

Jevon McKinzie - Time Sheet - CSC 394

Project: Blue Jays

Date	Work/Activities Performed	Time Spent	Publish Method
Week 1 (March 28 - April 3)			
4/3/2005	Spoke with Zuku about game requirements	0.50	Used Yahoo I'm and Yahoo Groups Message Board
4/3/2005	Spoke with Jim/Sergey about first versions of the mystery game implementation	0.50	Used Yahoo I'm and Yahoo Groups Message Board
4/3/2005	Ported preliminary version of the mystery game from a Java application to a Java applet to run on a server.	6.00	Posted mystery.zip
4/3/2005	Spoke with Sergey about how to implement his version of the mystery game and gave suggestions.	2.00	Used Yahoo I'm and Yahoo Groups Message Board
4/3/2005	Joined yahoo group, posted messages and uploaded preliminary mystery game as a Java application	0.50	Posted project6.zip
4/3/2005	Got an e-mail from Andrew about the group homepage at Yahoo since I didn't get the invite from Marcial	0.00	
Week 1 Total		9.50	
Week 2 (April 4 - April 10)			
4/4/2005	Emailed Jim and Sergey to inquire if they needed any help with the final game requirements. No one responded to this request.	0.00	
4/7/2005	Worked on Project Overview document for all team members and Dandan to clarify overall project goals.	4.00	
Week 2 Total		4.00	
Week 3 (April 11 - April 17)			
4/14/2005	Worked on Design/Implementation Template for Book Auction System. Looked at relevant web site designs for Ebay, Amazon Books, and DePaul Bookstore.	2.00	Posted Design.zip and sent documents to Sergey and Jim.
4/14/2005	Compiled Design document for Sergey, includes screenshots of Amazon, Ebay, and DePaul Bookstore, and a Entity-Relationship Diagram for the Database Design.	1.00	
4/14/2005	Worked on Microsoft SQL Database for Book Auction System. Created 5 out of 20 tables that I cited in my initial design document suggestions to Sergey.	5.00	
4/15/2005	Further developed Auction System Entity-Relationship Diagram for SQL Server Database.	7.00	Posted and Sent Sergey Auction ERD.zip
4/16/2005	Worked on UML Class Diagram for Book Auction System. This gave me an idea of how the implementation should proceed based on preliminary design document.	7.00	
4/17/2005	Started on preliminary implementation for the Book Auction System. Designed a bunch of classes in Java based on preliminary design document. However, since the group plans to use ASP.NET, my Java applications can be easily imported into J#, a language compatible with ASP.NET.	9.00	
Week 3 Total		31.00	

Week 4 (April 18 - April 24)			
4/18/2005	Emailed Jim and Sergey to inquire if they needed any help with the final game requirements. No one responded to this request.	0.00	
4/19/2005	Emailed Sergey if he needed help for the design. No one responded.	0.00	
4/21/2005	Started implementation for the Book Auction System with J# classes..	8.00	
4/21/2005	Emailed Jim and Sergey to update them about how I wanted the implementation process to move forward. Suggested that I do the backend code, and Sergey/Jim do the frontend code. No one responded to this email.	0.25	
4/22/2005	I realized that J# and C# are very similar languages, so I ported all of my J# classes into C#, since the group preferred C#. I left two ASP.NET pages in J# for compatibility reasons.	1.00	
4/22/2005	Jim contacted me on how the implementation was going and if he could help. However, I didn't have anything substantial for Jim to work on at this point.	0.00	
4/22/2005	Implemented C# back-end sourcecode.	8.00	
4/23/2005	Finished implementing C# backend code.	8.00	
4/24/2005	Worked out some database design issues on a UML diagram after the final design document was approved. None of my suggestions for the design were included.	4.00	
4/24/2005	Zuku contacted me about letting Sergey implement the Stored Procedures for the database from the final design. Expressed my concerns about the design. Declined help since I didn't know where the implementation was going at this point.	0.25	
Week 4 Total		29.50	
Week 5 (April 25 - May 1)			
4/28/2005	Sent an email to the entire team addressing communication and implementation issues that Zuku brought to my attention.	2.00	
4/28/2005	Started working on Front-end design for Book Auction System. Designed pages in ASP.NET and CSS Style Sheet for Default.aspx, Register.aspx, Register2.aspx, and Login.aspx	8.00	
4/29/2005	Posted login and password details on yahoo group for anyone wanting to view the progress of the site.	0.00	
4/29/2005	Emailed Jim about the timetable for the implementation	0.25	
4/29/2005	Finished designing pages for login.aspx, forgotUser.aspx, browse.aspx	8.00	
4/29/2005	Uploaded SQL database on skitowns.us	0.50	Posted BookAuctionDB.MDF
4/29/2005	Asked Jim to help me out with SQL database on MSN Instant Messenger	0.25	
4/30/2005	Updated Jim on the implementation	0.10	
4/30/2005	Finished designing pages for browse.aspx, results.aspx, and auction.aspx. Bid.aspx, Account.aspx, and Admin.aspx are left.	8.00	
4/30/2005	Started thinking about how to manage discussions.	0.25	
4/20/2005	Posted implementation update on Yahoo Group.	0.00	
5/1/2005	Finished Bid.aspx, Account.aspx, and most of administration page.	8.00	
5/1/2005	Started to clean up the code, and fix bugs in the system.	1.00	
5/1/2005	Posted implementation update on Yahoo Group.	0.00	
Week 5 Total		36.35	
Week 6 (May 2 - May 8)			
5/2/2005	Converted the SQL statements into stored procedures. Created 30 stored procedures	2.00	
5/2/2005	Added more tables to database based on stored procedures	2.00	
5/3/2005	Finished converting stored procedures. Added another 15 stored procedures to the database.	2.00	
5/4/2005	Started to debug pages once more. Discovered a serious bug in code that rendered the database inoperable.	12.00	
5/5/2005	Posted details on how everyone could log in to the backup server to help with the implementation.	0.00	
5/6/2005	Still debugging pages today.	10.00	
5/7/2005	Had to re-implement backend sourcecode from a couple of weeks ago. Serious flaw in which new Users are not able to get through registration process.	8.00	
5/8/2005	Finished fixing backend source code. Site was completed as promised and was ready to be tested. However, there were some serious improvements that needed to be made, but the site was running. Improvements including testing XML module, admin module, and registration module.	14.00	
Week 6 Total		50.00	

Week 7 (May 9 - May 15)			
5/9/2005	Emailed group and Elliott once again in response to an email by Zuku informing the group of communication and implementation issues.	2.00	
5/10/2005	Notified the group that I was going to finish testing and debugging the bluejay.gotdns.com site	0.10	
5/10/2005	Started testing administration module.	8.00	
5/10/2005	Fixed database error that was rendering the site to be unavailable.	0.50	
5/11/2005	Started testing user registration module.	8.00	
5/11/2005	Met with Chris, Andrew, and Jason about Presentation for Preview Demo. Weighed the PROs and CONs of the two sites being implemented. We came to a decision that Chris should have final say over which implementation gets presented for the Preview Demo.	2.00	Meeting
5/11/2005	Talked to Zuku about the decision that was made at the meeting today. Zuku and I came to an understanding about letting Chris have the final decision for the Presentation.	0.25	Phone
5/12/2005	Last day of testing and debugging site. Fixed user registration and provided extra validation on the rest of the site. Cleaned up code some more and made the site 100% reliable as a backup solution for the Preview Demo today.	16.00	
5/12/2005 3AM	Sent multiple email's to the entire group to discuss the current frustration's that the group was experiencing. Tried to mediate tensions between Andrew and Jim. However, this email was meant for everyone.	1.00	
5/12/2005 3PM	Let the group know that bluejay.gotdns.com was ready as an alternate for the Preview Demo	0.00	
5/12/2005 4PM	Fixed the user registration page once more, because Zuku was not able to register a new user. The system could not handle new user accounts and old user accounts on the same page. Therefore, I had to disable some features on the old user's accounts so new accounts could be activated properly.	0.50	
5/12/2005 8PM	Group decided to freeze all coding and present Sergey's site next week since it went well for the Preview Demo. Some team members wanted to continue coding, but the majority of the group decided against it.	0.50	
Week 7 Total		38.85	
Week 8 (May 16 - May 22)			
5/20/2005	Compiled sourcecode from site and went through each piece of code to include comments for the Project booklet	3.00	Uploaded sourcecode.zip and screenshots.zip to BackUp System Folder
5/21/2005	Finished taking screenshots of the backup system and compiling sourcecode into .txt format for project booklet	4.00	
5/21/2005	Updated my timesheet to be as detailed as possible.	4.00	
5/21/2005	Uploaded screenshots and sourcecode to Yahoo group.	0.00	
Week 8 Total		11.00	
Total Time Spent on Project		210.20
