Description

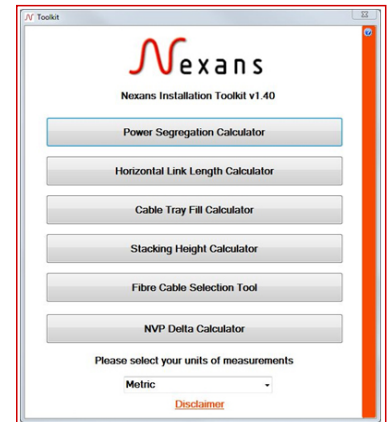

Thank you for selecting the Nexans toolkit to assist you in your planning, design and installation of your LAN infrastructure.

Before downloading the program you need to verify some information on the system you want to install it.

- Check with your system administrator about the internal policy on the installation of .exe files on your local system.
- The minimum requirements for your system are MS Windows XP, with Service Pack 2 or higher.

Please read the readme.txt file before proceeding with the installation of the tool.

[Download the Toolkit \(Zip File\)](#) here or visit the 'Docs & Info' tab above to download the zip file containing the application, readme.txt and user guide.pdf

Standards

International Nexans specification
