

**Institutional Biosafety Committee (IBC)  
Protocol Modification Form**

The intent of this form is to ensure compliance with the NIH Guidelines for Research Involving Recombinant DNA Molecules, Section IV-B-7-c-(3), which requires that Principal Investigators submit a notice of any protocol modifications to the IBC for review and approval or disapproval. The most recent NIH Guidelines can be found at [http://oba.od.nih.gov/oba/rac/Guidelines/NIH\\_Guidelines.pdf](http://oba.od.nih.gov/oba/rac/Guidelines/NIH_Guidelines.pdf)

**Project Title:**

**Study Initiation Date:**

**1) Do the planned changes to the protocol involve the source of DNA or host-vector system, or do you have reason to believe that any planned modifications to the protocol would impact the safe conduct of work?**  Yes  No

**If yes,** describe changes below. **If no,** skip to step #2.

**2) Principal Investigator:**   
(Print or type)

**Signature:**

Please attach a copy of your modified study protocol or other document that describes the modifications in sufficient detail, and return this form to: Virginia Giblin at 475 Brannan Street, Suite 220, San Francisco, CA; Fax: (415) 600-1725; email [GiblinV@cpmcri.org](mailto:GiblinV@cpmcri.org).
