Teaching Outlook

Write a brief statement indicating the reasons you are interested in the teaching profession. Explain why you entered the field of teaching, your aspirations, goals, etc., and what you hope to learn during your student teaching experience.

What do you consider to be your strengths as a candidate for student teaching?

List any specific teaching strategies for which you would like special assistance during your student teaching (i.e. planning, organizing, classroom management, use of audio-visual equipment, questioning techniques, etc.)

The University of Toledo requests this information for the purpose of student teaching placements through the Judith Herb College of Education. The information will be shared with school administrators and teachers with whom we seek a placement for you.
