**Boston Public Schools**  
**Acceptable Use Policy for Networks**  
**BPS Staff**

It is the policy of the Boston Public Schools that all students and staff will use all technology to access electronic (“computer”) networks including the Internet and email, in a responsible, legal and ethical manner. Failure to do so may result in the termination of network and e-mail privileges for the user or prosecution under federal or state law.

Since network communication is often public, staff are responsible for behaving appropriately on the BPS network and for using the BPS network only for educational and professional purposes. The network is provided for students and staff to conduct research and communicate with others professionally.

Individual users of the network are responsible for their use of the network. Use of the network for any illegal or commercial activities is prohibited.

The BPS uses a filtering system for all schools, and for central offices. This filtering system is designed to prevent access to educationally inappropriate sites. However, it is important to understand that no solution is perfect, and at times educational sites may be incorrectly blocked and conversely, inappropriate sites may not be blocked. Employees who are using the Internet as part of their teaching should be aware that they may call the BPS Technology Help Desk (635-9200) to request that a specific site be blocked or un-blocked. Such decisions will be made by those responsible for monitoring the filtering service within the BPS. Please also note that our filtering system **allows us to track and monitor all computer use on the network.**

A responsible network user will:

- Use language that is considered appropriate.
- Be polite.
- Send information that other users will not find offensive.
- Conform with copyright laws and always give credit to the author of the material used.
- Never reveal personal information about any user such as address, telephone number, credit card numbers, social security number, etc.
- Neither tamper with the system nor alter, delete or destroy any files or data that are not yours.

A responsible network user must be aware that:

- Use of the network and e-mail is a PRIVILEGE, not a RIGHT.
- **The BPS network is to be used only for educational purposes**
- E-mail is not guaranteed to be private.
- Identifying photos of students with their first and last names may not be used on a web site.
- It is important to log off the computer at the end of every session, so another user can not use your password.
- Violation of this policy will result in the possible loss of Internet privileges and/or disciplinary action pursuant to the Code of Discipline and/or prosecution under state and federal law.
- Persons issued an account are responsible for its use at all times.
