ATTACHMENT A

ADMISSIONS POLICY FOR DECONCENTRATION

INTRODUCTION: In an ongoing effort for the Housing Authority to meet or exceed the laws and regulations regarding its public housing programs, the following Deconcentration Policy has been developed in order to comply with the Quality Housing and Work Responsibility Act of 1998, Section 513.

INCOME MIX TARGETING: To meet the requirements of the Act and subsequent HUD regulations, at least 40 percent of families admitted in any fiscal year to public housing by the Housing Authority must have incomes that do not exceed 30% of the area median.

PROHIBITION OF CONCENTRATION OF LOW-INCOME FAMILIES: The Housing Authority will not, in meeting this income mix targeting, concentrate very low-income families, or other families with relatively low incomes, in public housing units in certain projects or certain buildings. The Housing Authority will review the income and occupancy characteristics of the housing projects and the buildings of each project annually to ensure that a low-income concentration does not occur or, that steps are taken to reduce any concentration of poverty already in existence.

DECONCENTRATION: The Housing Authority will make every effort to deconcentrate families of certain income characteristics within the Authority developments. To achieve this, the Housing Authority will offer incentives for eligible families having higher incomes to occupy dwelling units in projects predominantly occupied by eligible families having lower incomes, and provide for occupancy of eligible families having lower incomes in project predominantly occupied by eligible families having higher incomes. Incentives by the Housing Authority allow for the eligible family to have the sole discretion in determining whether to accept the incentive and the Housing Authority will not take any adverse action toward any eligible family for choosing not to accept these incentives. The skipping of a family on the waiting list to reach another family to implement this Deconcentration Policy shall not be considered an adverse action. As such, the Housing Authority will continue to accept applications and place the individuals on a waiting list.

Selection will be made based on a combination of application date and time, and an income target mix. A family may be “skipped over” to offer a vacancy to the first qualifying family with a targeted income. This Authority will define a “higher-income family” as one earning more than the calculated average for that development, and a “lower-income family” as one earning less than the calculated average.

The Housing Authority will track the income mix within each project as an effort to avoid a concentration of higher or lower income families in any one building or development. From the tables below, there is a concentration of Very-Low income families in all the HATC developments.

The HUD FY 02 Income Limits and Fair Market Rent Data show the thirty, fifty and eighty percents of the Median Income per number in a household are as follows:

# Person	30% of Extremely Low (\$)	50% Very Low (\$)	80% Low (\$)
1	14950	24900	38100
2	17050	28450	43500
3	19200	32000	48950
4	21350	35550	54400
5	23050	38400	58750
6	24750	41250	63100
7	26450	44100	67450
8	28150	46950	71800

On 05/08/02, the Authority had 90 of its 105 public housing units filled as follows:

% of median	# families	%
0-30	66	62.1
31-50	15	25.1
51-80	9	5.8

Project (Units)	<30% of Median		<50% of Median		<80% of Median		Total Units and Vacancies	
	#	%	#	%	#	%	# Units	#Vacs
TX59480-001	40	38.3	21	95.4	1	100	24	5
TX59480-003	81	.77	45	91.8	5	100	51	5
TX59480-004	64	61.	28	93.3	3	100	30	5

On 05/08/2002, the Authority had 366 families on its waiting list. Of the total, 361 (or 98.6%) had incomes under 30% of the median, 15 (or 41.5%) had incomes above 30% but below 50% of the median, and 5 (1.37%) had incomes above 50% but less than 80% of the median income. At **\$67,450**, the Area Median Income is very high when compared to the average income for each development.

	Summit Oaks TX59480-001	Alexander Oaks TX59480-003	Eastern Oaks TX59480-004
Average Income	\$9,691	\$16,269	\$13,832

Each project has greater than 50% (percent) of the families with thirty (30) percent or less of the median income. The waiting list has greater than 70% (percent) of families with thirty percent or less of the median income. The admission requirement is being met and monitoring will continue to be conducted to confirm that at least forty (40) percent of all new leases will be to families that earn an amount equal to or less than thirty (30) percent of median income.

Efforts through marketing and outreach shall be made to increase the number of families with incomes greater than the average income in each development in order to avoid concentrations of very low-income families as per the requirements of the QHWRA of 1998. Census data shows Travis County has 60,700 renter households (with housing problems) that earn incomes that qualify them for Public Housing assistance. Over 46% of these are paying over 50% of their incomes for housing. Obviously, there is a tremendous shortage of affordable housing for low-income families. Deconcentration will be difficult, if not impossible, to achieve and, at the same time, accomplish our goal of providing housing for those that need it most.

Over 90% of the families in each development are earning less than 50% of the AMI; this is a definite concentration of poverty. The Authority's waiting list shows that **only 4.3%** of the eligible families are earning over 50% of the AMI. Obviously, some higher incomes do exist, and every effort is being conducted to attract higher income families to public housing.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

The Housing Authority will continue with its two major activities, **Crime Prevention and Drug Prevention**. The Crime Prevention activity involves creating a neighborhood watch program and making physical improvements to enhance security in all developments. With the help of the Austin PD, residents will be trained to identify and report criminal activity. The authority will also implement security-related physical improvements that will act as barriers to heavy foot traffic (by non-residents) that is believed to be a source of criminal activity. The goal is to make the housing developments a safer place to live, while the more immediate objective is to reduce the crime rate in each PHA development. The second activity being conducted is **Drug Prevention** and involves three separate, but related, programs designed to foster behavior in our youth that is a desirable alternative to that caused by drugs. These programs include computer training, after-school academic enrichment, drug prevention classes, recreational activities, and holiday and summer camp activities for all developments. The goal is to reduce the number of youth involved in drugs and crime and the objective is to get them involved in activities that will enhance their way of life. Success can be evaluated by monitoring the police report on crimes committed involving residents and by tracking the number of youth participating in plan activities.
