

# Course evaluation form

Please fill in this course evaluation form so that the facilitator can make this course better next year. If you do not understand any of the questions don't hesitate to contact the facilitator.

## Course content

- Did you find the course interesting and enjoyable?
- Did you find the course material well organised?
- Was the course material mostly new to you?
- Did you find the material difficult to understand?
- Did the course help with any of your other courses?
- How well did you understand the main ideas of the course?
- Did the course change how you think about the interactive environments?

Not					Very
1	2	3	4	5	

## Course structure

- Did you find the structure of the course understandable and clear?
- Did you like the general design of the course?
- Were there enough communication options with peers and facilitator?
- Did you find the assessment scheme acceptable?

Not					Very
1	2	3	4	5	

## Facilitator and feedback

- Did you find the facilitator clear and easy to understand?
- Did you find the facilitator approachable and willing to engage?
- Were the feedback on your tasks helpful?
- Was the format of the course (individual study, discussion, group work etc) satisfactory?
- Was the size and mix of these activities satisfactory?

## Course tools and services

- Roughly speaking, how often did you visit the course Wikiversity page?
- Roughly speaking, how often did you visit the course Weblog?
- What other tools and services you used most often?

Any other comments on the list of course tools and services?

## Course forum and personal Weblog

Have you enjoyed contributing to the course forum? Did it help you to understand the course material? Any comments?

Has it helped to be anonymous on the course forum? Were you able to say things that you might not otherwise have said?

## Personal Weblog

Have you enjoyed contributing to the personal Weblog? Did it help/hinder you to express your thoughts publicly? Any comments?

Do you feel that you have an 'online identity' as a result of using *MSN*, *Weblog*, and other online technologies? Is this online identity different from how you are in 'real life', or has it actually allowed you to 'be yourself'?

## Final Comments

What do you think was the best aspect of the course?

What were the main problems in this course?

What would you most like to see changed about the course to improve it?

Do you have any other comments about the course? Was there ever anything you wanted to say but never got the chance?
