## **DAX RUSH**

DJ Sportscars' theme of constant development has taken the clubman-style DAX Rush from a simple, solid-axle kit based on a Ford Cortina, through IRS and De Dion versions, to record-breaking Cosworth-powered Quadra 4 x 4s and championship-winning V8s.

Designed for minimum weight and maximum agility, the class-leading Rush De Dion accepts a wide range of four and eight-cylinder engines from Ford, Rover, Vauxhall and now BMW. It offers maximum fun for minimum cost on either road or track. The Long Wheel Base Option is available for all engine options. The Rush De Dion is now available to take Ford & BMW running gear.

### **A Top Class Performance at the Top Gear Track from Duncan & his DAX**

**An adrenaline-fuelled lap by Duncan Cowper in his DAX Rush has amazingly equalled the 1 min 17.6 sec 'Top Gear' track record set by the Stig in the Koenigsegg CCX (with TG spoiler). A remarkable achievement when it's realised that Duncan's Rush had in the region of 500 fewer bhp and conceded more than 100 mph on top speed! In 2011 he won the British Sprint Championship (Modified Production Cars). Achieving 0 – 100 mph in 5.7 secs. and 0 – 60mph in sub 3 secs. 2012 saw Duncan hold the 'Wet' & 'Damp' Track Records at the Bedford Autodrome (West Circuit) in the MSV 'How Fast' Competition. On the same track as EVO Magazine use. On the 1 September 2012 he made it a Hat Trick and got the broke the 'Dry' Lap record.**

	Full assembly guide (with schematic drawings)	<b>Body Panels</b>
	Fully triangulated Space Frame Chassis (see below) (1)	Nose Cone
	Integral rear hoop (single or full width in CDS2)	Front Cycle Wings
	Engine mountings (fully triangulated & integral to the chassis)	Side Panels (see opposite) (2)
	Safety belt mountings (to IVA specifications)	Bonnet
	Aluminium set – cut to shape – floor, front bulkheads, scuttle top	Scuttle
	Front Nudge Bar	Gearbox Tunnel
	<b>LONG WHEEL BASE OPTION (3" of extra leg room) + £270</b>	Boot Tub
	* Body panels are supplied self-coloured to your choice All reds are subject to a surcharge of £30 (due to the high cost of this pigment)	Rear Wings (bolt on) – various widths
		Rear Bulkhead Panel
	<b>OPTIONS: Various Rear Hoops –</b>	Rear Body section
	<b>See Order Specification Form For Details</b>	Wing Piping
	Full assembly guide (with schematic drawings)	

<b>DAX R002D</b>	<b>BUILD PACK 2 – Suspension Module 'A'</b>	<b>£1085.00</b>
	Front top 'A' arms (2) adjustable	Front Lower 'A' arms (2) *
	Front cycle wing brackets (2) incl. upper ball joint adaptors	Front 'A' arm bushes (8)
	Front upper ball joint (2) shim adjusted, zero notch effect *, includes shims & special Lock Nuts	De Dion rear axle beam – fully bracketed
	Front Lower Ball Joints (2)	Rear 'A' arm(1), bushes(2), ball joint(1)
	Full Nut, Bolt, Rivet & Spacer Kit	Rear Radius Arms (2) & bushes (4)
	Front top 'A' arms (2) adjustable	Front Lower 'A' arms (2) *

**Prices of suspension parts include powder coating, zinc plating or painting.**

**\*The DAX RUSH is UNIQUE in using a shim adjustment system for front camber setting. Most IMPORTANTLY this avoids the stress concentration concerns inherent with threaded adjustment designs. As an added bonus it is easier and more accurate to set.**

**\*Front suspension is of an unequal length double wishbone design.**

**ROLLING CHASSIS****ASSEMBLED ROLLING CHASSIS**

The **Assembled Rolling Chassis** includes **Build Packs 1,2,3, 4 and the High Performance Aluminium Radiator**. This allows you to take delivery of your new RUSH with body panels, bulkhead panels, suspension, brakes, steering, fuel tank & radiator fitted (**N.B.** Front cycle wings and transmission tunnel[not included in 4 x 4 kit] are supplied loose). Your Ford or BMW running gear donor parts are supplied by us if you order our rolling chassis option. All parts are stripped, sand blasted (except differentials), thoroughly inspected and plated/powder coated/painted. They are then refurbished using all new bearings, seals, caliper pistons, C.V. joints, disc pads, drums/brake shoes (where applicable) etc., before being built up with the contents of packs 1,2,3 & 4 into a rolling chassis (excluding wheels) with suspension geometry aligned and body fitted.

<b>DAXR C2 (De Dion)</b>	Includes Build Packs 1,2,3,4 & Aluminium Radiator	<b>£7695</b>
--------------------------	---	--------------

**NON - ASSEMBLED ROLLING CHASSIS**

<b>DAXR C2 (De Dion)</b>	Includes Build Packs 1,2,3,4 & Aluminium Radiator	<b>£7135</b>
--------------------------	---	--------------

**OPTIONAL EXTRAS**

<b>DAXR Co2LD</b>	Upgrade to Cosworth 4 x 4 larger front discs.	<b>£210.00</b>
	Upgrade to Cosworth larger rear Discs	<b>P.O.A.</b>

**FOR ALL OTHER OPTIONS PLEASE SEE PAGE 1**

**Individual Vehicle Approval**

**DAX have been a keen supporter of this Department of Transport initiative and all DAX vehicles currently produced, are capable of meeting the IVA requirements.**

**Today's DAX RUSH, with IVA compliance, differs only in detail from its predecessors. Parts for previous level vehicles will continue to be available and are included in this price list.**

**If you have any queries relating to the IVA test, or any other aspect of our vehicles, please do not hesitate to ask.**

**A 'DAX GUIDE TO THE IVA' is available @ £7.50  
(Refundable on order)**

If you require any advice prior to ordering a kit or just parts regarding IVA or any other aspect of the build, please do not hesitate to contact us.
