

RONALD MCNAIR POST BACCALAUREATE ACHIEVEMENT PROGRAM
Research Project Proposal Form

Please type or print (you may also save a copy of this form and e-mail it to the address below).

Name of Principal Investigator

Box Number Phone Number

Title Department

Title of Research Project

Source of Funding if applicable:

*IRB Approved: Yes No (if no, please explain)

** All research projects that involve human subjects or records must be reviewed by the Institutional Review Board (IRB) at ETSU before research can commence. NOT having IRB approval at the time of this application doe NOT necessarily prohibit you from becoming a McNair mentor.*

Please provide a brief description of project (include names of other involved individuals and planned role of research intern. You may attach an additional page if necessary.)

I anticipate % of all duties on this project to be directly related to research skill development of the intern.

McNair interns will be available to serve in your lab or research setting September through May. Interns are expected to complete at least 180 hours of research related activities; however, the mentor does NOT have to provide direct supervision the entire time. Mentors may elect to allow their intern to complete research activities outside of the formal research setting.

New faculty mentors will be provided with an orientation to the McNair Program and the fully informed of mentorship guidelines prior to being assigned a student. The ETSU McNair Program is funded by the U.S. Department of Education and is subject to all imposed federal guidelines.

By signing this form, I understand that I am only expressing my interest in serving as a McNair Mentor. Further, I understand that my mentorship only becomes official after completion of a brief mentor orientation which will be provided by the McNair Program.
