

TriService Nursing Research Program (TSNRP)

Letter of Intent to Submit a Grant Application

The TriService Nursing Research Program (TSNRP) requests that nurse scientists submit a Letter of Intent (LOI) by the requested date before submitting a grant application. Submitting an LOI is neither a commitment to submit a subsequent grant application nor is it a requirement to do so.

TSNRP uses Letters of Intent to identify civilian nurse scientists who have research expertise, professional experience, and publication history that qualifies them to perform the scientific merit review of each potential grant application that TSNRP is likely to receive. In addition, TSNRP may send feedback to nurse scientists on the research or project topics identified in their LOI.

Please type your responses. Submit your completed form as an email attachment to Pamela A. Moses, Program Manager, at tsnrp@usuhs.mil.

I intend to submit a grant application to the TriService Nursing Research Program by _____ (date).
