The above named applicant is applying for admission to the Master of Social Work Program at Eastern Washington University. Your thoughtful reference is very important part of the applicant's file. Each applicant's file is evaluated by two faculty members; the applicant's academic preparation, personal statement and information from the applicant's three references are the major sources for the evaluation.

Successful completion of graduate social work education is based on the student's ability to pursue a demanding course of study and a high degree of personal responsibility and maturity, the capacity for critical self-examination, an interest in people, the capacity to take constructive actions, and a personal value system consonant with the social work profession. Please rate this applicant based on your knowledge of their current abilities.

**Applicants to the Advanced Standing Program have already earned a BASW degree, which covered foundation social work knowledge, theory and skills. Please comment on this candidate's readiness for entry directly into the advanced portion of the MSW graduate program.**

In advance, we thank you for your candid assessment of the applicant. We find that references that include an additional letter (to elaborate on this completed form) are very helpful in our evaluation process. Your additional comments may be made at the end of this form or by a separate letter. If you write a letter, include it with this completed form, and mail the document(s) to the Admission Office at the address shown at the bottom of the page.
