Ideal for game viewing and anyone wanting to see the best of Africa!

INTENDED ITINERARY

Whilst it is our intention to adhere to the route described below, there is a certain amount of flexibility built into the tour and on occasion it may be necessary or desirable to make alterations to the published itinerary. Please therefore treat the following as a guide only.

Duration: 29 Days

Countries visited: South Africa, Botswana, Zambia, Malawi, Tanzania, Kenya.

DAY 1 - 2

Greater Kruger and National Park

From Johannesburg - South Africa's commercial capital - we travel via the Panoramic region of Mpumalanga with its beautiful scenery and dramatic escarpment views, to South Africa's most famed national park - Kruger. The fences between the park's borders and private game reserves on the fringes of Kruger have been recently taken down to form Greater Kruger and the park's animals are free to roam the whole area. Kruger and Greater Kruger cover over 24,000 sq km and are home to an incredible wealth of African animals from the miniscule dwarf mongoose to all of Africa's famed Big 5 mammals. There is also an incredible diversity of birdlife and flora to be discovered. We spend two nights within the Kruger area and take game drives across the savannah to glimpse some of the wildlife that inhabits the park.

DAY 3 - 5

Francistown, Nata and Chobe National Park

Leaving Kruger and travelling north we spend a couple of days crossing from South Africa into the vast grasslands of Botswana via Francistown, Nata and the edge of the formidable Makgadikgadi salt pans to Kasane and the Chobe National Park, in the northern corner of Botswana. Chobe is a vast reserve of some 12000 sq km and along the Chobe River-front lush plains and forests support a remarkable variety of wildlife.

It is perhaps most famous for its huge elephant populations and is thought to be home to some 40000 of the 120000 elephants inhabiting this area of Africa. Whilst in Chobe we take an afternoon Fish Eagle boat cruise, relax and watch for hippo, buffalo, elephant and possibly lion, as well as an amazing display of birds, come to the river to bath and drink in the lowering light.

DAY 6 - 9

Livingstone – Victoria Falls (Zambia)

From Kasane it is a short drive to Livingstone and Victoria Falls (Zambia side) our base for the next few days. There are numerous activities and excursions to choose from here. Feed your hunger for adrenaline with white water rafting, bungee jumping, abseiling, gorge swinging and amazing scenic flights (microlight, helicopter or small plane) or enjoy the surroundings on canoeing safaris, elephant back safaris and horse riding treks. However, don't leave without seeing the Victoria Falls themselves. At over a mile wide and over 100 metres deep, when the river levels are high the Falls produce the world's largest curtain of falling water in the world. Depending on time of year they are formidable and at times the spray can be seen from 20 kilometres away, hence their local name Mosi au Tunya – the 'smoke that thunders'.

DAY 10 - 17

Kafue River - Lusaka - Malawi

From Livingstone, we head north-east into Zambia and stop at the Kafue River to take a short journey by boat on the river to a community camp on the river banks. We spend the night here and have the opportunity to visit the neighbouring village and meet the local people who live here. The following morning we continue our journey through Lusaka to Malawi - the 'warm heart' of Africa. We descend to Lake Malawi which covers almost a fifth of the country providing a source of livelihood for many of the Malawi people. Fishermen, fish traders, canoe and net makers all ply their trade, and a common sight is that of a fisherman in his *bwato*, (dugout canoe made from a hollowed out tree trunk) fishing on the still lake at the break of day.

Enjoy a few days on the beach. Try some of the water-sports typically available, or else simply relax and enjoy the warm fresh waters of Lake Malawi. There is the opportunity to meet the local people, generally known as amongst the friendliest in Africa to gain an insight into their way of life.

DAY 18 - 22

Dar es Salaam - Zanzibar

Leaving Malawi we climb into the hills and cross the border into Tanzania. We continue northeast towards the Indian Ocean coast and the port city of Dar es Salaam. On the way we take the road that runs straight through small Mikumi National Park and with luck, may spot forest elephant or giraffe feeding near the side of the road. 'Dar' is Tanzania's hub of commerce and industry - a hot, humid and bustling city. We set up camp at our campsite near the beach just outside of the city centre with time to browse one of the nearby curio markets best. Ebony wood carvings are a good buy in Dar – but be sure to bargain hard. This is also our 'leaping off' point for our excursion to Zanzibar.

Evocative and exotic, Zanzibar conjures up images of idyllic, sandy, palm fringed beaches, romantic winding cobbled alleys and lush tropical forests. You will find all of these and an intriguing past on the island. Zanzibar was once a major trading centre for spices and slaves as well as base for the great 19th century European explorers such as John Hanning Speke, Richard Burton and David Livingstone. Indeed the spice trade is centuries old: Zanzibaris have traded with the people of the Arabian peninsula for generations, plying the ocean in simple dhow sailboats relying on the annual trade winds for passage. The Arab influence is evident in the architecture and diverse street stall offerings of the capital, Stone Town. In fact it can be seen right along the East African coast with the *Swahili* language and culture displaying the mixing of Arab and African cultures over many centuries.

Our time on the island is not structured and your time is at leisure. Perhaps the best way to see Stone Town is on foot: explore the bazaars, shops, mosques, palaces, courtyards and myriad intricate alleyways of the old town. Spices are grown in plantations nearby and you can take day-tours to visit some and have your senses dazzled by the tastes and scents experienced. But if it's white sand, sparkling ocean and hot sun you prefer – head for the northern beaches and enjoy the Indian Ocean at its best. Try snorkelling and diving, indulge in some sumptuous seafood, or simply relax beneath a coconut palm with a cocktail and a good book.

After three nights we cross back to the mainland to Dar by ferry.

DAY 23 – 25
River Camp - Arusha

We continue the journey northward and inland to the great game parks of East Africa. We may take a night beside the scenic Pangani River on the way north, and a little further on if the weather is clear we gain a view of the magnificent snow-capped Mount Kilimanjaro, Africa's highest peak (at 5895m). We drive past the town of Moshi and eventually reach Arusha, a city situated exactly mid way between Cape Town and Cairo. Arusha is Tanzania's 'safari capital', a city of some 2 million inhabitants, a bustling melting pot of markets, vehicles and tribesmen, nestling in the shadow of the brooding Mt Meru (4556m). With time to explore town we head out to our camp just outside of the city on the edge of the Masai plains. Here there is the opportunity to take a walk or camel ride to one of the local Masai villages, to visit the very interesting Masai museum, and to visit the snake enclosure at the Meserani Snake Park. Wash the African dust down in the camp's popular 'bush' bar. More importantly, it is from here that we prepare for our two night/three day excursion to the Serengeti National Park and the Ngorongoro Crater.

DAY 26 - 21
Serengeti National Park – Olduvai Gorge
Ngorongoro Crater - Nairobi

Stopping to see the Olduvai Gorge, made famous by Drs Louis and Mary Leakey for their explorations into early man we descend onto the open plains and wide horizons of the Serengeti. Green after the rains, brown and burnt in the dry this is home to an enormous variety of grazing animals, predators, and birdlife. Flatter and larger than the Masai Mara the Serengeti is simply huge - indeed the name 'derives from the Masai word *Siringitu* – 'the place where the land moves on forever'. Game viewing here can be superb and camping out in an unfenced campsite where lion and hyena roam nearby is an unforgettable experience.

The following day we drive out of the plains and ascend the outer wall of the Ngorongoro Crater. We spend the night camping on the rim (you may need a jacket as it can be cold at night). At 326 square kilometres in area the Ngorongoro is Africa's largest intact caldera and is a World Heritage Site. If the view from the rim (2400 metres above sea level) is spectacular, the site from the Crater floor (some 600 metres below the rim) is equally enjoyable. All the major mammals are present, except giraffe (which cannot manage the steep slopes leading down one to the Crater floor). We descend the steep access road for a morning of excellent game driving in this dramatic location. After lunch we drive back up the access road for a final view over the Ngorongoro before we retrace our steps back to Arusha and our camp for the evening.

After a last night at camp, we make our way across the Masai steppe to the Kenyan frontier at Namanga. Completing formalities we drive the last afternoon to Kenya's burgeoning capital, Nairobi, where our tour ends.

NB¹ For the sake of practicality, meals in the Livingstone/Victoria Falls area are restricted to breakfasts. This allows you to take on half day or full day activities (some of which include lunch) without having to be back with the group at mealtimes. The Waterfront camp has a beautiful restaurant overlooking the Zambezi River which offers a good selection of reasonably priced meals and snacks throughout the day (we suggest you allow US\$25 -\$30 per day). Relax and enjoy these few days at your own leisure.

NB² As we leave the truck on the mainland, when we go to Zanzibar food and accommodation is not included and free time is yours to enjoy the island's activities. Your tour leader will assist the group by booking suitable and well priced accommodation both in Stone Town and on the beach (budget approx \$30-35 per night), unless you would like to book something independently in advance.

TOUR INFORMATION

Travelling overland is great fun, but it can also be challenging! This is a *participation* tour and your help will be needed in setting up the camp each night and assisting (usually on a rota basis) with the various day to day campsite duties, such as shopping, cooking and keeping the truck and camp tidy. But don't worry it's not all hard work and it's a great way to meet the local people and get to know your fellow travellers. Your contribution benefits the success of the tour - most people find the greater their involvement, the greater their enjoyment of the whole trip.

Africa is an adventure destination and travelling here is not always predictable so be prepared to "expect the unexpected" in difficulties or delays which might come our way! However, you'll soon find that the diversity of the African landscape, the wildlife and the communities we pass on our way, make the sometimes rough travel and long driving days worthwhile. Come with a sense of adventure and a flexible attitude and you will be sure to enjoy your Acacia overland tour across this amazing continent.

TOUR STYLE

WHAT TO BRING

Please try to keep your luggage to a minimum, bearing in mind that most airlines impose a 20kg limit. It should be brought in a soft holdall or rucksack along with a smaller day bag. You will need to bring a mixture of lightweight clothing and warm clothing for the evenings and early morning game drives. You also need a sleeping bag (and small pillow if preferred). We recommended you pack a small torch or headlamp, mosquito spray and a money pouch/ belt that can be easily hidden. Please try to avoid bringing unnecessary valuables and use your hotel safe to store the bulk of your money, passport, and airline tickets. A full 'What to Bring' list is included in our **pre-departure booklet (online version)**, issued when you book.

VACCINATIONS/HEALTH

The table below indicates the vaccinations suggested for travel on this tour but **should be treated as a guide only**. You should seek professional medical advice from your GP or clinic at least six weeks prior to departure.

Please be aware that the areas visited on this tour are **malarial**. We strongly recommend your seeking professional medical advice for the appropriate anti-malarial tablets.

MONEY MATTERS

PERSONAL EXPENSES

Naturally you will require extra money for your own personal spending on the tour, for snacks, drinks, souvenirs, tips and items of a personal nature. Everybody has different spending habits but as a guideline we suggest you budget US\$15-25 per day. Also keep US\$ cash for relevant airport taxes and visas needed, optional activities and any additional accommodation before or after your tour.

- **Spending money** is best carried as cash in US dollars, Sterling or Euro which can then be transferred into local currency on arrival. Your guide can advise how and when you can change the rest of your money throughout the tour.
- **Currencies** are as follows: Kenya – Kenyan Shilling; Tanzania (including Zanzibar): Tanzania Shilling; Malawi - Malawi Kwacha; Zambia – Zambia Kwacha; Botswana – Pula; South Africa : Rand.
- **ATM machines** are found in Nairobi, Arusha, Dar es Salaam, on Zanzibar and in the main cities on tour to Johannesburg BUT may be unreliable and therefore we recommend you do **not** rely on them!
- **Credit cards** can be used to pay for optional activities although charges may be may be high by western standards (+/- 5%).
- **Travellers cheques** can be difficult to cash but make suitable emergency funds.

We recommend you bring your spending money in several different ways (some cash, some t/cheques, some cards); your guide can best advise on what to use where.

LOCAL PAYMENT

A Local Payment (LP) is to be paid to your tour leader at the pre -departure meeting. The LP fund is administered by the tour leader in conjunction with the group and covers most meals, all game drives using our own vehicle, campsite fees and meals prepared at the truck (usually two or three per day). You can choose to pay either the Basic Local Payment at the beginning, and then pay for your excursions along the way, or else you may pay for everything up front in the Fully Inclusive Local Payment.

Payment must be made in **US\$ cash in clean, post-2001 edition notes**. Traveller's cheques and credit cards **cannot** be accepted as means of payment. The LP amounts set out in the brochure are estimates of local costs at the time of printing. It is subject to inflation, exchange rate changes and local price rises. These may vary from the amounts set out in the brochure or website and on rare occasion where there is a shortfall, passengers will be asked to contribute further. Conversely, where there is a surplus of LP funds at the end of the tour, it will be refunded equally amongst all passengers.

TIPPING

This is always a matter for your own individual discretion but as in many areas where tourism is an important contributor to the economy, it has become customary to give a small gratuity to local staff, including your tour leader and driver, at the end of a tour if services rendered have been to your satisfaction.

OPTIONAL ACTIVITIES

In order to give you maximum flexibility on tour we offer a number of optional activities on the tour. To help budget, approximate prices are listed below (in US\$ unless otherwise stated. subject to change and availability).

INSURANCE

It is a booking condition of Acacia that you have full travel insurance valid for the duration of your tour to cover you for medical emergency and repatriation to your home country. Your guide will ask you for a copy of this when you join the tour. It is also important that you leave a copy of your insurance with the person nominated as your emergency contact. We can recommend a respected, specialist travel insurance provider for this tour. Please contact Acacia for more information.

Country Information - KENYA

Facts

Capital: Nairobi (from the Masai word 'sweet water' – once a major watering hole)
 Size: 582 646 sq km / 362 116 sq miles
 Population: 36,913,721 (Sept. 07)
 Groups: Kikuyu, Luhya, Luo, Kalenjin, Kamba, Kisii, Meru, non-African (Asian, European, and Arab)
 Languages: English, Swahili, Kikuyu, Luo, Kikamba, Masai, Samburu
 Local time: GMT +3
 Seasons: Dry (June-October), short rainfalls (October-December) and long rainfalls (March-June)
 Currency: 1 Kenyan Shilling (KES) = 100 Cents
 Telephone: Country code 254, international access code 00
 Electricity: 240 V / 50 Hz, rectangular blade plug

Kenya straddles the equator and covers an area of 582,646 sq kilometres, which includes around 13,600 sq kilometres of inland lakes. It is one of Africa's most diverse communities, having been a major migratory pathway for millennia. More than 70 tribal groups occupy the land and whilst distinctions between them have become blurred and western cultural values being adopted, the individual cultures and traditions can still be detected, especially in rural areas. Most of the African population is Christian whereas the Asian population is a mix of Muslim, Hindu and Sikh. English and Swahili are the official languages, however there are many other major tribal languages spoken.

Points of Interest

Masai Mara National Reserve

The Masai Mara National Reserve (sometimes abbreviated to 'the Mara' meaning 'mottled' – due to its patchy landscape) is Kenya's best known game reserve. It is coined by gently rolling hills, woodland and acacia trees and watered by two rivers, the Mara and Talek. There are no fences between the Masai Mara and the bordering Serengeti National Park in Tanzania, and large numbers of animals roam freely between the two parks. The most dramatic spectacle of the area is the migration of zebra and wildebeest. Every year in May, they leave the dry south in herds of thousands and head first west and then north to the greener grasses. Lion, cheetah, hyena and wild dog follow the wildebeest and zebra, making sure that only the fittest survive. In November, when the grazing is finished in the north, this army of animals surges back to the now green pastures of the south where they calve and mate before starting the entire cycle again.

You will also be likely to spot the 'Big 5' here - buffalo, elephant, rhino, lion and leopard. It's little known but the term originally referred to the 5 large animals that proved the most challenging to early colonial hunters – and therefore became a much sort after prize. Nowadays visitors prefer to 'shoot' the animals with cameras rather than guns and the park also has very healthy populations of cheetah, zebra, giraffe, hippo, hyena, jackal, eland, crocodile and many different birds.

Several sub-tribes of the Maasai people live within the Mara area. These are a proud semi-nomadic, non-hunting people who live and raise their cattle in harmony with the surrounding wildlife. Despite the growth of modern civilization, the Maasai have largely managed to maintain their traditional ways.

Lake Nakuru National Park

Lake Nakuru National Park was established in 1961 with only the surroundings of Lake Nakuru but subsequently extended to its present 200 sq kilometres. The park 'centre piece' is still Lake Nakuru, a shallow alkaline lake whose size varies from 5 to 40 sq kilometres depending on rainfall and which attracts a multitude of birds, especially flamingos. These colourful wading birds may gather in such numbers that they form a pink fringe to the lake shore. Other prominent birds are pelicans, cormorants, rollers, and almost 500 other bird species. The forests surrounding the lake are a perfect habitat for black and white rhino, leopard, buffalo, waterbuck, warthog, impala, giraffe, eland, and lion.

Country Information - TANZANIA

Facts

Capital:	Dodoma
Size:	945 087 sq km / 364 900 sq
Population:	36,766,356 (Sept. 05)
Groups:	Mainland: native African (mostly Bantu tribes), other (Asian, European, Arab) Zanzibar: Arab, native African, mixed Arab and native African
Languages:	Swahili, English, Nyamwezi, Arabic
Local time:	GMT + 3
Seasons:	Dry (January-March, July-October), short rains (November/December), long rains (April-June)
Currency:	1 Tanzanian Shilling
Telephone:	Country code 255 , international access code 00
Electricity:	230 V / 50 Hz, round pins with ground or rectangular blade plug

The United Republic of Tanzania (the largest country in East Africa, including the islands of Zanzibar and Pemba) came into existence in 1964, three years after gaining independence from Britain. Although it shares many characteristics with Kenya (particularly with the Swahili culture and language), it does not have the same ethnic mix and following independence developed along more socialist lines than Kenya. Possibly for that reason Tanzania did not experience the growth in industry that Kenya enjoyed , although in recent years it has made up much ground on its northern neighbour. Tanzania's game parks however are - if anything - even better known than Kenya's. The Serengeti National Park and Ngorongoro Conservation Area are truly world renowned, as is Africa's highest peak Mount Kilimanjaro. All of these highlights are within easy reach of Nairobi, attracting many tourists and earning Tanzania much needed foreign exchange.

Points of Interest

Serengeti National Park

Of all the wildlife sanctuaries in Africa, the Serengeti is probably the most famous. With 14,763 square kilometres (the size of Northern Ireland) and no fences between the adjacent game parks. The Masai word is '*siringitu*' – meaning 'endless plains'. The landscape, formed by volcanic activity, varies from grassy plains in the south, to savannah and hilly grassland in the north to extensive woodland and black clay plains in the west. Small rivers, lakes and swamps are scattered throughout. Each area has its own particular atmosphere and wildlife.

The wildlife here comes in large numbers: 1.3m wildebeest, 200000 zebra, 1500 lion, 1000 elephant, 300000 gazelle, 25000 buffalo, 72000 topi, 500 giraffe and 10000 eland. As well as some 500 bird species.

Ngorongoro Crater Conservation Area

Located between the Serengeti and Lake Manyara, sits **Ngorongoro Crater**, the largest unbroken caldera in the world and a World Heritage Site. Some 600 metres deep and 16km wide, the Ngorongoro hosts almost all animal species found in East Africa, including zebra, wildebeest, rhino, lions, cheetah, elephant, hyena, warthog, impala, buffalo, hartebeest, eland, various antelope and birds.

Olduvai Gorge

The name Olduvai derives from a misspelling of Oldupai, the correct Masai word for the wild sisal plant fibre growing in the gorge. Located between the Serengeti and Ngorongoro, the Olduvai is where Drs Mary and Louis Leakey discovered early remains of mankind in the late 1950's and later an ancient human footprint. It became known as the 'Cradle of Mankind' - as the findings suggest that our species first evolved in this area.

Zanzibar

Zanzibar is Tanzania's 'spice island'. It has a colourful history, spice plantations and **beautiful beaches**. Once a trading centre for spices and base for 19th century explorers such as Speke, Burton and Livingstone the island had a darker history too – as a staging post for slaves being shipped out of the African heartland to the Middle East and elsewhere. Zanzibar's traditional trade has always been with the Arabian peninsula, historically by traditional dhow sailboat plying the ocean by the annual trade winds. The Arab influence is evident in the architecture and diverse street stall offerings of Stone Town – and in fact this same influence is seen right along the East African coast with the Swahili language and culture displaying the mix of Arab and African cultures over the centuries.

Established in 1891, the British protectorate of Nyasaland became the independent nation of Malawi in 1964. Countries bordering Malawi are Mozambique, Tanzania and Zambia. Lilongwe is the capital but Blantyre the largest and most important commercial and industrial city. The country's terrain consists of plateaux and mountains but is dominated by the enormous Lake Malawi, 600km long and some 85km wide, one of Africa's 'great lakes'. The climate is sub-tropical with rains mainly from November to May. The population of Malawi is around 12 million with English and Chichewa being the main languages.

Points of Interest

Lake Malawi

The third largest lake in Africa, taking up a fifth of Malawi's total land area. Sometimes known as the 'calendar lake' (from its imperial dimensions: 365 miles long and 52 miles wide, the lake is freshwater and home to more than 500 species of fish – more than in North America and Europe combined! The clear waters of this lake are also one of the world's premier fresh water dive and snorkelling spots and the major tourist attraction – the water being broadly safe for swimming. Many water sports are available - including fishing, water skiing, windsurfing and sailing.

Formerly Northern Rhodesia, Zambia is made up of a highland plateau (approximately 1000 metres above sea level) which rises toward the east and which - in the north, along the border of DR Congo- houses enormous reserves of copper, cobalt, coal, zinc and lead, the mining of which is of extreme importance to the economy. Tourism is of increasing importance with the magnificent Victoria Falls on the Zambezi River marking the border with Zimbabwe. The game parks of Zambia, although not so well known as those of Kenya and Tanzania, are large and well stocked with wildlife of all types. Zambia is one of Africa's newest democracies with its first multi party elections in 1991.

Points of Interest

Victoria Falls

'Mosi-oa-Tunya' – (the smoke that thunders) is the local name for Victoria Falls. At most times of year the Falls is an inspiring sight: 1,708 metres wide and drop between 90 and 107 metres into the Batoka Gorge. An average of 550,000 cubic metres water /minute plunge over the gorge and at high water times the spray can be seen from 20-30 kilometres away. The Batoka Gorge forms the border between Zambia and Zimbabwe. David Livingstone, the first European to see Falls in 1855 (and who named them after Queen Victoria) reported 'Scenes so lovely, they must have been gazed upon by angels in their flight'.

Today, visitors come here not only to look at the Falls themselves but also to try the various adventure activities available in the area -white water rafting, river boarding, jet boating, bungi, microlighting, helicopter flights, sunset cruises and elephant back safaris to name a few. Most tours spend several days in the area, just outside Livingstone, the nearest town, giving opportunity to view the Falls themselves and to try some of the adventure activities available. If your tour starts or finishes here though we do recommend you planning on having another day or so if time allows.

Although vast, semi arid and empty, Botswana has prospered since independence and is comparatively well off in relation to its neighbours - especially those to the north. The economy relies on mining (Botswana supplies much of the world diamond supply), cattle ranching and tourism. Botswana is heavily reliant on South Africa for rail, air and sea links. The Okavango Delta in the north west of the country is a major attraction, the water levels rising and falling annually with the rivers originating in the Angolan highlands. Perennially short of water, the word for Botswana's currency unit (one of the strongest currencies in Africa) is the same word for rain.

Points of Interest

Chobe National Park

This park, 11,000 sq kilometres in size is located in the northern corner of Botswana near where the borders of Namibia, Zambia and Zimbabwe come together. One of Chobe's main attractions is the 25000 strong elephant population – part of a huge 'superpopulation' that exists across the northern belt of Botswana and Zimbabwe in which elephant numbers are thought to total some 120000. The Chobe River, its floodplain and nearby teak forest marks the heart of the park and it is there that animals come to drink and bathe. Besides elephant, you may also see antelope, buffalo, crocodile, lion, hippo and a number of birds including the African fish eagle.

South Africa is a country rich in minerals, wildlife and scenery; a land of beauty with a complex social and political structure. Having by far the most developed and sophisticated economy on the continent, South Africa is essential to many of the neighbouring countries as an avenue for exports and as provider of electricity and high tech products. An excellent network of roads and an abundance of high quality camp sites makes travelling in and around South Africa an easy and rewarding experience.

Points of Interest

Johannesburg

Looking at the modern façade of South Africa's capital it is hard to imagine that it is merely over a hundred years old. It started to boom after gold was found in the area and therefore is still referred to as the gold capital of the world. Besides its great shopping and nightlife, Johannesburg is a good base for daytrips.

Things to do within Johannesburg city are the views from the top of the Carlton Centre, Museum Afrika, the Market Theatre precinct, Hillbrow and Houghton Gold Reef City (a replica of Johannesburg as an old gold mining town), tribal dancing, street theatres and amusement parks.

You can also go on a Soweto township tour where you visit a township, the Hector Petersen monument, apartheid museum and a local shebeen (pub).

At the nearby Lion breeding park you can see cheetah, zebra, giraffe and cuddle lion cubs.

Cape Town

Founded in 1666 as a place where trading ships rounding the Cape of Good Hope could replenish supplies, Cape Town today is South Africa's tourist destination No.1. It is one of the most beautiful cities in the world with plenty of sights and outdoor activities. The natural beauty of the place is defined by mountains (especially the famous Table Mountain) and sea (and not only one, it is here the Atlantic and the Indian Oceans meet).

ACACIA ON THE ROAD – NEWS & EVENTS

FOOTBALL'S COMING TO AFRICA

In line with the 2010 Football World Cup, in Cape Town, Acacia's keeping its eye on the ball. We've got together with the charity Footballs for Fun to spread some goodwill and love for the beautiful game across the continent. In 2008 all our trucks will carry footballs which can be bought and donated to children in the local towns along our route. The footballs are a perfect ice breaker and a game with locals is a great way to make friendships despite language differences. And all the profit (at least £2 from each ball) goes straight back into Africa, helping support a selection of AIDS charities and children's homes. Make a difference, get kicking and buy a ball when you're next on one of our trucks.

RESPONSIBLE TRAVEL

We believe that you get the most out of a journey by respecting the culture and people of the places you visit. On our tours we try to travel in a way that benefits the communities we pass through and minimises negative impact on the environment. This can be from ensuring the campsites we use are clean when we leave and dressing respectfully in conservative areas to getting involved with local charity projects. We ask that you are open to this when you travel with us. Being proactive in responsible travel helps develop cross-cultural understanding and friendships with the local people, and will greatly enhance your experience in Africa.

PHOTOS & STORIES SEARCH

If you've ever thought you can take better pictures than the brochures or have a great travel story and want to see yourself in print, then we're looking for you. If you've captured a great moment on tour, whether it's of the wildlife, local people, landscape or life on the road why not enter our monthly photographic competition starting in 2009. Not only do we give away a monthly prize, you may also see your photos published in a future brochure or on our website. We are also on the lookout for stories of life on the road, the funny, exhilarating, moving or simply unforgettable things you did on tour. We publish the best stories on the Tales from the Road section of our website. Send your photos or stories to acaciaontheroad@googlemail.com

Photos should be in digital format & good resolution (max 6 pics per person) and labelled with the location of where the photos were taken. Meanwhile if you have a story or anecdote about your tour (up to 400 words) it needn't be word perfect, we'd love to hear about it.

Legalities: You, the photographer/author, retain copyright of all images & words submitted but we reserve the right to use of them for Acacia brochures, promotions & advertising.
