Public Utility Commission of Texas Property Owner Certification Form of Tenant Income Eligibility For Full Incentive Energy Efficiency Services

This form is to verify that at least 75 percent of the units: (1) are rented by income eligible customers, and (2) have a separate electric meter. The Public Utility Commission of Texas has authorized energy efficiency programs to reduce the utility bills of income eligible tenant households. Contractors participating in the programs receive higher incentive payments when at least 75 percent of the tenants qualify as income eligible. The purpose of the higher payment is to enable the contractor to provide the improvements to 100 percent of the units at a cost that will provide the benefit of lower electric bills to tenants with a very low or no increase in rent. One form must be filled out for each qualifying multi-family apartment complex.
