We invite readers to send in any questions you may have so that we can provide and share answers in future newsletters providing relevant information to Children's Services and the provider community.

B. Is there a current policy that mandates that individuals must speak minimal English in order to be a foster parent?

There is nothing in State regulations regarding approval or certification of foster parents that imposes an English proficiency requirement. In fact there is a regulation [18 NYCRR 303.1(a)] that states:

"No social services district or official shall establish or apply any policy or practice which would have the effect of discriminating against an individual because of race, color, national origin, age, sex, religion or handicap. This prohibition shall apply to all aid, care, services, benefits or privileges provided directly, or indirectly by other agencies, organizations or institutions participating under contractual or other arrangements".

C. Is ACS approval or the approval of the birth parents needed for a foster family to take a foster child on an out-of-state family trip/vacation?

As of April 26, 1999, ACS approval is no longer necessary for a foster family to take a foster child on an out-of-state family trip or vacation. Children in care also should be permitted to travel with their foster families on vacations, including out-of-state vacations, or on school outings – just as they would were they not in foster care. For lengthy in state vacations away from NYC, and for all out-of-state vacations, the foster care agency is empowered to make the decision that the trip is in the child's best interest. Of course, the birth parents' approval and support must be sought as well. In those situations where the parents will not approve, but the agency believes the child should go, the approval by an appropriate representative of the foster agency's management should be sought and documented. Every effort should be made to make up any birth family visits that are missed.
