days of travel for 3 staff = \$450. Costs should be based upon a travel reimbursement policy. Travel reimbursement cannot exceed DOH staff travel reimbursement guidelines, which are available upon request.

The project will be reimbursed for local travel costs not to exceed the current mileage allowances established by your agency for personal automobile use and also limited to the IRS mileage rate. The most cost effective method of travel needs to always be used. Travel costs are limited to those allowed by the project's travel policy.

Programs are required to obtain prior approval in writing from the Contract Manager in the Bureau of Women's Health for Out-of-State conference travel and related expenses. Per Diem or subsistence allowance need to be reasonable and need to be limited to the days at the conference plus actual travel time required reaching the conference location by the most direct route. In the case of air travel, less than first-class needs to be used, and will be the basis for reimbursement.

Consultants/Per Diems/Contractual Services

This category should be used to budget for time-limited/specific services, which cannot be accomplished by existing staff, as well as for any services/expenses that will be provided by a subcontractor. Provide a justification of why each service listed is needed. Justification should include the name of the consultant/contractor; the specific service to be provided, the time frame for the delivery of services, costs per hour/day and total estimated hours/days. In addition, a line time budget for each

subcontract/consultant needs to be attached to the form. Any subcontract must be submitted to the Department for prior approval.

Equipment

An item is defined as equipment if it is an article of tangible personal property having a useful life of more than two years and an acquisition cost of \$300 or more per unit. These items must be inventoried (tagged) and reported on the annual inventory form. The tag number, manufacturer serial number, date of purchase, date of disposition, location, and cost of each item must be reported on an annual inventory form.

<u>Audit</u>

The amount shown for the audit must not exceed 1% of the total funds requested from New York State Department of Health, unless otherwise negotiated with the BWH Contract Manager.

<u>Space</u>

Costs of space rental must include the number of square feet, cost per square foot and the methodology used if the cost is allocated across programs. Detail of maintenance costs and utilities should be included.

Other

All other non-personal service expenses should be lined out alphabetically and separately and contain significant detail and an explanation of how these expenses relate to the goals and objectives of the project.

COST ALLOCATION METHODOLOGY

You need to specifically describe the methodology for allocation of shared costs. Explain and demonstrate how each of the shared costs in your budget is allocated across funding sources. An example of shared cost is when personnel function across more than one funded program. Hence the total cost of their being on the payroll is a "shared cost." Other examples might include but are not limited to space-related costs, communications, office supplies, photocopy, legal, insurance, payroll services and accounting. Identify each such cost that appears in your budget. Provide a justification of the allocation of each shared cost item in the budget across agency funding sources (demonstrating the percentage and amount for each of the agency's programs).

Simple Allocation Methodology

The agency takes the sum of all its contracts, figures out what percent the grant is and allocates all costs accordingly. For example, if the agency takes in \$1 million, and our grant is \$250,000, then the agency allocates 25% of all shared costs to our grant.

Multiple Allocation Methodology

The agency may choose to use multiple allocation methodologies based on cost centers, by grouping costs then allocating them accordingly. For example,

- All costs associated with operation, such as printing, copying, mailing, and telephone, may be grouped and allocated according to use by each grant. The agency must have a good understanding of the use of these items across all grants in order to do this. As an alternative, the agency may decide to simply allocate a percent of these costs to all grants.
- The agency might also allocate administrative items such as accounting and billing, etc. If the agency has a grant that has substantial billing, vouchering, and subcontracting activity, they may allocate more of those costs to that grant.
- Space might be allocated by taking the cost per square foot and multiplying that by the number of employees on the grant.

Direct Allocation Methodology

The agency may also consider every expense as a direct cost and allocate it based on the specific use by each grant.
