

“Off the Peg - Made to Fit” Service

This brochure is specific to the MSF500 tb flex “Off the Peg”. Although “Off the Peg”, O’Three will ensure that a good fit is achieved. Our extensive size range and the large amount of adjustments that can be made, for example, tweaks to the seals, arms and legs that might need shortening, or a change in boot size, means that we can correctly fit many shapes and sizes into “off the peg” suits, we have been doing this for many years and we have called this process, “Off the Peg - Made to Fit”.

Taking into account our unique fitting service, our standard size chart below should be used as a guide.

To help O’Three ascertain whether you are an “Off the Peg - Made to Fit” size and the type of adjustments that might be required fill in our online measurement form at othree.co.uk, or alternatively please get in touch.

Warranty

O’Three have gained a unique reputation for producing high quality individually customised dry suits and delivering customer care that is at the very core of everything we do.

Within the company we are lucky enough to have a wealth of knowledge that has been made possible through a superb record of staff retention.

Every dry suit is guaranteed against defects in materials and workmanship for three years. In the unlikely event that you do experience a problem during that period, if after inspection O’Three are satisfied that a product is defective, and taking into

account what they regard as fair wear and tear from the natural life of the dry suit, they will repair or replace it free of charge.

In Plain Terms:

In this day and age of lawsuits and litigation, O’Three prides itself on its “no nonsense, no hassle” after sales service – which we are told is second to none.

O’Three has been able to develop this side of its business because of the mutual trust it develops with its customers.

MSF500
TECHNICAL BLACK
FLEX

BUILT FOR
VERSATILITY

Moving on from the success of the Lycra 5 and the MSF500tb, this flex version has all of its predecessor's qualities and more.

The MSF500tb flex, offers the wearer a substantial amount of built-in insulation. Consequently the need to wear a traditional type under suit is not necessary. This is why this suit is so versatile and is the key to its popularity.

From late spring to mid autumn the MSF500tb flex can be worn over a t-shirt and a pair of shorts. As the temperature falls or on deeper dives, which might include chilling decompression stops, quality base layers, such as O'Three's PBB+ can be added for extra warmth and comfort.

MSF - Multi Stretch Fibre throughout

Quality 5mm dive grade neoprene producing a substantial amount of insulation

Chemically cured and reinforced

2.5mm flex panel
Improved movement and flexibility

A dense wall of thermal protection remains

The MSF500 material:

We continue to make full use of the combination of quality 5mm dive grade neoprene and the externally laminated 'multi stretch fibre'.

The Flex panels:

The 2.5mm flex panelling which runs from the waist up into the bicep and the entire fore arm means movement and flexibility has been increased.

this suits
versatility
is its key to success

Specification

- Material :** 5mm Multi Stretch Fibre lined quality pressure resistant neoprene.
- Neck :** 2.5mm Micro-Mesh, comfortable-super-stretch.
- Valves & Hose :** Apeks low profile Auto Dump, Swivel Inlet & hose.
- Zip :** Heavy Duty BDM riveted dry zip. Medium duty on Ladies for added flexibility.

- P Zip
- P-Valve
- Pockets
- Dry Glove Options
- Boot Options
- Valve Options
- Hood Attached
- Made to Measure

If there is anything that you would like, but is not mentioned above, please call.

More insulation, with less bulk.

The MSF500tb flex, used in conjunction with O'Three's PBB+ base layer make it possible for O'Three to produce a dry suit that will fit you well throughout the entire year.

If more insulation is required, think thin, breathable and add to your exiting under suit.
