*Needs and Uses:* This collection will be submitted as an extension (no change in reporting requirements), after this 60 day comment period to the Office of Management and Budget (OMB) in order to obtain the full three year clearance. The Commission rules in 47 CFR part 15.1525 requires operators of the Ultra Wideband (UWB) imaging systems to coordinate with other Federal agencies via the FCC and to obtain approval before the UWB equipment may be used. Initial operation in a particular area may not commence until the information has been sent to the Commission and no prior approval is required. The information will be used to coordinate the operation of the Ultra Wideband transmission systems in order to avoid interference with sensitive U.S. government radio systems. The UWB operators will be required to provide name, address and other pertinent contact information of the user, the desired geographical area of operation, and the FCC ID number, and other nomenclature of the UWB device. This information will be collected by the Commission and forwarded to the National Telecommunications and Information Administration (NTIA) under the U.S. Department of Commerce. This information collection is essential to controlling potential interference to Federal radio communications. Since

initial operation in a particular area does not require approval from the FCC to operate the equipment.
