

Chemistry Concepts and Connections (C₃)

LaTECH'S CATALyST Professional Development Institute

Sponsored by the LSU Center for BioModular Multi-Scale Systems

July 18-29, 2005 on the LSU Campus

Louisiana High School Chemistry and Physical Science Teachers!

This Institute is for you! C₃ is a professional development program that will provide in-depth chemical content knowledge, a conceptual understanding of chemistry, and the skills to transfer that knowledge to your students and colleagues! In addition to a two-week Institute on the LSU campus, you will attend the Louisiana Science Teachers Association Institute, participate in an academic-year seminar and network via Blackboard!

You will also have the opportunity to participate in the [Bring Your Student to LSU](#) program sponsored by SAACS, *Student Affiliates of the American Chemical Society!* SAACS encourages you to bring a promising student with you to the Institute for 4 days during the second week of the program. Your student will participate in activities with C₃ as well as with LSU students and faculty July 26-29. Student lodging and meals will be provided!

You will receive a \$20 per hour stipend—total of \$1200!—and housing if you live outside of the region. Sandi Prejean and Stacy Thibodeaux are the presenters! Contact Brenda Nixon at the LSU Cain Center for STEM Literacy for more information [www.cain.lsu.edu; bnixon@lsu.edu; 225-578-4082; 225-205-2680].
