**SUPPLEMENTARY INFORMATION:** The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

**I. Abstract**

The Survey of Manufactured (Mobile) Home Placements collects data on the characteristics of newly manufactured homes placed for residential use including number, sales price, location, and other selected characteristics. HUD uses the statistics to respond to a Congressional mandate in the Housing and Community Development Act of 1980, 42 U.S.C. 5424 note, which requires HUD to collect and report manufactured home sales and price information for the nation, census regions, states, and selected metropolitan areas and to monitor whether new manufactured homes are being placed on owned rather than rented lots. HUD also used these data to monitor total housing production and

its affordability. Furthermore, the Survey of Manufactured (Mobile) Home Placements serves as the basis for HUD's mandated indexing of loan limits. Section 2145 (b) of the Housing and Economic Recovery Act (HERA) of 2008 requires HUD to develop a method of indexing to annually adjust Title I manufactured home loan limits. This index is based on manufactured housing price data collected by this survey. Section 2145 of the HERA of 2008 also amends the maximum loan limits for manufactured home loans insured under Title I. HUD implemented the revised loan limits, as shown below, for all manufactured home loans for which applications are received on or after March 3, 2009.

Loan type	Purpose	Old loan limit	New loan limit
Manufactured home improvement loan ...	For financing alterations, repairs and improvements upon or in connection with existing manufactured homes.	\$17,500	\$25,090
Manufactured home unit(s) .....	To purchase or refinance a Manufactured Home unit(s) .....	48,600	69,678
Lot loan .....	To purchase and develop a lot on which to place a manufactured home unit.	16,200	23,226
Combination loan for lot and home .....	To purchase or refinance a manufactured home and lot on which to place the home.	64,800	92,904

**II. Method of Collection**

The methodology for collecting information on new manufactured homes involves contacting a monthly sample of new manufactured homes shipped by manufacturers. The units are sampled from lists obtained from the Institute for Building Technology and Safety. Dealers that take shipment of the selected homes are mailed a survey form for recording the status of the manufactured home. Each successive month, the dealer is contacted by telephone and provides updated status information about the home. Contact continues until the selected home is placed.

This notice also lists the following information:

*Title of Proposal:* Rent Reform Demonstration.

Description of the need for information and proposed use: The Department is conducting this study under contract with MDRC and its subcontractors (Branch Associates, The Bronner Group, Decision Information Resources, Quadel Consulting Corporation, and the Urban Institute). The project is a random controlled trial of a new alternative rent system. Families will be randomly assigned to either participate in the new/alternative rent system or to continue in the current system. Outcomes of the alternative system are hypothesized to be increases in earnings, more accurate reporting of earnings, and job retention. Random assignment will limit the extent to which selection bias drives observed

results. The demonstration will document the progress of a group of Voucher holders, who will be drawn from both the current residents and new enrollees. The intent is to gain an understanding of the impact of the alternative rent system on the families as well as the administrative burden on Public Housing Agencies (PHAs). PHAs currently participating in the Moving to Work (MtW) Demonstration are being recruited to participate in this demonstration.

Data collection will include the families that are part of the treatment and control groups, as well as PHA staff. Data will be gathered through a variety of methods including informational interviews, direct observation, surveys, and analysis of administrative records. The work covered under this information request is for interviews and the baseline survey. Additional work will be undertaken in subsequent task orders and covered under a separate information collection request.

Members of the affected public:

PHA Staff	Approximately 25 (i.e., assuming up to 5 staff at up to 5 PHAs)
Families with housing vouchers, remaining in the current rent system (control group): .....	Up to 2,000.
Families with housing vouchers, enrolled in the alternative rent system (treatment group): .....	Up to 2,000.

Estimation of the total number of respondents, frequency of response, and hours needed to prepare the information collection including number of hours of response:

Instrument	Number of respondents	Number responses per respondent	Average burden/response (in hours)	Total burden hours
Informed Consent Form (ICF) .....	4,000 .....	1	Up to 15 minutes (or .25 hours) .....	1,000 hours.
Baseline Information Form (includes completion of the Contact Sheet).	4,000 .....	1	30 minutes, on average (or .50 hours) ....	2,000 hours.
Tracking survey sample .....	4,000 .....	1	Maximum of 30 minutes (or .50 hours), mainly to update contact information.	2,000 hours.
Preliminary data collection related to implementation of alternative rent model. Meeting could include: PHA case management staff, PHA data management staff, or other PHA staff involved in rent reform activities.	25 staff total (5 staff * 5 sites).	1	Meetings to be incorporated into technical assistance and monitoring visits, and projected to run 30-60 minutes.	1,500 hours (or 60 minutes * 25 staff).

Total: 6,500 hours.

*Status of the proposed information collection:* Pending OMB approval.

**Authority:** Title 13 U.S.C. Section 9(a), and Title 12, U.S.C., Section 1701z-1 *et seq.*
