IRS Data Retrieval Tool not Utilized

⊗ *If you elected to use the IRS Data Retrieval Tool, you are **not required** to fill out this form.*

The **IRS Data Retrieval Tool** is designed to report the most accurate financial information for an applicant and his/her family or spouse on the FAFSA online application. It is also used to complete the verification requirement. Federal regulations require that SMU obtain an explanation for why an applicant elected not to use the tool when completing the FAFSA online.

- 1) In cases where this tool was not used while completing the FAFSA, an applicant **who was otherwise eligible** must explain why the IRS tax data was not sufficiently accurate to transfer into the FAFSA, or any other reason they chose not to utilize it. **Eligibility rules are found on the Financial Aid website: www.smu.edu/financial_aid.**

- 2) If you transferred your IRS data using the Retrieval Tool, but **afterwards you made a change** to that data (either prior to submitting the FAFSA or on a later FAFSA correction), your FAFSA will be selected for verification.

Please select a reason for changing the information:

- Student or spouse filed an amended tax return (IRS Form 1040X)
- Student or spouse marital status has changed unexpectedly since December 31, 2011

For reasons other than the ones listed above, please explain below:

Please promptly return to the Financial Aid Office, along with the rest of the Independent Verification packet. Please sign below:
