We major in careers.[™]

What? DeVry's Passport2College Program is available to high school students who will be entering their junior or senior year in the Fall 2008.

No Tuition Cost. Students may take one of the courses listed on the next page, which could provide them with college credits.

Who? You should apply for the Passport2College Program if:

- You will be graduating from high school and want to get a jump-start on your college education.
- You have an interest in business and/or technology.
- You have a GPA of 3.0 or higher.
- You are a U.S. citizen or have permanent residency status.

Why?

- Earn college credit from a regionally accredited school while you are still in high school without having to pay tuition.
- Take courses taught by highly qualified, passionate and dedicated college professors.
- Have a flexible schedule that fits your life so you can still enjoy the summer.
- Make your college admissions application stand out over your competition.

When? Classes will meet for 6 weeks beginning 7/7/2008, and ending on 8/15/2008.

How? Complete the attached application and submit it with the items listed on the back of the application.

Transportation provided to the Fort Washington campus for those who qualify.

Don't delay!

Application deadline is June, 20, 2008. For more information on DeVry's Passport2College Program:

Courses

BUSN- 115 Introduction to Business and Technology

This course introduces business and the environment in which business operate. Students examine the roles of major functional areas of business and interrelationships among them. Organizational theories and techniques are examined, and economics, cultural, political and technological factors affecting business organizations are evaluated.

3 credit hours. This course is offered at Fort Washington and Center City Philadelphia locations.

COMP-129 PC Hardware and Software with Lab

This course explores the PC systems from software, hardware and operating system points of view. Hardware topics include system boards, processors, memory, power supplies, input/output (I/O) ports, internal adapters, printers and basic networking devices. Software topics include client/server operating systems and installation, as well as licensing software applications.

3 credit hours. This course is offered at the Fort Washington Campus only.

MATH-114 College Algebra

This course focuses on topics such as basic treatment of algebraic expressions, solving linear equations and inequalities, graphing linear equations and inequalities, polynomial operations, positive and negative integral exponents, factoring, systems of linear equations, radical and rational expressions, quadratic equations and various application problems. Eligibility to enroll in the course is based on placement results.

4 credit hours. This course is offered at Fort Washington and Center City Philadelphia locations.

SPCH-275 Public Speaking

This course teaches basic elements of effective public speaking. Topics include audience analysis, organization, language, delivery and nonverbal communication. Practical application is provided through a series of individual and group presentations in a variety of rhetorical modes.

3 credit hours. This course is offered at the Fort Washington Campus only.

NETW-202- Introduction to Networking with Lab

This course introduces the underlying technology of local area networks (LANs), wide area networks (WANs) and the Internet. Topics include networking media, the Open System Interconnection (OSI) model, transmission control protocol/Internet protocol (TCP/IP), an overview of routing and switching, and small network configuration and troubleshooting. Students prepare and test cabling and become familiar with protocol analyzers.

3 credit hours. This course is offered at the Fort Washington Campus only.

ECT-108 Programming Concepts with Lab

This course familiarizes students with programming logic, including basic control structures, modularization and systems programming. Using high-level languages such as flowchart-based languages, students apply programming concepts to technical problems in practical situations.

4 credit hours. This course is offered at the Fort Washington Campus only.

PSYC-110 Psychology

This course provides a foundation for understanding, predicting and directing behavior. Organized within a framework encompassing foundations, general topics and applications, the course provides an understanding of how psychological principles and concepts relate to professional and personal life. Topics include learning, attitude formation, personality, social influence, dynamics of communication, conflict resolution, motivation, leadership, and group roles and processes.

3 credit hours. This course is offered at the Fort Washington Campus only.

*Courses offered based on enrollment.
