

HealthChoice USA Plan 2012

Overview

The HealthChoice USA Plan is a health plan designed for current employees who live and work outside of Oklahoma and Arkansas and pre-Medicare former employees who live outside of these states. The Plan provides benefits identical to the HealthChoice High Plan with access to a nationwide provider network.

HealthChoice USA includes one of the top nationwide PPO networks, the ChoiceCare Network. The ChoiceCare Network is one of the largest provider networks in the country, with nearly 450,000 providers and 3,000 facilities.

Identification Cards

When electing the HealthChoice USA Plan for the first time, you will receive two ID cards. The card imprinted with the ChoiceCare Network logo and the HealthChoice plan administrator's contact information is for your health benefits. This ID card **MUST** be presented when using any of the ChoiceCare Network Providers; otherwise, you will forfeit the available discounts and be charged in accordance with non-Network benefits. The card imprinted with the Medco logo is for your pharmacy benefits.

Benefits

The benefits for the HealthChoice USA Plan are identical to the HealthChoice High Plan. You are encouraged to use ChoiceCare Network Providers whenever possible to reduce your out-of-pocket costs. If you use a non-Network provider, benefits will be paid as non-Network which will reduce plan benefits and increase your out-of-pocket cost. Please refer to the *HealthChoice High, High Alternative, Basic, and Basic Alternative Health Plans Handbook* for more information.
