LOANS & LEASES

- **Collateral Codes:** Loans are to be reported by collateral code. For example, if a new or used vehicle is secured by real estate, i.e., home equity loan, include it with real estate loans. If a member business loan or business purpose loan is secured by real estate, it should be reported as a real estate loan. Otherwise, report business loans on the Total All Other Loans/Lines of Credit line. Report the portion of any loan participation or purchase that remains on the credit union’s balance sheet according to the applicable collateral code.
- **Interest Rates:** Report loan interest rates being offered as of the reporting period for each loan category. Report the actual rate (i.e., 6.5% = 6.5). If more than one rate applies, report the most common rate in each category.
- **For each loan category, report only those loans which have an outstanding balance.** Loans reported should be shown net of loan origination fees (costs) which shall be recognized over the life of the related loan as an adjustment of yield. Loan fees, certain direct loan origination costs, and purchase premiums and discounts on loans shall be recognized as an adjustment of yield generally by the interest method based on the contractual terms of the loan.
- **Participation Loans:** Report the number of individual loans in each pool—not the number of pools.

15. Unsecured Credit Card Loans. Include the rate, number, and dollar amount of outstanding credit card loans. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 9) of the Liquidity Commitments and Sources page.

16. All Other Unsecured Loans/Lines of Credit (other than credit cards). Include the rate, number, and dollar amount of outstanding unsecured loans and lines of credit other than credit card loans. Typically, this would include comaker and cosigner loans. Also, report overdraft protection program advances here (commonly referred to as “bounced-check protection” or “courtesy pay”). Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 9) of the Liquidity Commitments and Sources page.

17. New Vehicle Loans. Include the rate, number, and dollar amount of new vehicle loans where the new vehicle is pledged as security.

18. Used Vehicle Loans. Include the rate, number, and dollar amount of used vehicle loans where the used vehicle is pledged as security.

19. Total 1st Mortgage Real Estate Loans/Lines of Credit. Include the rate, number, and dollar amount of outstanding loans and lines of credit secured by a first mortgage lien on the property. Include member business loans secured by real estate. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 9) of the Liquidity Commitments and Sources page.

20. Total Other Real Estate Loans/Lines of Credit. Include the rate, number, and dollar amount of outstanding real property loans and lines of credit secured by an interest on the property other than a first mortgage lien. Typically, this would include home equity and second mortgage loans. Include member business loans secured by real estate. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 9) of the Liquidity Commitments and Sources page.

- If your credit union has any real estate loans outstanding (i.e., if there is amount reported on lines 19 or 20) or if your credit union has originated any real estate loans during the reporting period, complete the real estate loan section of **Schedule A – Specialized Lending** on page 13.
- If your credit union has any business loans outstanding or has originated any member business loans during the reporting period, complete the Business Loans section of **Schedule A – Specialized Lending** on page 14.

22. Total All Other Loans/Lines of Credit. Include the rate, number, and dollar amount of outstanding loans not already included in lines 14 - 21. Typically, this would include member business loans and business purpose loans (including agricultural loans) not secured by real

estate, share secured loans, guaranteed loans, student loans, etc. Unused loan commitments must also be reported in the Off-Balance Sheet Commitments section (page 9) of the Liquidity Commitments and Sources page.

23. TOTAL LOANS & LEASES. Sum of lines 15 - 22. Loans to other credit unions should normally be excluded from Total Loans and reported as an investment.

24. Allowance for Loan & Lease Losses (ALLL). Amount set aside to absorb possible losses on loans and leases (excludes the Regular Reserve).

OTHER ASSETS

25. Foreclosed and Repossessed Assets. Report long-lived assets intended for sale and acquired through, or in lieu of foreclosure or repossession in the applicable category (i.e., Real Estate, Automobiles, or Other).

Initially record the assets at fair value (less costs to sell) at the date of foreclosure or repossession. This fair value (less cost to sell) becomes the “cost” of the foreclosed or repossessed asset. The amount, if any, by which the recorded amount of the loan exceeds the fair value (less costs to sell) of the asset is a loss which must be charged off to the ALLL at the time of the foreclosure or repossession.

After foreclosure or repossession, re-value the assets periodically to the lower of “carrying amount” or “fair value (less costs to sell)” through a separate valuation account. Changes in the valuation allowance are included in net expenses from foreclosed and repossessed assets. If a repossessed or foreclosed long-lived asset is not sold shortly after it is received, any declines in value after foreclosure and any gain or loss from the sale or disposition of the asset shall not be reported as a loan loss or recovery and shall not be debited or credited to the ALLL.

26. Land and Building. Land and building, less depreciation on building, if any.

27. Other Fixed Assets. All other fixed assets such as furniture and fixtures, and leasehold improvements, less related depreciation, if any. In addition, include *leased assets under capital lease* (credit union is lessee), less accumulated depreciation, if any. In this situation, your credit union is leasing assets and granted a lease from an outside entity.

28. NCUA Share Insurance Capitalization Deposit (NCUSIF). Enter the amount of the National Credit Union Share Insurance Fund deposit.

29. Other Assets. Report accrued interest on loans and accrued interest on investments separately as applicable. All other assets include prepaid expenses, accounts receivable, and loans to and investments in CUSOs, and any other assets not previously included. Also, report any private insurance capitalization deposit here as well as any investments purchased and identified to fund deferred compensation agreement obligations. If this amount includes loans or investments to CUSOs, you must also complete **Schedule C - CUSO Information** on page 16.

- **NOTE:** If your credit union wholly owns the CUSO or owns the majority of the CUSO (controlling interest), the CUSO should not be reported as an investment. Rather, the CUSO's books and records should be consolidated with your credit union's books and records in accordance with generally accepted accounting principles. Complete **Schedule C - CUSO Information** on page 16 regardless of the ownership interest.

30. TOTAL ASSETS. Sum of all assets. This must also equal the sum of LIABILITIES, SHARES, AND EQUITY (line 27 on page 4).

31. Loans Granted Year-to-Date. Report the number and dollar amount of loans granted year-to-date. Include all loans of all types granted including real estate loans sold on the secondary market. Count each line of credit as a single loan granted if one or more advances were made on that line year-to-date. For all other loans, report each new loan or refinanced loan as a loan granted. The dollar amount should include all new advances and all balances which were refinanced. Report the number and the portion (amount) of Participation Loans participated in or retained by the credit union.

STATEMENT OF FINANCIAL CONDITION
LIABILITIES, SHARES AND EQUITY
(NCUA FORM 5300 - PAGE 3)

SHARES/DEPOSITS

- **Dividend/Interest Rates:** Report the rate paid on these credit union share accounts as of the last day of the reporting period. Input the actual rate (i.e. 6.5% = 6.5) except in situations where more than one rate applies. In this instance, use the most common rate according to the dollar volume of business. Report the rate even if the share program is no longer offered as long as the share program has outstanding member deposits as of the reporting date.
- **Deposit Account Sweeps Affecting Transaction and Non-transaction Accounts:** In an effort to reduce their reserve requirements, some credit unions have established sweep arrangements that involve transfers of member deposits between two sub-accounts. In a typical arrangement, a credit union creates a master account and two sub-accounts: a transaction sub-account (commonly a share draft account) which is subject to Regulation D reserve requirements, and a non-transaction sub-account (commonly a money market account) which is not subject to reserve requirements. Depending upon the balances in the two sub-accounts on a particular day, the credit union shifts funds from the transaction sub-account to the non-transaction sub-account or vice versa. The Call Report should reflect the position of the swept funds at the end of the reporting period, and should match reporting on the Federal Reserve form FR 2900.

- Credit Unions must meet the following two key criteria to have a valid retail sweep program:
 1. The depository institution must establish by agreement with its transaction account customer two legally separate accounts: a transaction account (share draft account) and a nontransaction account (usually regular shares or a money market account).
 2. The swept funds must actually be moved from the customer's transaction account to the customer's regular shares or money market account on the official books and records on the official books and records of the depository credit union as of the close of business on the day(s) where the depository credit union intends to report the funds in question as regular shares or money market accounts and not transaction accounts, and vice versa.
- When a depository credit union intends to establish a retail sweep program with respect to new transaction account customers, the depository credit union must ensure that its member account agreements provide for the existence of two distinct accounts (a transaction account and a regular shares or money market account) rather than a single (transaction) account.
- Regardless of the structure of the credit union's official books and records, both the member-account level records and the aggregate-level records must reflect the actual movement of funds between the accounts (if any) for each reporting date, so that the manner in which the funds are reported on any given reporting date (transaction or regular shares/money market account) corresponds to where the funds are located (transaction or regular shares/money market account).
- Note that simply establishing a legal existence of two sub-accounts, without actually moving funds between sub-accounts accordingly, is not sufficient to report the relevant amounts as having been swept. Also, if a non-transaction (regular share) sub-account reaches the six withdrawal limit in the month or statement cycle, the entire remaining balance of the regular share sub-account must be shifted back to the transaction (share draft) account.
- The maintenance of such records or systems by a third party, such as a service provider, may raise questions as to whether those records or systems are subject to prudent managerial oversight and control. A valid retail sweep program may not exist solely in records or on systems that do not constitute official books and records of the depository credit union and that are not used for any purpose other than generating "reclassified; deposit reports.

9. Share Drafts. Report the rate, number and dollar amount of credit union share drafts. Overdraft balances should be reported on page 2, line item 16, All Other Unsecured Loans/Lines of Credit.

10. Regular Shares. Report the rate, number and dollar amount of credit union regular shares, including Christmas, vacation and other club accounts.

18. Accounts Held by Member Government Depositors. The accounts are insured up to the standard maximum share insurance amount (SMSIA). Government Depositors are eligible for are regular shares, share drafts, and share certificates. These accounts are still insured up to \$100,000 per individual account. Government Depositors are eligible for are regular shares, share drafts, and share certificates. These accounts are still insured up to \$100,000 per individual account. Any shares of an employee benefit plan in an insured credit union shall be insured on a "pass-through" basis, in the amount of up to the SMSIA for the non-contingent interest of each plan participant, in accordance with Section 745.9-2 of NCUA's Rules and Regulations. An insured credit union that is not "well

capitalized” or “adequately capitalized”, as those terms are defined in Section 1787(k)(4) of NCUA’s Federal Credit Union Act may not accept employee benefit plan deposits. Employee benefit plans for member shares and deposits may consist of Keogh accounts established by an employer as part of an employee benefit plan. However, these accounts are insured up to only \$100,000 per account.

21. Employee Benefit Nonmember Shares and Deposits. The same insurance coverage and legal restrictions apply to retirement and other employee benefit plan accounts for nonmember shares as stated above for member shares. Employee benefit plans for nonmember shares and deposits may consist of Keogh accounts established by an employer as part of an employee benefit plan. However, these accounts are insured up to only \$100,000 per nonmember.

22. 529 Plan Member Deposits. Funds owned by a principal and deposited in one or more accounts in the name or names of agents or nominees shall be added to any individual account of the principal and insured up to \$100,000 in the aggregate for each primary account holder as outlined in Section 745.3 of NCUA’s Rules and Regulations. Deposits are restricted to regular shares, money market shares, or share certificates.

23. Non-dollar Denominated Shares and Deposits. An insured credit union may accept shares denominated in a foreign currency. Shares denominated in a foreign currency will be insured in accordance with this part to the same extent as shares denominated in U.S. dollars. Insurance for shares denominated in foreign currency will be determined and paid in the amount of United States dollars that is equivalent in value to the amount of the shares denominated in the foreign currency as of close of business on the date of default of the insured credit union. The exchange rates to be used for such conversions are the 12:00 PM rates (the noon buying rates for cable transfers) quoted for major currencies by the Federal Reserve Bank of New York on the date of default of the insured credit union, unless the share agreement provides that some other widely recognized exchange rates are to be used for all purposes under that agreement. The credit unions will also have to list these non-dollar denominated shares and deposits in U.S. dollars for the Call Report. The 12:00 PM Federal Reserve Exchange rates should be used as well on the last working day of the quarter-end.

24. Health Savings Accounts. Section 724.1 of the NCUA Rules and Regulations permits Federal credit unions to act as trustees and custodians of certain tax-advantaged savings plans. A federal credit union is authorized to act as trustee or custodian, and may receive reasonable compensation for so acting, under any written trust instrument or custodial agreement created or organized in the United States and forming part of a tax-advantaged savings plan which qualifies for specific tax treatment for its members or groups of its members, provided the funds are invested in share accounts or share certificate accounts of the Federal Credit Union. These services may include acting as a trustee or custodian for health savings accounts. Funds owned by each member shall be added to any other regular share and insured up to \$100,000 in the aggregate for each primary account holder as outlined in Section 745.3 of NCUA’s Rules and Regulations.

25. Dollar Amount of Share Certificates equal to or greater \$100,000(Excluding brokered share certificates participated out by the broker in shares of less than \$100,000). This

MISCELLANEOUS INFORMATION
(NCUA FORM 5300 - PAGE 6)

1. Most Recent Audit. Select the number which corresponds to the best description of the last annual audit performed of your credit union's records. Please see NCUA Rules and Regulations §715 for further information regarding audit classification. You must provide the effective date of this audit using a MM/YYYY format (i.e., 12/2001). The effective date is the end of the period covered by the audit, not the date the audit work was completed. **A state licensed person** refers to a certified public accountant or public accountant who is licensed by the State or jurisdiction where the credit union is principally located to perform accounting or auditing services for that credit union. The following explanations are provided for guidance:

- 1= **Financial statement audit** (also known as an "opinion audit") refers to an audit of the financial statements in accordance with GAAS by an independent person who is licensed by the appropriate State or jurisdiction. The objective of a financial statement audit is to express an opinion as to whether those financial statements of the credit union taken as a whole present fairly, in all material respects, the financial position and the results of its operations and its cash flows in conformity with GAAP, as defined herein, or regulatory accounting practices.
- 2= **Balance sheet audit** refers to the examination of a credit union's assets, liabilities, and equity under GAAS by an independent public accountant for the purpose of opining on the fairness of the presentation on the balance sheet. The opinion under this type of engagement would not address the fairness of the presentation of the credit union's income statement, statement of changes in equity (including comprehensive income), or statement of cash flows.
- 3= **Examinations of Internal Control over Call Reporting** refers to an engagement in which an independent, licensed, certified public accountant or public accountant, consistent with attestation standards, examines and reports on management's written assertions concerning the effectiveness of its internal control over financial reporting in its most recently filed semiannual or year-end Call Report, with a concentration in high risk areas.
- 4= **Supervisory Committee audit performed by state licensed persons** refers to an engagement in accordance with the procedures prescribed in NCUA's Supervisory Committee Guide performed by certified public accountant, public accountant, and other state licensed persons.
- 5= **Supervisory Committee audit performed by other external auditors** refers to an engagement in accordance with the procedures prescribed in NCUA's Supervisory Committee Guide performed by the league auditor, credit union auditor consultant, retired financial institutions examiner, and other qualified but not State-licensed persons. Qualified persons who are not State-licensed cannot provide assurance services under this subsection.
- 6= **Supervisory Committee audit performed by supervisory committee or designated staff** refers to an engagement in accordance with the procedures prescribed in NCUA's Supervisory Committee Guide performed by the supervisory committee or its internal auditor.

DELINQUENT LOANS BY COLLATERAL TYPE.

1.-5. Amount of Delinquent Loans by Collateral Type. Report the total outstanding loan balance of **all** delinquent loans and leases by categories. Include in line 2 all delinquent loans for loans reported on page 2, lines 16, 17, 18 and 22. (e.g. all other consumer loans, member business loans not secured by real estate). All delinquent loans and leases include loans and leases reported by the credit union and serviced by outside processors (e.g., real estate, student loans, etc.).

- Do not include either:
 - 1) loans already written down to fair value (difference charged-off against ALLL) through a "decision to sell" and/or otherwise transferred to a "loans held for sale" (LHFS) classification; or
 - 2) loans that the credit union has already written down to the fair value (difference charged-off against ALLL) of the collateral (less costs to sell), e.g., collateral (including automobiles, equipment, boats, and similar property) transferred to Foreclosed and Repossessed Assets (See instructions for Foreclosed and Repossessed Assets on Page 13).

- Report troubled debt restructured (TDR) loans (defined in GAAP) as delinquent consistent with original loan contract terms until the borrower/member has demonstrated an ability to make timely and consecutive monthly payments over a six-month period consistent with restructured terms. Likewise, such loans may not be returned to full accrual status until the six-month consecutive payment requirement is met.

- **Note:** Not all restructured debt meets the definition of TDR. TDR loans are loans whose terms have been modified because the credit union, *for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the member debtor that it would not otherwise consider*, providing for a reduction of either interest or principal. This concession either stems from an agreement between the credit union and the member debtor or is imposed by law or a court. A loan extended or renewed at a stated interest rate equal to the current interest rate for new debt with similar risk is not considered a TDR loan.

For this item, “construction” includes not only construction of new structures, but also additions or alterations to the existing structures and the demolition of existing structures to make way for new structures. INFORMATION SYSTEMS & TECHNOLOGY

(NCUA FORM 5300 - PAGE 10)

1. System for Share and Loan Records. Select the number which corresponds to the best description of the system your credit union uses to maintain its share and loan records:

- 1= **Manual System (No Automation).** Manually (e.g. hand posting) post and track share and loan records.

- 2= **Vendor Supplied In-House System.** Vendor provides, and maintains, the software program(s) required to track member data. This type of product is also called "Turnkey" and in many cases is a complete accounting package (share, loan, general ledger, subsidiaries, teller operations, cash operations, etc.). In most cases, the credit union will install and maintain the hardware to run the software at its office(s). The vendor generally maintains control over software programming and provides updates, patches, fixes, and new releases on a regular or predetermined basis. In some cases, clients may request the vendor to customize the software for their particular needs.

- 3= **Vendor Online Service Bureau.** Hardware and software systems reside at the vendor's location with the exception of those systems a credit union requires in order to access and transmit data to the vendor. Most, if not all, data processing occurs at the vendor's site. Service bureau vendors generally provide reports (paper, electronic, microfiche, or other) on a regular basis. Connection is made to a service bureau through dial-up connections, private lines, the Internet, frame relay, or other WAN services. The service provided may be real-time (transaction post upon data entry) or batch processing (data is accumulated throughout a predetermined time period and then transmitted to the vendor for processing at predetermined intervals).

- 4= **CU Developed In-House System.** The credit union developed, and generally maintains, the software onsite. The credit union has responsibility for the hardware and software systems. Generally, in-house developed credit unions will maintain a data center (data processing department) staffed with hardware and software personnel.

- 5= **Other.** Any other system that does not fit into one of the previous categories. Note: Most systems will fit into one of the categories.

PCA NET WORTH CALCULATION WORKSHEET
(NCUA FORM 5300 - PAGE 11)

No credit union is required to provide input on this page unless the credit union intends to use an optional Total Assets Election to compute its new worth ratio.

At its discretion, a credit union may elect a measure of total assets for its net worth denominator other than quarter-end total assets. If the credit union decides to use one of these Total Assets Elections it must input this amount in either line 9, 10 or 11 as appropriate. Otherwise, the PCA Net Worth Calculation Worksheet will compute the credit union's net worth ratio and resulting net worth classification using quarter-end total assets from line 8. (Please see NCUA Rules and Regulations §702.2 (k) for further information regarding total assets.)

All Credit Unions. This worksheet provides a means of measuring the net worth ratio. All credit unions must determine their net worth category at the end of each calendar quarter by measuring their net worth ratio. (See NCUA Rules and Regulations §702.101)

Credit unions with Assets Greater than \$10,000,000. In addition to measuring a net worth ratio, credit unions with assets greater than \$10 million must also review their Risk Based Net Worth (RBNW) Calculation Requirement.

Line 13a of the PCA Net Worth Calculation Worksheet provides the RBNW Requirement based upon the Standard Components.

Line 13b of the PCA Net Worth Calculation Worksheet provides the RBNW Requirement based upon the Alternative Components of Section 702.107 of the NCUA Rules and Regulations.

Manual Call Report Filers. Manual Call Report filers may leave the PCA Net Worth Calculation Worksheet blank, use it to select an optional total assets election, or use it as a manual net worth calculation worksheet. NCUA will compute the Net Worth Ratio and RBNW Requirement Calculation for manual Call Report filers with the information entered on the Call Report.

STANDARD COMPONENTS OF RISK BASED NET WORTH (RBNW)
REQUIREMENT

(NCUA FORM 5300 - PAGE 12)

No credit union is required to provide input on this page. NCUA provides the Standard Components of Risk Based Net Worth (RBNW) Requirement worksheet to demonstrate the underlying source information of the RBNW requirement. NCUA provides this for your information only.

Credit unions with Assets Greater than \$10,000,000. In addition to measuring a net worth ratio, credit unions with assets greater than \$10 million must also review their Risk Based Net Worth (RBNW) Calculation Requirement. Line 13 of the PCA Net Worth Calculation Worksheet provides the RBNW Requirement based upon the standard components.

Manual Call Report Filers. NCUA will compute the RBNW Requirement Calculation for manual Call Report filers with the information entered on previous pages of the Call Report.

(NCUA FORM 5300 - PAGE 13)

SECTION 1 – INDIRECT AND PARTICIPATION LOANS

INDIRECT LOANS

An indirect loan is a loan made by a credit union through a vendor or third party vendor that facilitates the financing arrangement. The credit union is responsible for making the underwriting decision and the loan is immediately assigned to the credit union after being made.

1a. Indirect Loans – Point of Sale Arrangement. Report the number and dollar amount of outstanding indirect loans made by the credit union by contracting directly with a merchant. In this case, the credit union partners with a merchant to originate loans at the point of sale. A direct agreement between an auto dealer and a credit union is an example of an indirect loan made at the point of sale.

1b. Indirect Loans – Outsourced Lending Relationship. Report the number and dollar amount of outstanding indirect loans made by the credit union by contracting with a third party vendor other than the merchant providing the product. In this case, the credit union does not directly contract with the merchant. The third party vendor receives compensation for facilitating loan origination.

SCHEDULE A – SPECIALIZED LENDING
(NCUA FORM 5300 - PAGE 14)

SECTION 3 – BUSINESS LOANS

This report should include information concerning business loans as defined by Part 723 of the NCUA Rules and Regulations. A member business loan generally includes any loan, line of credit, or letter of credit (including unfunded commitments) where the borrower uses the proceeds for commercial, corporate or other business investment property or venture, or agricultural purposes. However, loans which meet one or more of the following exceptions are not member business loans:

- A loan fully secured by a lien on a 1- to 4-family dwelling that is the member’s primary residence;
- A loan fully secured by shares in the credit union or deposits in other financial institutions;
- Loan(s) to a member or an associated member which, when the net member business loan balances are added together, are equal to less than \$50,000;
- A loan where a federal or state agency (or its political subdivision) fully insures repayment, fully guarantees repayment, or provides an advance commitment to purchase in full; or
- Loans to credit unions and credit union service organizations.

For purposes of Part 723, a loan purchase or participation interest in a nonmember business loan must meet the member business loan requirements as if made to a member. These loans do not count against the credit union's regulatory aggregate member business loan limit unless the borrower is also a member. However, the credit union must receive approval from the NCUA regional director before the total of the credit union's net member business loan balances and the nonmember loan balances exceed the lesser of 1.75 times the credit union's net worth or 12.25% of total assets.

Net Member Business Loan Balance (NMBLB). Means the outstanding loan balance plus any unfunded commitments, reduced by any portion of the loan that is secured by shares in the credit union, or by shares or deposits in other financial institutions, or by a lien on the member's primary residence, or insured or guaranteed by any agency of the federal government, a state or any political subdivision of such state, or subject to an advance commitment to purchase by any agency of the federal government, a state or any political subdivision of such state, or sold as a participation interest without recourse and qualifying for sales accounting under generally accepted accounting principles. The NMBLB applies to both member and nonmember loans and participations.

Examples for reporting Member Business Loans on line 23-24 and lines 32-341 of this schedule.

If a member has \$35,000 in business purpose loans and the credit union grants this member an additional \$40,000 in business purpose loans, the credit union should report the additional \$40,000 on lines 23-24 as a Member Business Loan. If the credit union has total assets exceeding \$10,000,000, the credit union would also report the \$40,000 on lines 32-34 for the purpose of calculating the Risk Based Net Worth requirement. Also, in this case, the credit union must comply with all of the requirements of Part 723 of NCUA's Rules and Regulations in making this loan because the loan caused the aggregate amount of business purpose loans to the member to exceed the \$50,000 threshold in RR 723.1(b)(3). (Federal Register / Vol. 68, No. 190)

If, in the case above, the member subsequently pays down the \$35,000 business purpose loan to \$15,000 and the \$40,000 business loan to \$34,000, making the aggregate total business purpose loans \$49,000, the credit union is not required to list any of these loans on lines 23-24 as Member Business Loans since the new aggregate loan total is \$49,000 and is now below the \$50,000 threshold in Section 723.1(b)(3) of NCUA's Rules and Regulations. However, if the credit union has assets exceeding \$10,000,000, the credit union is required to report the \$34,000 member business purpose loan on lines 32-34 for the purpose of calculating the Risk Based Net Worth (RBNW). For RBNW reporting requirements, the outstanding loan balance of any loan and participation that **ever** met the definition of a member business loan (e.g., at origination or at time of purchase) must be reported on lines 32-34 in the Risked Based Net Worth section for credit unions with assets greater than \$10 million.

23. Member Business Loans. Report the total count and NMBLB amount of any loan or participation to a member.

- For each type of member business loan listed, provide the number of loans outstanding, the aggregate NMBLB amount of loans outstanding, the number of loans granted or purchased year-to-date, and the NMBLB amount of loans granted or purchased year-to-date. For participation loans, report the NMBLB amount of the portion that remains on the credit union's balance sheet.
- Include any unfunded commitments with these reported figures unless otherwise noted in the instructions.
- For loans held for sale, report only the number of loans granted or purchased year-to-date and the aggregate NMBLB amount of loans granted or purchased year-to-date.

24. Purchased business loans or participation interests to nonmembers. Report the total count and NMBLB amount resulting from a purchase of any nonmember business loan or participation interest qualifying for sales accounting.

This includes land or structure loans made with the intent of conversion into an income producing property such as residential housing for rental or sale, commercial or industrial use, or similar use. Construction or development loan includes a financing arrangement for the major renovation or development of property already owned by the borrower that will convert the property to income producing property or convert the use of income producing property to a different use from its use before the major renovation or development or is a major expansion of its current use. A construction or development loan does not include loans to finance maintenance, repairs, or improvements to an existing income producing property that do not change its use. **Exclude** any loan made to finance the construction of a single-family residence if a prospective homeowner has contracted to purchase the property or a loan to finance the construction of one single-family residence per member-borrower or group of associated member-borrowers, irrespective of the existence of a contractual commitment from a prospective homeowner to purchase the property.

RISK BASED NET WORTH (RBNW) -credit unions with assets greater than \$10,000,000

For purposes of Part 702 (RBNW), the amount reported in this section differs from the calculated NMBLB reported in lines 23 and 24 and must include the portion of loan balances secured by the following:

- By shares in the credit union, or by shares or deposits in other financial institutions;
- By a lien on the member's primary residence;
- Insured or guaranteed by any agency of the federal government, a state or any political subdivision of such state; or
- Subject to an advance commitment to purchase by any agency of the federal government, a state or any political subdivision of such state.

Note: Loans that are fully guaranteed by a federal or state agency are not considered member business loans, and would not be reported on lines 23-24. However, if the loan is partially guaranteed (such as SBA loans), the portion that is partially guaranteed is excluded from the regulatory net business loan balance but included for RBNW purposes. The loan must meet the regulatory \$50,000 threshold before it is reported as a member business loan, or reported for RBNW purposes. Once a loan is deemed to be a member business loan, the outstanding balance of the member business loan (including any guaranteed portions) must be risk-weighted until the loan is paid off. (NCUA RR Part 702).

For purposes of Part 702 (RBNW), purchased business loans or participations to nonmembers are treated the same as a member business loan.

32. Loans and participation interests qualifying for RBNW.

Report the outstanding loan balances of any loan and participation that meets the definition of a member business loan at origination or at time of purchase.

Include member business loans transferred with contractual recourse. These are loans or portions of loans which do not qualify for sales accounting under generally accepted accounting principles. Do not include unfunded commitments. Report unfunded commitments on line 33.

33. Unfunded commitments for business loans and participation interests qualifying for RBNW. Report the unfunded portions of commitments to extend credit for any loan reported in line 32.

34. Amount of Real Estate Loans included in line 15 also reported as loans and participation interests qualifying for RBNW on line 32 above. Report the outstanding balance of any loan contained in line 15 of page 13 which has ever qualified as a business loan regardless of whether the loan is presently classified as a business loan.

2. ACCOUNTING ISSUES

- A. **If your credit union wholly-owns the CUSO or owns a “controlling financial interest” (assumed at ownership of 50% or more of the voting stock),** the CUSO’s books and records should be consolidated with your credit union’s books and records (as if the two were one entity) for reporting on pages 1, 2, 3, 4, and 5 of the call report.
- B. **If your credit union has “ability to exert significant influence” over operations of the CUSO (assumed at ownership of 20% or more but less than 50% of the voting stock of the CUSO),** the credit union’s investment in the CUSO should be reflected in its books and records using the equity method of accounting.
- C. **If your credit union owns less than 20% of the voting stock of the CUSO,** the credit union should account for its CUSO investment using the cost method of accounting.

3. INSTRUCTIONS FOR SCHEDULE COLUMN HEADINGS

- A. **Name of CUSO – (Accounts 830A thru T).** Report the full/legal name of the CUSO.
- B. **Value of Investment in CUSO (Accounts 831A through T).** Report the amount that represents the unimpaired value of the credit union’s CUSO investment as measured under generally accepted accounting principles on an unconsolidated basis. The amount reported should be measured either under:
- the cost method (ownership of less than 20% voting common stock), or
 - the equity method (ownership of 20% or more voting common stock).
- C. **Amount Loaned to CUSO (Accounts 832A through T).** Report the amount of outstanding loan balance(s), available line(s) of credit from the credit union, and/or guarantee(s) the credit union has made to or on behalf of the CUSO.
- D. **Ownership of CUSO (Accounts 833A through T).** Answer either YES or NO as to the ownership question following the guidance provided in the footnote labeled by the double asterisk.

E. **Type of Service Provided (Accounts 834A through T).** Report the predominate service offered by the CUSO following the guidance provided in the footnote labeled by the triple asterisk. A non-exclusive and non-exhaustive list of specific permissible services is illustrated below under (a) through (r):

- (a) *Checking and currency services:* (1) Check cashing; (2) Coin and currency services; and (3) Money order, savings bonds, travelers' checks, and purchase and sale of U.S. Mint commemorative coins services.

- (r) *CUSO investments in non-CUSO service providers:* In connection with providing a permissible service, a CUSO may invest in a non-CUSO service provider. The amount of the CUSO's investment is limited to the amount necessary to participate in the service provider, or a greater amount if necessary to receive a reduced price for goods or services.

F. **Accounting for CUSO Investment (Accounts 837A through T).** Report how your investment in the CUSO is accounted for on the credit union's financial statements following the guidance provided in the footnote labeled by the quadruple asterisk. Also, refer to Section 2 above (Accounting Issues).

G. **Aggregate Cash Outlay (Accounts 836A through T).** Report the aggregate cash outlay invested in the CUSO that is not impaired by sustained losses unrecoverable in the reasonable near term. "Aggregate cash outlay" means the aggregate amount of cash paid out by the credit union to acquire an ownership interest in the CUSO. Credit unions required under GAAP to report their investment in a CUSO on the equity basis are not penalized for exceeding their "investment in and loans to" CUSO limit as a result of the CUSO operating profitably and the value of the investment increasing. Unimpaired aggregate cash outlay is the means by which the regulatory limitation is measured.
