

FNP SAMPLE Full Time Two Year Plan of Study

Name: _____ Enter: _____ Graduate: _____

Year 1:

Fall Semester

- NUR 401 **Theoretical Foundations of Nursing and Health Care** 3 hrs Fall
Specific nursing theories and shared disciplines from other disciplines are examined.
- NUR 437 **Pathophysiologic Bases of Health Deviation** 3 hrs Fall
Focuses on the conceptual understanding of pathophysiologic processes and its application in clinical practice.
- NUR 431 **Diagnostic Reasoning for Advanced Nursing Practice** 3 hrs Fall
The diagnostic process, including skills of history- taking, target assessments, physical examination techniques, and SOAP documentation. Prerequisite NUR 401 or concurrent registration.
** 60 clinical hours required.*

Spring Semester

- NUR 407 **Scientific Inquiry and Research Design in Health Care** 3 hrs Spring
The skills of scientific investigation, analysis, evaluation and interpretation related to the conduct of nursing research. Pre-requisite: Graduate level statistics.
- NUR 433 **Pharmacotherapeutics for Advance Practice Nursing** 3 hrs Spring
Focuses on the management of drug therapy for clients across the life span. Prerequisite: NUR 437.
- NUR 471 **Family Nurse Practitioner I** 5 hrs Spring
Focuses on the specialized role of the FNP in preventive health and primary health care of populations across the life span. Includes practicum. Prerequisite: NUR 431 and 437; NUR 433 or concurrent registration
** 120 clinical hours required.*

Summer Semester

- NUR 473 **Family Nurse Practitioner II** 5 hrs Summer
Emphasizes the role of the FNP in family- centered, preventive health care of the child-rearing family. includes practicum. Prerequisite: NUR 471
** 120 clinical hours required.*

Year 2:

Fall Semester

NUR 405 **Epidemiology and Aggregate Based Health Promotion** 3 hrs Fall
Theoretical foundations, scientific principles, and research methodologies related to epidemiology with opportunities for practical application.

NUR 475 **Family Nurse Practitioner III** 7 hrs Fall
*Focuses on the role of the nurse practitioner in the management of complex problems of clients across the life span. Includes practicum. Prerequisite: NUR 473
* 180 clinical hours required.*

Spring Semester

NUR 403 **Professional Roles and Issues** 3 hrs Spring
Theories and concepts involving advanced nursing practice in contemporary nursing.

NUR 477 **Family Nurse Practitioner IV** 6 hrs Spring
*Studies issues involved in being an FNP. Includes clinical capstone preceptorship and synthesis project. Prerequisite: NUR 475.
* 240 clinical hours required.*

Program hours = 44.
