

STATEMENT OF EXPECTED 2012 INCOME

The 2012-2013 needs analysis formula assumes that all students will have the opportunity to earn, and will earn, the same amount during 2012 as they earned in the 2011 base year. Because not all students will have the same employment opportunities available, it may be unfair to make this assumption for all students. It has been determined that your expected income may differ significantly from your actual 2011 income, and special consideration may be needed. Therefore, please complete the information below and return this form to the Buena Vista University Office of Financial Assistance.

If you (or a parent or spouse) worked full time in 2011 but are no longer employed full time, please stop here and complete and submit a Special Conditions Application.
