

NYS Residential Builder Energy Code Training

The New York State Builders Association Research & Education Foundation (NYSBA REF) will present a comprehensive four hour program addressing New York State Energy code changes. The 2010 NYECCC changes place an additional emphasis on air sealing and moisture control along with thermal control in the building envelope.

This course will examine the building science behind the most effective and practical practices to meet the code requirements. It will also examine cost effective assemblies and best practices to exceed the code.

Presented in a concise 4-hour Comprehensive Training Course for Residential Builders outlining the new 2010 Energy Conservation Construction Code of New York State that has gone into affect: 12/28/10.

A question and answer session will conclude the presentation.

DATE: September 21, 2011
LOCATION: Stony Brook, NY
TIME: 2:15 PM (Sign-In)
TRAINING: 3:30 PM - 7:30 PM

You can also register on-line at:
<http://www.nyserdacodetraining.com>

Registration Deadline:
September 14, 2011

Registration Fee: \$35.00

Two-for-One Fee = \$40
(Bring your Subcontractor)

Fax, e-mail, or mail your completed registration form including your payment to:

NYS RESIDENTIAL BUILDER ENERGY CODE TRAINING

Are You **CONFUSED** By The New Energy Code??

This training will clear the confusion that exists between the new **Energy Code** vs. **Energy Star** and will cover:

- Summary of changes to 2010 NYECCC
- Learn the Building Science behind the best applications of the code.
- How to apply the changes in the most cost-effective manner.
- How to get your whole team on board... (Bring them with you to the class).

HOT TOPIC: 2010 Energy Conservation Code of New York State (ECCNYS)

Make sure you as a Builder, Contractor, Remodeler or Subcontractor are compliant with the NYS Energy Conservation Construction Code!

This course will examine the best construction practices that align with the 2010 NYECCC. It will also look at future construction and best practices to ensure safe, healthy and efficient implementation that goes beyond minimum code requirements.

Topics that will be covered during the training:

- Identify changes in the NYECCC that mandate thermal, air sealing, and moisture control.
- Identify the cost impact of the code revisions and how to effectively meet the requirements.
- How the new code affects or will impact Subcontractors (ex., plumbers, electricians, HVAC)
- Provide examples of Assemblies that will meet the new code requirements..
- Examine the rationale behind the code requirements from a building science perspective.
- A question and answer session will conclude the presentation.

Registration Deadline: September 14, 2011

Registration Fee: \$35.00

Two-for-One Fee = \$40 (Bring your Subcontractor)

(REGISTRATION)

DATE: Wednesday, September 21, 2011
LOCATION: Stony Brook University Advanced Energy Center—2nd Floor Conf. Rm. 1000 Innovation Road Stony Brook, NY 11794-6044
TIME: 2:15 PM (Sign-In)
TRAINING: 3:30 PM - 7:30 PM

Continuing Education Credits

Four (4) hours of code enforcement in-service training
Student Training ID#: _____
(Code Enforcement Officers Only)

Four (4) hours of Residential Builder Energy Code Training can be applied toward the **15-hour** builder training requirement for purposes of NYSERDA's Green Residential Building Program (GRBP).

Building Performance Institute (BPI) Recognized for **1.14** CEU Credits.

Four (4) AIA Learning Units.

PRESENTORS:

John Barrows—President of J. Barrows Inc., a company that has provided construction services, general contracting, construction management, and consultation services for over 30 years. Their projects include historic renovation, remodeling, and new construction not only at home on the East End of Long Island but also Nantucket, Hilton Head, SC, and the Adirondacks of upstate New York.

Vincent A. Calvosa —President of The Calvosa Organization, a residential Home Building and Development Company based in Bohemia, NY that has provided Quality Framing Contracting services to many of Long Island's prominent builders and developers, as well as general contracting and construction management services to many homeowners as a custom builder for the past 20 years. He has also developed, constructed, and managed many residential subdivisions and communities including Long Island's first Green Active Adult community.
