### Instructions:

Completing this form will help you determine your overall costs while you are studying abroad. It is important that you estimate all your costs as realistically as possible. Note: If you change the duration of your program (stay longer or return sooner than originally anticipated), you must notify Student Financial Resources within three working days and submit a new confirmed Student Budget that reflects the new costs. If attending two programs (i.e. Australia fall, New Zealand spring), submit separate budgets for each program. If you have questions or need help completing your budget, contact your host institution or program coordinator.

**TIPS ON COMPLETING YOUR STUDENT BUDGET:**

- Include receipt of airfare
- Include copies of all sources of information for dollar amounts.
- Personal expenses may include items such as bus fare, postage, phone calls, toiletries, etc. These expenses vary depending on the country.
- Vacation travel cannot be included in your student budget, even though it is an important element in the educational experience.
- Refer to the Study Abroad Handbook for information concerning money exchanges or the advantage of using credit/debit cards.

I have received pre-approval of transferability of the credits annotated on the first page. I understand that the budget is an estimate, but it is a valid reflection of the costs that will be incurred.
