

lesson fifteen

financing your education

overheads

the cost of education

what is a fixed expense?

- Expenses that should be fairly predictable and consistent each month/year - you do not really have much control over them.

fixed

- Tuition (see overhead 15-B and 15-C)
- Student Fees (varies)
- Books (new \$30-120 each, used - \$15-40)
- Basic school supplies (\$300/year)
- Rent Residence (residence with meal plan \$5090/year) OR
- Rent (varies with location, availability, if you share)
- Car Payments (\$300-500/month)
- Utilities (\$40/month)
- Insurance (\$100/month)
- Phone (\$25/month minimum)

KEY MESSAGE:

School is extremely expensive; take it seriously. It is one of the largest and most valuable investments you will ever make.

the cost of education (continued)

what is a variable expense?

- Expenses that change on a monthly basis - you have control over them, so if you need to save money, these are the expenses to look at trimming.

variable

- Groceries
- Clothing
- Gasoline
- Parking
- Laundry
- Travel
- Entertainment
- Computer and related supplies

KEY MESSAGE:

School is extremely expensive; take it seriously. It is one of the largest and most valuable investments you will ever make.

the average cost of tuition in Canada

* Average tuition fees in each province weighted by the number of students. Fees at both public and private institutions are included in the weighted average calculation.

KEY MESSAGE:

School is extremely expensive; take it seriously. It is one of the largest and most valuable investments you will ever make.

financing options

what sources of income can you get to help pay for your education:

- Personal Savings
- Family Support
- Personal Investments
- Tax Refund
- Scholarships/Bursaries
- Student Loans
- Personal Loans

KEY MESSAGE:

Investigate all sources. The best options are those that you don't have to repay. Look into those sources that you don't have to repay, then look into those you do have to repay.

scholarships/bursaries

what is a scholarship/bursary?

- Funding given to a student based on a certain set of qualifications/criteria
- Scholarships are available for first year students or returning students
- Money that does not have to be paid back

who gives them out?

- Governments
- Private Companies
- Parents' employers
- Schools
 - Academic
 - For certain programs/fields of study
 - Athletic
- Religious Groups
- Cultural Groups
- Social Groups
 - Big Brothers and Sisters of Canada
 - Junior Achievement

scholarships/bursaries (continued)

what is needed to get a scholarship?

- Keep good grades - although some scholarships are focused primarily on other qualifications, good grades are important
- Get involved in athletics or extracurricular activities in and outside of school
- Do your research
- Apply, apply, apply

where can you find out about scholarships/bursaries?

- High School Guidance Counsellor
- University/College Financial Aid Office
- Parents
- Government Web Sites/Student Assistance Numbers
- On the web - www.studentawards.com

KEY MESSAGE:

Many scholarships go unused every year....there is no harm in applying for many, so start early and apply often.

how do you apply for a student loan?

step 1 – get your application

- high school guidance counsellor
- your post-secondary institution Financial Aid office
- your provincial government web site

step 2 – fill it in

- fill out the application completely
- return it to the government student assistance office

step 3 – wait

- the process usually takes 4-6 weeks
- you will be notified of approval or denial through the mail
- if you qualify for funding, they will send you a Certificate of Eligibility

how do you apply for a student loan?

(continued)

step 4 – confirm your enrolment

- take your certificate to your post-secondary institution (Financial Aid Office)
- they will sign the document to confirm your enrolment
- if your enrolment is not confirmed, the certificate cannot be processed

step 5 – sign it

- make sure to sign the Certificate of Eligibility
- if it is not signed, it cannot be processed

step 6 – take it in

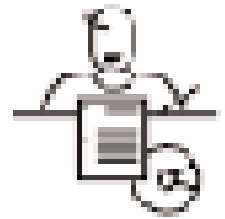

- take your Certificate of Eligibility to the service provider or financial institution that services your government's loan program
- the provincial program web site and/or information on the certificate will confirm where you need to take the document

step 7 – be patient

- the service provider or financial institution will then process your Certificate and disburse funds to you
- it usually takes approximately 48 hours to process, then an additional 1-5 days for you to receive your money

the cost of education

directions

Divide into groups. Discuss the differences between fixed and variable expenses and write down a definition for each.

Identify the expenses related to attending a post-secondary institution for a year, and calculate the cost of a year of education.

Consider the difference in the cost of living in residence or off-campus and whether you will live at home or in rental housing.

1. What is a fixed expense?

2. What is a variable expense?

3. List the types and estimated amounts of expenses you can expect for a year at a selected post-secondary institution.

Fixed

Variable

name: _____

date: _____

the cost of education

estimated expenses

4. Consider the cost of tuition by selecting an institution and researching the cost.

5. Discuss these expenses in your class and make notes.

6. Go back to the type and estimated amount of expenses you have identified. Make adjustments, and then add the various expenses to find the total cost.

the cost of borrowing

Average debt load for graduating students (4-year program) in 1999:

How much do you think? Choose one:

- A. \$ 5,000 _____
- B. \$10,000 _____
- C. \$25,000 _____
- D. \$40,000 _____

Use "the cost of loan calculator" on the Choices & Decisions CD-ROM.

- use 10% interest
- use 10, 9, 8, 7 or 6 year terms
- calculate monthly payments, total interest paid and the total cost of the loan.

\$ _____ principal amount.

Mthly Pmt	#Payments	Interest paid	Principal plus Interest
_____	120 (ten years)	_____	_____
_____	108 (nine years)	_____	_____
_____	96 (eight years)	_____	_____
_____	84 (seven years)	_____	_____
_____	72 (six years)	_____	_____

Note: you can also vary the interest rate and calculate the total cost using a higher or lower rate.
