## PHYSICAL FITNESS AWARD FOR AEROBIC EXCELLENCE

## GENERAL

1. The Canadian Forces Award of Aerobic Excellence Program provides recognition for members who have demonstrated an exceptional level of commitment to developing their own personal level of aerobic fitness.

## SCOPE

2. The CF Award of Aerobic Excellence is divided in 7 levels of achievement (I to VII). Each of these levels is broken down into in 6 sub-levels (red to gold seals), each of them requiring the member to complete 2000 units of aerobic exercise before moving on to the next seal. At the end of each level, a member will have completed 12000 units of aerobic exercise. Completion of all 7 levels would signify the accumulation of 84,000 aerobic units.

## REQUIREMENTS

2. To qualify for the Canadian Forces Physical Fitness Award for Aerobic Excellence a CF member must accumulate 2000 units, from participation in aerobically oriented activities, in less than two years. Prior to commencement, members are encouraged to report to the PSP Fitness and Sports personnel, or where such personnel are not established, to an officer delegated by the Commanding Officer, for a personal log book and confirm any queries they may have about the program. When the member completes the first 2000 points, he or she will receive a certificate with the first seal.
3. The primary consideration in earning qualifying units is the distance covered. Where the distance cannot be measured because of the equipment, or circumstances, the noted times may be used in lieu of the distances.
4. A minimum of one unit per exercise session must be obtained before the performance may be recorded in support of the program.
5. Units may be accumulated by participation in one or any combination of the activities listed in para 12 below. Members may accumulate units through participation in one or any combination of individually selected activities, formal fitness training and/or compulsory fitness program activity.
