

Staff Employee Performance Evaluation & Development Guidelines

The University of South Alabama staff performance evaluations will be completed in accordance with the following guidelines:

Each Vice President, Dean, Director, Department Head, and Principal Investigator should ensure that a performance evaluation is completed for each staff employee within his/her area of responsibility **annually**.

Performance evaluations are not intended to replace ongoing communication and feedback regarding expectations of job performance between supervisors and employees.

Disciplinary actions that occur during the current evaluation period should be taken into consideration when rating performance evaluations and when determining merit increases.

The performance evaluation process is not intended to replace any disciplinary action process.

New staff employees are to be evaluated immediately upon completion of the probationary period. Regular employees who have transferred to another position do not serve a second probationary period.

The original, signed copy should be sent to the Human Resources Department, with a copy given to the employee and a copy maintained in the department.

Supervisors/department heads may conduct an employee's performance evaluation at any time during the year as deemed appropriate by the supervisor/department head.

Purpose of Performance Evaluations

The performance evaluation and development system is designed to:

- ☒ Assess levels of goal achievements over the period of time being evaluated;
- ☒ Assess levels of performance over the period of time being evaluated;
- ☒ Assist employee and supervisor in identifying future performance goals and objectives;
- ☒ Encourage and improve communication between employee and supervisor;
- ☒ Serve as a basis for professional development discussions and opportunities.

Timing of Performance Evaluations

For Employees at the Hospitals:

Regular employees are to be evaluated at least once per year in accordance with the annual May and October group memorandums from Hospital Administration and Human Resources.

For Employees at all other University locations:

Regular staff employees who were employed on or before March 31 are to be evaluated. We strongly suggest that you conduct a performance evaluation for regular staff employees hired after April 1.

Performance evaluations should cover the time period of June 15 of the previous year through June 14 of the current year (or from the date of employment if less than 12 months).

Performance evaluations will be discussed annually with the employee during the time period of June 15 to August 15 of the current year.

The original, signed copy of the performance evaluation is due in Human Resources no later than August 15, annually (evaluations cannot be sent electronically to HR at this time).

Process for Conducting Performance Evaluations – The process for conducting the staff performance evaluations consists of the following steps:

1. Gather Pertinent Data for the Performance Evaluation Discussion – The supervisor should review the applicable job description(s) [If the employee has held 2 positions in the evaluation year, review both applicable job descriptions], the employee's goals/objectives from the previous evaluation, and other data pertinent to performance and training (i.e., disciplinary actions, commendations, etc.). These items may be reviewed and discussed during the performance evaluation discussion.

2. Obtain the Appropriate Signatures – Upon completion of the evaluation form, as appropriate, the supervisor should discuss the evaluation with the department head and the evaluation should be signed and dated by the supervisor and department head at that time.

3. Schedule a Performance Evaluation Discussion with the Employee – The supervisor should schedule the performance evaluation discussion with the employee. Adequate time should be allowed for preparation, performance review, and the feedback session. Last-minute evaluations may result in ineffective and incomplete reviews.

4. Conduct the Performance Evaluation Discussion – The following topics should be discussed during the performance evaluation meeting, though the supervisor or employee may decide to discuss other topics as well:

- a. Review of goals agreed upon at the previous performance evaluation discussion;
- b. Review of developmental activities that have occurred since the previous performance discussion;
- c. Discussion of current (within this evaluation period) evaluation form;
- d. Planning for goals and objectives for the next evaluation period.

5. Evaluations with Number Ratings OTHER than 3 Require Comments. Ratings BELOW 3 are to be addressed in the Goals & Objectives section. Evaluations with any number ratings below 3 will require a **full re-evaluation** of all factors for the employee in 90 days. **NOTE: Supervisors are to provide goals and objectives for evaluation factor number ratings below 3 in the Goals and Objectives section.**

6. Obtain the Employee's Signature – **NOTE: The employee's signature does not indicate agreement with the evaluation; it only acknowledges that the individual has been given an evaluation.**

7. File the Paperwork – Copies of the documents should be made for the supervisor (to be kept in the departmental employee file) and for the employee.

8. Records for the Human Resources Department – The **original** Staff Performance Evaluation Forms are to be sent to the Human Resources Department. Forms are to be on file with the Human Resources Department before annual salary increases are processed.
