GRANTS • RESEARCH • TRAVEL • SCHOLARSHIPS

For additional information on any program announcement included in this issue, please call the contact office listed—or if you prefer—we will contact the office for you to obtain this information. For general information or technical assistance in planning, writing or submitting your application, please call the Institute for Public Service and Office of Sponsored Programs at (717) 477-1251.

This information is also available on our website at:

<http://webspace.ship.edu/ipssp/private/Opportunities.htm>

This website is restricted to use on campus.

A link to SPIN (Sponsored Programs Information Network)—a funding opportunities database for individual searches—is also available on this website.

**Institute for Public Service &
Office of Sponsored Programs**

Volume: 08/10

Date: August 12, 2010

1. Human Subjects Committee Chairperson

Dr. Jennifer Clements

Department of Social Work & Gerontology

Shippen Hall 335

Phone number: ext. 1633

The Application to Use Human Subjects in Research form is available on our website
www.ship.edu/~ipssp/forms

2. The Center for Faculty Excellence in Scholarship and Teaching (C-fest) website is
www.ship.edu/~cfest.

3. **Sabbatical** Support

Faculty members searching for funding to support **Sabbatical** leave activities should note the program announcements with the word **Fellowship(s)** or **Sabbatical(s)** highlighted. These announcements often list support for research activities, travel and stipends.

4. **Undergraduate** Student Research

Faculty members searching for funding to support research activities with students should note program announcements with the word **Undergraduate** bolded.

Grant Information Opportunities

SPIN Assistance

Faculty interested in learning more about the Sponsored Program Information Network (SPIN) should call Pam Bucher, ext. 1251, to schedule a tutorial session. She makes office visits!

SPIN is a database service designed to provide up-to-date information on current federal and non-federal grant- funding opportunity program announcements. Additional information about SPIN can be found on pages 6 and 7 of this month's *Opportunities*. To register for one of these workshops, please call Institute for Public Service & Office of Sponsored Programs 477-1251.

Grants.Gov Application Process

Grants.gov provides a unified electronic storefront for interactions between grant applicants and the Federal agencies that manage grant funds. There are 26 Federal grant-making agencies, including NIH, NEH and NSF, and more than 900 individual grant Programs that award over \$400 billion in grants each year. The grant community, including state, local and tribal governments, academia and research institutions, and not-for-profits, need only visit one website, **Grants.gov**. It provides access to annual grant funds available across the Federal government as well as providing:

- A single source for finding grant opportunities.
- A standardized manner of locating and learning more about funding opportunities.
- A single, secure and reliable source for applying for Federal grants online.
- A simplified grant application process with reduction of paperwork.
- A unified interface for all agencies to announce their grant opportunities, and for all grant applicants to find and apply for those opportunities.

NOTE

Grants.gov is both a search tool and electronic means of applying for federal grants. The Institute for Public Service (IPS) is registered as the Authorized Organizational Representative (AOR) for Shippensburg University. The IPS coordinates all grant application submissions made by University staff and faculty. We have successfully processed electronic submissions through NSF Fast Lane process. Our grant officer colleagues across the country with experience with the Grants.gov process have had various problems with application submissions. Utilizing the **Grants.gov** system will require that a fully executed application has to be ready for electronic submission at least **five** working days prior to the application deadline. Please contact this office, 202 Old Main, 477-1251, before you begin any applications through **Grants.gov** so that we may advise and assist you throughout the application process.

SHIPPENSBURG UNIVERSITY
INSTITUTE FOR PUBLIC SERVICE &
OFFICE OF SPONSORED PROGRAMS

To: Faculty

Re: Grant Applications

The staff of the Institute for Public Service is available to assist you as needed in all phases of application development and research administration, including: developing your project idea, choosing the funding agency, assisting with the project design, and processing your application. *We will help you . . .*

Develop the Idea. Many consider the idea the most important aspect of any project. At the Institute for Public Service, we will help you develop your idea into a workable project. The care with which this step is completed often determines whether the project will be funded.

Identify Potential Sources for funding through source searches, Program announcements, and through direct contact with agency personnel. Custom-tailored computer-assisted searches are available through the University's membership in the American Association of State Colleges and Universities (AASCU) Grant Resource Center.

Assist with Project Design. In order for your project to be successful, the project design must be carefully planned and executed.

Write the Application. The staff of the Institute will assist in editing and reviewing the application. Also, we will assist you with all forms required by the funding agency.

Design the Budget. The staff of the Institute will provide technical assistance in preparing your project budget, and in identifying appropriate funding levels for budget line items to enhance your project and make it competitive during the review process.

Understand Project Guidelines. Each funding agency has specific guidelines concerning application and program procedures. The Institute staff will assist you in reviewing and interpreting these guidelines.

Obtain Necessary Program Materials and forms for completion of the grant application.

Communicate with Funding Agencies, answer questions and when necessary, negotiate the budget.

Assist You in Implementing the project upon approval. All applications prepared by faculty and staff requesting support, real or in-kind, for a project from an external funding agency must be reviewed by the Senior Staff of the university before it is sent off-campus. This review begins at the department and college level and progresses through the Provost to the President. After receiving an

award letter and verification that your application has been funded, the following steps are necessary to start your project:

1. Contact the Director of the Institute for Public Service & Office of Sponsored Programs and arrange a meeting to discuss the administration of your grant. The Institute staff is prepared to assist and advise you in implementing the grant.
2. Attend the “Grant Kick Off” meeting arranged for you by the grant accounting office. This meeting (which includes staff from the following offices: Grant Accounting, Purchasing, Personnel, and Travel) is designed to review university policies and procedures necessary for the successful implementation of the grant.

Please observe the following:

- Do:** Obtain approval through the university’s purchasing system for all purchases; including supplies, equipment, and services.
- Don’t:** Make any purchases that are to be charged to the grant prior to the official start date of the grant.
- Do:** Get prior approval through the university’s contracting office for the services of all consultants. Consultant contracts must be in place prior to the start of any work.
- Don’t:** Sign any document or make any verbal agreement that would obligate the university to perform any service or expend any funds.
- Do:** Submit travel orders in advance to comply with all university and system travel regulations. All foreign travel requires pre-approval from both the funding agency and the University. The use of a U.S. flag carrier is required on all foreign travel conducted with funds under a Federal grant.
- Don’t:** Conduct any travel for which you would want to receive reimbursement from grant funds prior to the date of the official award letter.

Any questions may be directed to the Institute for Public Service & Office of Sponsored Programs at (717) 477-1251.

Shippensburg University SPIN ^{Plus} ACCESS

WHAT IS IT?

SPIN ... Sponsored Programs Information Network is a funding opportunities database designed to provide up-to-date information on current federal and non-federal Program announcements. Anyone operating a computer on the university network may access SPIN WWW.

GENIUS ... Global Expertise Network for Industries, Universities and Scholars is a global WWW network and database of scientific and scholarly expertise.

SPIN + GENIUS = SMARTS ... Spin Matching and Research Transmittal Service is an electronic matching and funding opportunity notification system.

WHAT IT CAN DO FOR YOU

SPIN allows you to search for funding opportunities using specific categories and key words.

GENIUS allows you to enter your own Investigator Profile into the SPIN database. The system contains profiles entered and maintained by scholars and researchers at leading universities and research institutions throughout the world. GENIUS provides global recognition to participants and serves as a registry of institutional talent and expertise to be used by industry and academia alike.

SMARTS provides investigators with a direct and targeted electronic link to comprehensive, current and available research funding information.

SPIN HOW IT WORKS

SPIN: Access SPIN from InfoEd International's home page (www.infoed.org). Select: Access Info.Office; Select: SPIN.

You will then be on the SPIN Search Engine Screen, where you may enter search criteria and run quick and advanced searches. Instructions and search tips are provided behind the HELP button. You may also contact Institute for Public Service & Office of Sponsored Programs (extension 1251 or InfoEd 1-800-727-6427) with questions.

GENIUS HOW IT WORKS

TO ENTER A PROFILE: From InfoEd's homepage (<http://www.infoed.org>), click on Access Info.Office, select SMARTS/GENIUS. That will bring you to the main SMARTS/GENIUS Page. You will see a link to "Create a New Profile." Click on Create a New Profile. On the next page, select Shippensburg University from the list, and click Select. Then just follow the instructions in filling out the different screens. You can create your own username and password, allowing you to access your profile.

The Institute for Public Service will receive an automatic e-mail notice as each new user signs on to the system. When this is received we will validate each new investigator.

In addition to setting up your own profile you can search for other researchers to locate potential partners/collaborators. You can access *GENIUS* Search from the Info.Office Main Menu. Feel free to search the global database to locate investigators with specified expertise; and to use the search engine to generate institutional reports!

***SMARTS* HOW IT WORKS**

To receive *SMARTS* matches, investigators must create individual profiles. You can elect to receive daily electronic notification of funding opportunities that matches your *GENIUS* profile against funding Program announcements in *SPIN*. Matched Programs are e-mailed to individual researchers every day in either summary or complete reports. If you do not wish to receive daily e-mails select **NO** for the question “*SMARTS* output/hits will be e-mailed to you as *SPIN* matches are found on a daily basis.” on the General Information/User Preferences page in *GENIUS* profile. You will still be able to access *SPIN* and do individual searches and have access to *GENIUS* profile.

If you would like additional information, please contact Institute for Public Service & Office of Sponsored Programs office in Old Main 202 or call, extension 1251, or e-mail ipssp@ship.edu

ARTS/HUMANITIES/ INTERNATIONAL

Program: Rome Prize

Agency: American Academy in Rome

Next Deadline: Nov 01, 2010 (tentative)
Supports residential humanities or fine arts fellowships in Rome for emerging artists and scholars in the early or middle stages of their careers. Winners of six-month and 11-month fellowships receive stipends of \$13,000 and \$26,000, respectively; room and board; and an office or studio. Applications typically due 11/1 annually. The academy also offers: Residents Program, Visiting Artists and Scholars Program, Affiliated Fellows Program, Rome Sustainable Food Project and Summer Programs. See <http://www.aarome.org/apply-to-the-rome-prize.php> for details. E-mail: info@aarome.org

Program: DFG/NEH Bilateral Digital Humanities
Program: Enriching Digital Collections

Agency: National Endowment for the Humanities

Next Deadline: Nov 16, 2010

NEH and DFG are working together to offer support for digitization projects in the humanities. These grants provide funding for up to three years of development in the following areas: new digitization projects and pilot projects; the addition of important materials to existing digitization projects; and the development of related infrastructure to support international digitization work and the use of those digitized resources. Each application must be sponsored by at least one eligible German individual or institution, and at least one U.S. institution, and there must be a project director from each country. See

Next Deadline: Nov 01, 2010

Provides short-term awards of \$200 to \$2,000 to advanced graduate students and postdoctoral researchers beginning careers in zoology, paleontology, anthropology, astrophysics, and Earth and planetary sciences. Chapman Grants (11/15 deadline) support ornithological research; Lerner-Gray Grants (3/15) support marine zoology projects dealing with systematic, evolution, ecology, and field-oriented behavior; Theodore Roosevelt Grants (2/15) support research on North American fauna; and Collection Study Grants (5/1 and 11/1, depending on discipline) support visits to AMNH. See <http://tinyurl.com/y8zaeq3> for details. E-mail: grants@amnh.org

Program: Research Fellowships and Grants

Agency: American Statistical Association

Next Deadline: Nov 30, 2010

Supports faculty working with statisticians, social scientists, and economists in federal statistical agencies. Programs include ASA/NSF/Census Research Program (12/10 annually); ASA/NSF/BLS Fellowship Program (2/8/10); ASA/NCHS Research Fellowship Program (11/30 target date, applications accepted year-round until positions are filled); ASA/NASS Research Fellow and Associate Program (3/1 annually for fellowships beginning in September); and BJS Research Program (1/15/10). See

Program: Senior Scientist Mentor Program

Agency: Dreyfus Foundation

Next Deadline: Nov 11, 2010

Supports emeritus (as of January following application submission) faculty who maintain active research programs with undergraduates in the chemical sciences. Provides awards of \$20,000 over two years, intended mostly for undergraduate stipends, may also provide modest research support. Ideally, the research will be conducted during the summer months, although the undergraduates may also work during the academic year. See

http://www.dreyfus.org/awards/senior_scientist_mentor.shtml for details. E-mail: gbrandenstein@dreyfus.org

Program: Professorships, Awards, and Postdoctoral Fellowships

Agency: Mathematical Sciences Research Institute

Next Deadline: Oct 01, 2010
Research Professorships (10/1) provide up to \$5,000/month for distinguished researchers making key contributions to their programs. Research Member awards (12/1) support residency of at least a month with optional per diem support and/or travel expenses. Postdoctoral Fellowships (12/1) provide \$5,000/month for five to 10 months plus research travel expenses to mathematicians with PhDs awarded within previous five years. See http://www.msri.org/propapps/applications/application_material for details. E-mail: applications@msri.org

Program: Graduate Fellowships in the Physical Sciences

Agency: National Physical Science Consortium

Next Deadline: Nov 30, 2010
Supports graduate fellowships at any NPSC member institution in any field of the physical sciences. Supports the first two or three years of graduate school, depending on the employer sponsoring the fellowship, with the possibility of continuation for several more years, for a maximum duration of six years with an annual stipend of \$20,000. Special emphasis is put on underrepresented minorities and women. Application window is typically 8/25 to 11/30 annually. See http://www.npsc.org/Applicants/Applicants/fellowship_info.html for details. E-mail: npschq@npsc.org

Program: Research Associateship Programs

Agency: National Research Council

Next Deadline: Nov 01, 2010
Makes awards through agreements with several federal agencies for recent Ph.D.s and senior investigators to engage in basic and applied research at several federal laboratories and research facilities. Stipends support research in chemistry; earth and atmospheric sciences; engineering and applied sciences; biological, health, and behavioral sciences; neuroscience; biotechnology; math; space and planetary sciences; and physics. Deadlines are 2/1, 5/1, 8/1, and 11/1 annually, but not all laboratories participate in all four rounds. See <http://www7.nationalacademies.org/rap> for details. E-mail: rap@nas.edu

Program: Postdoctoral Research Fellowships in Biology

Agency: National Science Foundation

Next Deadline: Oct 19, 2010
Awards fellowships to recent doctoral recipients for research and training to encourage independence early in research career and to permit pursuit of research and training goals in the most appropriate research locations regardless of the availability of funding for the fellows at that site. Current eligible areas are 1) Broadening Participation in Biology and 2) Intersections of Biology and Mathematical and Physical Sciences. (Note: do not begin preparing proposals in FastLane prior to 8/21/10). See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=12720 for details. E-mail: ckimsey@nsf.gov

Program: Doctoral Dissertation Improvement Grants (DDIG) in BIO

Agency: National Science Foundation

Next Deadline: Nov 19, 2010
Provides partial support (up to \$15,000) of doctoral dissertation research. Allows costs for doctoral candidates to participate in scientific meetings, to conduct research in specialized facilities or field settings, and to expand an existing body of dissertation research. Proposals whose focus falls within the scope of any cluster in the Division of Environmental Biology or of the Behavioral Systems Cluster in the Division of Integrative Organismal Systems are eligible. Program: Research & Evaluation on Education in Science & Engineering (REESE)

Agency: National Science Foundation

Next Deadline: Nov 15, 2010

Advances research at the frontiers of STEM learning, education, and evaluation, and provides the foundational knowledge necessary to improve STEM teaching and learning at all educational levels and in all settings. Four types of proposals are eligible: Pathways, Synthesis, Empirical Research, and Large Empirical Research. Limited conference funding also available. Deadline refers to full proposals. Program: Division of Chemistry (CHE) Unsolicited Proposals

Agency: National Science Foundation

Next Deadline: Nov 30, 2010

Supports unsolicited proposals in all traditional areas of chemistry and multidisciplinary fields that draw on the chemical sciences and enable basic research and education. Modes of support include single/multi-investigator awards, funding for shared instrumentation, instrumentation development, and educational projects that leverage the division's research investments to build research capacity. Projects that help build infrastructure and partnerships that advance the chemical sciences are also supported. Annual submission windows are 7/1-7/31 and 11/1-11/30. See <http://www.nsf.gov/div/index.jsp?org=CHE> for details. E-mail: lechegoy@nsf.gov

Program: Probability

Agency: National Science Foundation

Next Deadline: Nov 07, 2010

Supports research on the theory and applications of probability. Subfields include discrete probability, stochastic processes, limit theory, interacting particle systems, stochastic differential and partial differential equations, and Markov processes. Probability research that involves applications to other areas of science and engineering is especially encouraged. Proposal window is 10/23-11/7 annually. See

703/292-4885

Program: Applied Mathematics

Agency: National Science Foundation

Next Deadline: Nov 15, 2010

Supports mathematics research motivated by or having an effect on problems arising in science and engineering. Mathematical merit and novelty, as well as breadth and quality of impact on applications, are important factors. Proposals to develop critical mathematical techniques from individual investigators and interdisciplinary teams are encouraged. Proposal window is 11/1-11/15 annually. See

Program: Geometric Analysis

Agency: National Science Foundation

Next Deadline: Nov 02, 2010 (target date)
Supports research on differential geometry and its relation to partial differential equations, global analysis, analysis on manifolds, several complex variables and Lie representation theory; geometric aspects of math, physics and dynamical systems; and convex sets, integral geometry, and related geometric topics. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5549 for details. E-mail: cstark@nsf.gov

Program: Statistics

Agency: National Science Foundation

Next Deadline: Nov 07, 2010
Supports research in statistical theory and methods, including research in statistical methods for applications to any domain of science and engineering. The theory forms the base for statistical science. The methods are used for stochastic modeling, and the collection, analysis, and interpretation of data. The methods characterize uncertainty in the data and facilitate advancement in science and engineering. Proposal window is 10/23-11/7 annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5556 for details. E-mail: gszekely@nsf.gov

Program: Dynamics of Coupled Natural and Human Systems (CNH)

Agency: National Science Foundation

Next Deadline: Nov 16, 2010
Promotes quantitative, interdisciplinary analyses of relevant human and natural system processes and complex interactions among human and natural systems at diverse scales. Awards range from about \$500,000 to \$1.5 million each. Deadline is third Tuesday in November annually. See http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=13681 for details. Program: NOAA Environmental Literacy Grants

Agency: U.S. Department of Commerce

Next Deadline: Sep 08, 2010

Seeks projects that engage the public in educational activities that utilize emerging or advanced technologies to improve understanding and stewardship of the local and global environment. Program areas include: Formal K-12 Education (required pre-proposals due 9/8/10); Informal/ Nonformal Science Education (last deadline for required letters of intent 2/16/10) .

Colleges and universities eligible are to apply. See http://www.oesd.noaa.gov/funding_opps.html E-mail: oad.grants@noaa.gov

Program: Genomic Science Program

Agency: U.S. Department of Energy

Next Deadline: Sep 28, 2010

Genomic Science research conducts explorations of microbes and plants at the molecular, cellular, and community levels. The goal is to gain insights about fundamental biological processes and, ultimately, a predictive understanding of how living systems operate. Potential Impact Areas:

Bioenergy production, Environmental remediation and Carbon cycling. In FY 11, will support Genomic Science & Technology for Energy & the Environment. Required pre-app due 9/28/10. See <http://science.doe.gov/grants/announcements.asp?stat=1> for details.

Program: Neotropical Migratory Bird Conservation Act Grants

Agency: U.S. Department of the Interior

Next Deadline: Nov 01, 2010

Supports public/private partnerships in the U.S., Canada, Latin America & the Caribbean that promote the long-term conservation of Neotropical migratory birds and their habitats. Support includes habitat management, research, monitoring, education, community involvement, outreach, ecotourism, and training. The average award has been around \$100,000, with a range of \$9,000 to \$250,000. A 3:1 match is required. See <http://www.fws.gov/birdhabitat/Grants/NMBCA/index.shtm> for details.
