

Students who did not qualify as a Florida resident for tuition purposes at the time they began classes at Daytona State may use this form to request a reclassification.

INFORMATION FOR RECLASSIFICATION

Daytona State College, being a state-supported college, is required to verify the eligibility of students receiving the Florida resident tuition rate. The non-Florida resident tuition rate is approximately four times the resident tuition rate. Each applicant must complete a Residency Affidavit, which is part of the Admission application, prior to the first day of the term for which Florida residency for tuition purposes is sought. It is each student's **responsibility** to verify that he/she is a Florida resident. Even if you've always lived and attended school in the state of Florida, you will need to complete the Residency Affidavit and provide appropriate documentation so that Daytona State can certify your status.

To qualify for the Florida resident tuition rate, a student (or the parent or legal guardian of a dependent student) must have resided in Florida for at least one year immediately preceding the first day of classes of the term for which residency is being sought, be a U.S. Citizen, permanent resident alien or eligible legal alien, and meet all requirements outlined by Florida statutes. Students will be assumed to be non-Florida residents for tuition purposes until all required documents have been submitted to the Admissions Office.

Residency for tuition purposes is established during a 12 month period immediately preceding the first day of classes of the term for which reclassification is sought. Residence in Florida must be for the purposes of establishing a permanent home and not merely incident to enrollment at an institution of higher education. **Living in or attending school in Florida does not, itself, establish residency for tuition purposes.**

An individual who is initially classified as a nonresident for tuition purposes may become eligible for reclassification as a resident for tuition purposes only if that individual, or his or her parent if that individual is a dependent child, supports permanent residency in this state for 12 consecutive months. The individual, or his or her parent if that individual is a dependent child, must present documentation that substantiates residency in this state for the purpose of maintaining a bona fide domicile, rather than for the purpose of maintaining a mere temporary residence or abode incident to enrollment at an institution of higher education. The burden of proof rests with the student. Documents submitted must provide clear and convincing evidence that the claimant's 12 months of presence in Florida was for the purpose of establishing a permanent home in Florida.

A student who comes to Florida to enroll full-time in a Florida higher education institution as an out-of-state resident and continuously enrolls in a Florida institution will not normally meet the Florida residency requirement for in-state tuition regardless of the length of time enrolled.

Additional documentation may be required. Please contact the Office of Admissions for additional information.

Florida Residency Affidavit - Reclassification

Tuition for students who qualify as "Florida Residents" is less than tuition for non-Florida residents in many cases. The laws of Florida define residency status.

Do You Qualify for Residency?

A Florida resident for tuition purposes is a person (or if under age 24, the parent or legal guardian) who has established and maintained legal residence in Florida for at least twelve (12) months immediately preceding the first day of classes of the academic term for which the student enrolls. Residence during the 12-month qualifying period must be for the purpose of maintaining a bona fide domicile rather than maintaining a temporary residence incident to enrollment in an institution of higher education.
