

# GPR Service Form

## GPR Service Policy

Current fees of \$25 per damper should be included whenever you send your dampers to us for service. To qualify for a free service you must include a copy of your original store receipt and the first service will be free. **If you do not send in a copy of your receipt w/ this document than we cannot extend a free damper service to you.** A very reasonable fee of \$25 is due at time of service when a warranty or complimentary service situation is not applicable. You may select and authorize expedited shipping on this form if you need your damper to arrive before ground shipping can deliver it back to you. If the attached funds are not sufficient for the service and/or shipping fees selected than your damper service and return will take longer, as we will have to contact you for further info or funds.

Please include and indicate the shipping and/or service fee w/ your damper in form of cash, money order or credit card authorization on this form(no personal checks). Make a copy of this completely filled out document for your records before you send your damper to us. Only send back just the damper, no components or mounting hardware. When you send your damper to us please select both a tracking number and signature verification service so you can verify that your package did arrive here if we cannot do so. It is in your best interest to purchase tracking service and delivery confirmation for any packages/items shipped to us for inspection, repair or service. Insure your shipment for the full retail price of your damper kit. GPR/RS Norman Mfg assumes no freight charges nor responsibility for merchandise damaged or lost in transit each direction, so ship your damper to us from a reputable freight company, such as UPS, Fedex, USPS, etc. We are not responsible for packages lost during transit
